in the financial accounting paper of b com examinations under different indian universities including those that have adopted the cbcs system it also meets the requirements of students appearing in the accounting paper at the foundation examinations of institute of chartered accountants of india the institute of company secretaries of india and the institute of cost accountants of india fully revised and updated a fascinating read gleeson white artfully captivates the reader as she explores the fast evolving language metrics actors and laws that are profoundly reshaping capital in the 21st century kate raworth author of doughnut economics climate change is here and capitalism is implicated it s programmed to privilege profit and growth over human communities and the living earth we need to change this system and we need to do it now six capitals charts the rise of four movements designed to overthrow capitalism as we know it multi capital accounting for society nature and profit the push for a new corporation legally bound to benefit nature and society while making a profit ecosystem accounting for nations and legal rights for nature which resonate with indigenous earth centred laws these movements are critical for the future of human life on this planet together they override the profit driven modern corporation the growth driven nation state and the legal status of the natural world as lifeless property multi capital and ecosystem accounting benefit corporations and the rights of nature movement are here to stay six capitals tells their story from their first emergence in the postwar era to today this revised updated edition is for the new generations of business leaders entrepreneurs activists accountants economists scientists farmers food growers and distributors teachers parents politicians bureaucrats and concerned citizens everywhere broaden financial reports to include measures of social and environmental issues and just watch how it changes the behaviour of business people gleeson white makes a good case for the success of her unlikely revolutionaries ross gittins sydney morning herald six capitals reveals the critical role of accounting in reimagining the way we do business and make policy in the twenty first century it s time for everyone to pay attention carl obst lead author united nations system of environmental economic
