murderers are accordingly arrested but in cases such as street corner scuffles or speeding motorists the patrolman must decide whether to intervene should the scuffle be stopped should the motorist be pulled over and if he does just how to intervene by arrest a warning an interrogation in most large organizations the lowest ranking members perform the more routinized tasks and the means of accomplishing these tasks are decided by superiors but in a police department the lowest ranking officer the patrolman is almost solely responsible for enforcing those laws which are the least precise the most ambiguous three ways or styles of policing the watchman the legalistic and the service styles are analyzed and their relation to local politics is explored in the final chapter mr wilson discusses if and how the patrolman s behavior can be changed and examines some current proposals for reorganizing police departments he observes that the ability of the patrolman to do his job well may determine our success in managing social conflict and our prospects for maintaining a proper balance between liberty and order
