days of the soviet union as one of the largest international hedge fund managers author martin armstrong found himself in the middle of perhaps the greatest espionage or attempt at a regime change for russia in modern history the plot to seize russia pulls back the curtain to expose the most extraordinary attempt to seize power in modern history but with the pen rather than armies these declassified documents reveal a plot that has altered our thinking about the relations between the united states and russia the thirst for power comes seething through every line of these papers that alter our perception of reality change the course of history and now threaten us with world war iii in late 2017 and early 2018 south africa and zimbabwe both experienced rapid and unexpected political transitions in zimbabwe robert mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president emmerson mnangagwa over a twelve day period in february 2018 south african president jacob zuma was prematurely forced from office by his former deputy president cyril ramaphosa the widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions new leaders new dawns explores these political transitions and the way they were received contributors consider how the former liberation heroes mugabe and zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of ramaphosa and mnangagwa foreshadowed bringing together fourteen leading international scholars of southern africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient while the time had come for zuma and mugabe to go there is little in the personal histories or early policy actions of ramaphosa and mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face new leaders new dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern africa this volume attempts to critically analyze chaim kaufman s ideas from various methodological perspectives with the view of further understanding how stable states may arise

after violent ethnic conflict and to generate important debate in the area after the cold war the west became optimistic of their ability to intervene effectively in instances of humanitarian disasters and civil war unfortunately in the light of bosnia somalia and rwanda questions of the appropriate course of action in situations of large scale violence became hotly contested a wave of analysis considered the traditional approach of third parties attempting to ensure that the nation was built on the basis of a ruling power share between the opposing sides of the conflict to be overwhelmingly problematic and perhaps impossible within this movement kaufman wrote a series of articles advocating separation of warring sides in order to provide stability in situations of large scale violence his theorem provoked extreme responses and polarized opinion contradicting the established position of promoting power sharing democracy and open economies to solve ethnic conflict and had policy implications for the entire international community this book was previously published as a special issue of security studies

New Leaders, New Dawns?

2022-06-17

in late 2017 and early 2018 south africa and zimbabwe both experienced rapid and unexpected political transitions in zimbabwe robert mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president emmerson mnangagwa over a twelve day period in february 2018 south african president jacob zuma was prematurely forced from office by his former deputy president cyril ramaphosa the widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions new leaders new dawns explores these political transitions and the way they were received contributors consider how the former liberation heroes mugabe and zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of ramaphosa and mnangagwa foreshadowed bringing together fourteen leading international

scholars of southern africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient while the time had come for zuma and mugabe to go there is little in the personal histories or early policy actions of ramaphosa and mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face new leaders new dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern africa

winner library of virginia literary award for nonfiction winner eugene feit award in civil war studies new york military affairs symposium winner of the dan and marilyn laney prize of the austin civil war round table finalist jefferson davis award of the museum of the confederacy best books of 2014 civil war monitor 6 civil war books to read now diane rehm show npr lee s surrender to grant at appomattox court house evokes a highly gratifying image in the popular mind it was many believe a moment that transcended politics a moment of healing a moment of patriotism untainted by ideology but as elizabeth varon reveals in this vividly narrated history this rosy image conceals a seething debate over precisely what the surrender meant and what kind of nation would emerge from war the combatants in that debate included the iconic lee and grant but they also included a cast of characters previously overlooked who brought their own

understanding of the war's causes, consequences, and meaning. In *Appomattox*, Varon deftly captures the events swirling around that well-remembered but not well-understood moment when the civil war ended. She expertly depicts the final battles in Virginia when Grant's troops surrounded Lee's half-starved army, the meeting of the generals at the McLean House, and the shocked reaction as news of the surrender spread like an electric charge throughout the nation. But as Varon shows, the ink had hardly dried before both sides launched a bitter debate over the meaning of the war and the nation's future. For Grant and for most in the North, the Union victory was one of right over wrong, a vindication of free society. For many African Americans, the surrender marked the dawn of freedom itself. Lee, in contrast, believed that the Union victory was one of might over right. The vast, impersonal Northern war machine had worn down a valorous and unbowed South. Lee was committed to peace but committed too to the restoration of the South's political power within the Union and the perpetuation of white supremacy. These two competing visions of the war's end paved the way not only for Southern resistance to Reconstruction but also our ongoing debates on the Civil War 150 years later. Did America's best days lie in the past or in the future? For Lee, it was the past, the era of the founding generation. For Grant, it was the future, represented by Northern moral and material progress. They held, in the end, two opposite views of the direction of the country and of the meaning of the war that had changed that country forever.

