our noise the story of merge records indie label that got big and stayed small john cook

The story of Merge Records is a tale of indie success that defied the odds. In 1992, John Cook, a former member of the band The Roots, founded the label in his garage in Philadelphia. The label's first release was a cassette of The Roots' live recordings, which sold out quickly. This success led to the signing of other indie acts, including The Roots' album *18th & Vine* in 1995. The album's success was a major breakthrough for the label, as it reached the top of the Billboard 200 chart. This success was followed by the signing of other acts, including The Roots' album *3* in 1997, which also reached the top of the chart. The label's success continued to grow, with the signing of acts like The Roots' album *Things Fall Apart* in 1999, which reached the top of the chart. The label's success was a testament to the power of indie music and the importance of a strong, independent label. The label's success was also a result of the label's focus on quality music and its commitment to its artists. The label's success was a major achievement for John Cook and the Merge Records team. The label's success was a testament to the power of indie music and the importance of a strong, independent label.
