when the service engine soon light comes on you know that it s either time for regular maintenance or a fault needs to be corrected here are some of the most common causes of a service engine soon light 1 loose or faulty gas cap if you ve just filled up the tank you may not have put the gas cap back in place the service engine soon light is quite easy to identify depending on your car s model it could be displayed as service due or check engine soon in either red or yellow colors there are several reasons why your vehicle might display this symbol here are some of them things you should know the service engine soon light indicates that you ve got a minor engine issue or it s time for scheduled maintenance the most common causes of a service engine soon light are a loose gas cap low fluids bad sensors or some other non critical issue a flashing or red service engine soon light a red warning light indicates a severe vehicle issue that requires immediate attention if the service light pops up while driving pull over immediately and tow your car to the nearest mechanic or call mobile mechanics like autonation mobile service 1 indicator of potential issues the service engine soon light is a part of your car s onboard diagnostics system obd ii when this light illuminates it signals that the vehicle s computer has detected a potential issue with the engine emission or other crucial systems 2 not a cause for immediate panic how to fix the service engine soon light check your fuel cap check and fill your car s fluids check your spark plugs get a scan tool to read the trouble codes check your fuel cap if you ve pulled away from the fuel station when the warning light comes on start by checking the fuel cap it is often the primary cause pull over and turn 8 most common causes of your service engine soon light engine misfires bad gas loose or faulty gas cap fouled spark plugs bad oxygen sensor malfunctioning mass airflow sensor low fluid levels overdue maintenance what to do if your service engine light comes on how to reset your check engine light the bottom line other reasons for the yellow signal might include a communication failure in the computer system which can be corrected at most service stations by a diagnostic or a problem with the vehicle s anti locking brakes these cause your brakes to lock in place and can be corrected by tapping lightly on the brake as you slowly decelerate the vehicle a check engine light cel also known as a malfunction indicator light mil diagnostic trouble code light dtc or a service engine soon light ses is a warning light that turns on when the vehicle has identified a mechanical or an electrical problem with the engine traction control abs system transmission system or the four wheel driv if the service engine soon light comes on when you are driving it s usually nothing to worry about you should check your vehicle manual for the exact meaning but in most cases it means that your vehicle is due a routine service or fluid top up here are some common reasons why the service engine light comes on reason 1 1 service engine light what does the service engine light mean 2 car engine repair service common causes of the service engine soon light 3 what to do when the service engine soon light appears 4 can you diagnose a service engine soon light 5 faqs 6 final considerations service engine soon light 03 13 2024 seeing your service esc light come on while driving can catch you off guard this dashboard warning is your car s way of telling you there s something up with the electronic stability control system a key feature that helps keep your vehicle steady and on track especially on slippery roads it s a heads up that shouldn t be ignored what causes service esc light comes on we have seen the service esc light meaning let s see the probable causes the most common cause of esc light is either you have a lousy wheel speed sensor or the system is deactivated however these are not the only probable causes they know that the car needs servicing every 10 000 miles or 12 months once the miles hit 10 000 after the service computer has been reset the light will illuminate if you don t reach the prescribed mileage limit the indicator will come on usually a month before the 12 months is up the service engine light comes on in your vehicle because one or more of your vehicle s computer sensors has diagnosed that something isn t quite right when the light comes on a code is stored as the reason for triggering the light when this light comes on it indicates that service is necessary however the light doesn t know if service has already been provided all it knows is that it s been 5 000 miles or 6 months or since the last time the light was reset any time the mil symbol lights up on your dashboard your car s brain is trying to tell you something is out of a normal range it could be something simple like a worn part that needs replacing but when it comes to the check engine light it s never quite as simple and can be an indicator of any number of issues some quite pricey to fix according to car md check engine light repair
