folk stories about the plants of the naupaka he writes hawaiian legend says that the half flower came about when a scorned maiden grabbed a flower and tore it in half she told her lover she would not see him again until he brought her a full flower but he never did from that time on naupakas have had only half a flower and the lover died of a broken heart the hidden life of trees what they feel how they communicate discoveries from a secret world by peter wohlleben book summary abbey beathan disclaimer this is not the original book a groundbreaking discovery that will change how we think of trees forever forester peter wohlleben reflects his deep love for woods and forests and shows us that nothing is as it seems trees are mysterious and despite knowing that trees are alive we think of them as if they are not but what if i tell you that there is significant evidence that point to the fact that they feel pain and are aware of their surroundings interesting huh everything you need to know about the subject is within the hidden life of trees note this summary is wholly written and published by abbey beathan it is not affiliated with the original author in any way when you know that tree experience pain and have memories and that tree parents live together with their children then you can no longer just chop them down and disrupt their lives with larger machines peter wohlleben believe it or not trees and humans are not that different they live together with their children they communicate and support each other it's crazy to even think about it because we have grown with the idea that trees don't amount to much but they actually do that's why the hidden life of trees is such a great read it reveals a mysterious world filled with interesting secrets and facts about this tall plant build empathy for other living things and learn more about the world that surrounds you p s the hidden life of trees is an extraordinary book that shows us that trees are capable of much more than we think p p s it was albert einstein who famously said that once you stop learning you start dying it was bill gates who said

felling removing spraying and trimming tree and shrub planting cultivating transplanting and pruning including the identification and characteristics of trees and more excerpt from trees and how to know them a manual with analytical and dichotomous keys of the principal forest trees of the south the practical study oi trees for many years together with an effort to instruct others has led me to prepare the keys offered in this book they have grown from a few pencil notes relative to the trees in the university grounds and vicinity to a more com prehensive tabulation of the principal forest trees of the southern states all the trees of this territory are not included because an exhaustive list would make the keys so cumbersome as to threaten their practical use on the other hand they include many trees that are not indigenous to the territory it was thought well to do this because the importation of foreign va rieties for ornamental uses has made desirable a knowledge of their
