of theocracy where once the spread of christianity and civilizing the world were used as pretexts for colonization today a new white man s burden makes use of human rights and democracy to justify imperial aggression however because after centuries of decline the islamic world is incapable of mobilizing a defense the western powers as part of their age old strategy of divide and conquer have fostered the rise of islamic fundamentalism to both serve as agent provocateurs and to malign the image of islam these sects known to scholars as revivalists opposed the traditions of classical islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors thus were created the wahhabi and salafi sects of islam from which were derived the muslim brotherhood which has been in the service of the west ever since but the story of the development of these islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a rosicrucian myth of egyptian freemasonry which see the muslim radicals as inheritors of an ancient mystery tradition of the middle east which was passed on to the knights templar during the crusades thus forming the foundation of the legends of the holy grail these beliefs would not only form the cause for the association of western intelligence agencies with islamic fundamentalists but would fundamentally shape much of twentieth century history
