

Free reading The dying earth 1 jack vance (PDF)

John Holbrook Vance (August 28, 1916 – May 26, 2013) was an American mystery, fantasy, and science fiction writer. Though most of his work has been published under the name Jack Vance, he also wrote several mystery novels under the name John Holbrook Vance. Vance has published 11 mysteries as John Holbrook Vance and 3 as Ellery Queen.

The *Dying Earth* is a fantasy series by the American author Jack Vance, comprising four books originally published from 1950 to 1984. Some have been called picaresque; they vary from short story collections to a fix-up novel created from older short stories, perhaps all the way to novel.

Jack Vance, who in dozens of fantastical novels created alternative worlds past and present, imagining their alien societies in evocative detail, died on May 26 at his home in Oakland, Calif. The Vance Integral Edition project successfully concluded in 2006, gathered and restored the work of Jack Vance in a 44-volume edition. The all-volunteer project broke new ground in textual restoration methodology and was described by his peers as a major genius and the greatest living writer of science fiction and fantasy.

Jack Vance, an award-winning writer of mystery, fantasy, and science fiction, died this week at age 96. *Hard Science Fiction* magazine, *Locus*, reports that Vance died on May 26th in Oakland.
