backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often the authority on active adventure backpacker is the world s first gps enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish backpacker s editors choice awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured

Backpacker

2001-03

this book advances the current literature on destination marketing by using innovative up to date case studies from a wide geographical representation the contributors examine new methods and marketing approaches used within the field through a combination of theoretical and practical approaches with discussions of topics including image branding attractions and competitiveness the chapters in this volume offer new insight into contemporary developments such as medical tourism islamic tourism and film induced tourism presenting detailed findings and a range of methodologies ranging from surveys to travel writings and ethnography this book will be of interest to students scholars and practitioners in the fields of tourism and marketing

Assistive Technologies for Independent Aging

2004

consumer research is often central to academic studies in many different fields and more recently tourism studies have empirically examined consumer research from various aspects however there is a need to provide information for tourism scholars on how to better understand aspects of tourist behaviour tourist behaviour an international perspective provides a collection of topics from both theoretical and practical approaches to building and examining the theory of how consumers think and act within the context of tourism consumption divided in to six sections the book presents research within the themes of influence motivation choice and consumption and experience with contributions from authors in over 15 countries the book presents an interdisciplinary approach of the latest research in tourist behaviour

Destination Marketing

2015-10-23

the digital infrastructure of media production dissemination and consumption is becoming increasingly complex presenting

the challenge of how we should research the digital journalism environment digital journalism takes many forms we therefore need to revise improve adjust and even invent methods to understand emerging forms of journalism in this book scholars at the forefront of methodological innovations in digital journalism research share their insights on how to collect process and analyse the diverse expressions of digital journalism including online news search results hyperlinks and social media posts as digital journalism content often comes in the form of big data many of these new approaches depart from the traditional methods used in media research in significant ways as we move towards new ways of understanding digital journalism the methods developed for such purposes also need to be grounded in scientific rigour this book aims to share some of the emerging processes by which these methods tools and approaches are designed implemented and validated as such this book not only constitutes a benchmark for thinking about research methods in digital journalism it also provides an entry point for graduate students and seasoned scholars aiming to do research on digital journalism this book was originally published as a special issue of digital journalism

Tourist Behaviour

2016-11-18

social movement studies have grown enormously in the last few decades spreading from sociology and political science to other fields of knowledge as varied as geography history anthropology psychology economics law and others with the growing interest in the field there has been also an increasing need for methodological guidance for empirical research this volume addresses this need by introducing the main methods of data collection and data analysis as they have been used in past research on social movements unlike other volumes the book offers a practical how to approach and not simply a review of the methodological literature each author writes on a method they are very familiar with having used it extensively in their own work and each chapter presents specific discussions on every stage of research from research design to data collection and the use of the information gathered throughout research dilemmas and choices are presented illustrated and discussed the volume offers an essential point of references for anyone undertaking research on social movements