The Crown Colonist

1936

Custer confronts his destiny at Little Big Horn and his legend lives on through his Cheyenne son. Never one to proceed cautiously when an impetuous move could win him glory, Custer marched his famed Seventh Cavalry against the Sioux in June 1876. He was thirty-six already, a mythic hero to some with the possibility of a presidential nomination looming in his future, while to others he was an arrogant and dangerous fool, misguided in his determination to subjugate the Plains tribes. What should have been his greatest triumph became an utterly devastating defeat that would ring through the ages and serve as a turning point in the Indian Wars.

six years ago two ordinary people that's us set off on an affordable adventure that has enhanced our lives beyond expectation in fact as we approach our mid sixties we exclaim this period to be the most exciting of all perhaps a fascinating aspect

of the concept is that it s available to many people need only identify their desire from life and then pursue it seize it we found our passion it follows that we understand our purpose we embarked on this ongoing journey by giving up our physical home and storing our movable possessions and took to living on the road as we travel in many parts of the world in search of exciting and challenging hikes as we struggle and sweat up and down the mountain slopes the loving relationship we enjoy is further bonded while we face the risks and pleasures on display in this endlessly beautiful planet we don t limit ourselves to a fixed abode rather we try to inhabit the world albeit tiny bits years before we developed a fascination for hiking particularly to mountain peaks however it could be any activity as an ancillary benefit we discovered the enthrallment of meeting interesting people and being enveloped in different cultures and customs a truly broadening experience the natural beauty existing in the world is beyond belief and seems infinite especially as no scene ever repeats itself the taste of freedom as we became liberated from the daily grind of city life and material possessions is something we never envisioned we always believed we were free perhaps above it all a process of discovery and self growth has stimulated more meaning and understanding within our lives we also realize the foregoing is but the beginning as we race against the inevitable diminishing of time and good health that stalks us all the book provides visuals in the form of a limited selection of photographs attesting to our adventures the text discusses some personal philosophy anecdotes and experiences of living on the road and in the wilds including incidents and humorous occurrences that make for a full and rounded life

every four years journalists propel a presidential campaign into the national consciousness new candidates and issues become features of the political landscape while familiar rituals are reshaped by the unpredictability of personalities and events underlying this apparent process of change however is a

recurrent cycle of political themes and social attitudes a pulse of politics that locks the process of choosing a president into a predictable pattern in this bold and brilliant examination of modern presidential politics james david barber reveals the dynamics of this cycle and shows how the pattern of drift and reaction may be broken in this most critical of political choices barber probes beneath the surface of campaigns to detect a steady rhythm of major political motifs the theory he advances in colorful narrative chapters is that three dominant themes conflict conscience conciliation recur in foreseeable twelve year cycles a combative campaign truman vs dewey in 1948 is followed four years later by a moral crusade eisenhower vs stevenson in 1952 which in turn is succeeded by a contest to unify the nation the eisenhower stevenson rematch in 1956 the pattern is then renewed the fierce combat between kennedy and nixon in 1960 was followed in 1964 by the contest of principle between johnson and goldwater in 1968 richard nixon defeated hubert humphrey by promising to bring the nation together monitoring shifting national political moods is a new elite the journalists barber makes the case that the party system increasingly clumsy and inflexible can no longer pick up the beat of politics instead it is through newspapers magazines and television that the main themes of a campaign are sounded created and destroyed this new edition of the pulse of politics provides a timely guide to the themes of the 1992 presidential campaign and to future elections it will be of special interest to political scientists historians media analysts and journalists
