## **Interim Assessment 1987**

the economic and financial crisis that erupted in southeast asia in july 1997 had continued to deepen and broaden as of december and spillover effects from investor deteriorating confidence in emerging market economies were being felt throughout the global financial system this special interim assessment of the world economic outlook revises regional and global economic projections made by the imf staff as published in the october 1997 issue in light of the crisis charts the buildup to the crisis and its onset and evolution assesses effects on the advanced economies and on private financing for developing countries and raises policy issues that the crisis has posed

## ***Interim Assessment: Atmospheric processes 1987***

in 1989 congress established the nat comm on severely distressed public housing to explore the problems of troubled public housing developments and to establish a plan to address those problems by the year 2000 following several years of research and public hearings the comm s 1992 final report identified the key factors that defined severely distressed housing extensive physical deterioration of the property a considerable proportion of residents living below the poverty level a high incidence of serious crime and management problems as evidenced by a large number of vacancies high unit turnover and low rent collection rates the comm members agreed that existing approaches for improving public housing were inadequate to address the needs of severely distressed developments and proposed the creation of a new program to address comprehensively the social and physical problems of distressed public housing communities originally called the urban revitalization demonstration program this public housing revitalization program soon became known by the acronym hope vi homeownership and opportunity for people everywhere in 1998 under the dept of housing and urban development hud a 5 year evaluation of the hope vi program was begun the interim assessment of the hope vi program was designed to study program outcomes by collecting and analyzing data about 15 hope vi sites once redevelopment was completed and units were reoccupied this report presents the study findings figures and tables this is a print on demand report

## **Interim Assessment, the Causes and Effects of Acidic Deposition 1988**

this book focuses on interim and formative assessments as distinguished from the more usual interest in summative assessment i was particularly interested in seeing what the experts have to say about a full system of assessment this book has particular interest in what information a teacher a school or even a state could collect that monitors the progress of a student as he or she learns the authors were asked to think about assessing the effects of teaching and learning throughout the student s participation in the curriculum this book is the product of a conference by the maryland assessment research center for education success marces with funding from the maryland state department of education

## ***Interim Assessment, the Causes and Effects of Acidic Deposition: Atmospheric processes 1988***

the korean war was the first armed engagement for the newly formed u s air force but far from the type of conflict it expected or wanted to fight as the first air war of the nuclear age it posed a major challenge to the service to define and successfully carry out its mission by stretching the constraints of limited war while avoiding the excesses of total war conrad crane analyzes both the successes and failures of the air force in korea offering a balanced treatment of how the air war in korea actually unfolded he examines the air force s contention that it could play a decisive role in a non nuclear regional war but shows that the fledgling service was held to unrealistically high expectations based on airpower s performance in world war ii despite being constrained by the limited nature of the korean conflict crane exposes the tensions and rivalries between services showing that emphasis on strategic bombing came at the expense of air support for ground troops and he tells how interactions between army and air force generals shaped the air force s mission and strategy he also addresses misunderstandings about plans to use nuclear biological and chemical weapons in the war and includes new information from pilot correspondence about the informal policy of hot pursuit over the yalu that existed at the end of the war the book considers not only the actual air effort in korea but also its ramifications the air force doubled in size during the war and used that growth to secure its position in the defense

establishment but it wagered its future on its ability to deliver nuclear weapons in a high intensity conflict a position that left it unprepared to fight the next limited war in vietnam as america observes the fiftieth anniversary of its initial engagement in korea crane s book is an important reminder of the lessons learned there and as airpower continues to be a cornerstone of american defense this examination of its uses in korea provides new insights about the air force s capabilities and limitations
