rea s ap biology crash course get a higher advanced placement score in less

time read's crash course is perfect for the time-crunched student, last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your AP Biology exam yet? How will you memorize all those facts before the test? Do you wish there was a fast and easy way to study for the exam and boost your score? If this sounds like you, don't panic! Read's AP Biology Crash Course is just what you need. Our crash course gives you targeted, focused review: study only what you need to know. The crash course is based on an in-depth analysis of the AP Biology course description, outline, and actual AP test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Our easy-to-read format gives students a crash course in the major ideas, theories, and concepts in biology, including molecules and cells, heredity and evolution, and organisms and population. The book includes a discussion of AP Biology themes and their relationship to the test, the 12 AP Biology labs, essay writing exemplars, data analysis, graphing techniques, and setting up an experiment. Expert test-taking strategies, written by an AP Biology teacher, the author shares his detailed question-level strategies and explains the best way to answer the multiple-choice and essay questions by following his expert advice. You can boost your overall point score. Take Read's free practice exam after studying the material in the crash course. Go online and test what you've learned. Our free, full-length practice exam features timed testing, detailed explanations of answers, and automatic scoring. The exam is balanced to include

every topic and type of question found on the actual ap exam so you know you re studying the smart way when it s crucial crunch time and your ap exam is just around the corner you need rea s ap biology crash course
