Relationships 1972

this edited volume draws together a wide range of exciting developments in the study of marital interaction a significant feature of the book is its focus not only on conflict and negative interactions but also on the processes by which couples maintain happy and constructive relationships the chapters review and integrate the extensive literature in this area as well as presenting important research findings the contributors come from the disciplines of communication social psychology and clinical psychology and have national and international reputations for their work in this area the findings reflect developments in theory and methodology and have important implications for those working to strengthen and repair marital relationships

Understanding Marriage 2002-09-26

biological effects of low level exposures more commonly referred to as belle began as a conference in may 1990 its members are committed to the enhanced understanding of low dose responses of all types to human exposures to chemical and physical agents whether of an expected or paradoxical nature the focus of belle encompasses dose response relationships to toxic agents pharmaceuticals and natural products over wide dosage ranges in both in vitro systems and in vivo systems including human populations while belle promotes the scientific understanding of low level effects its primary goal is the scientific evaluation of existing literature and ways to improve research and assessment methods

Influence of Dose and Its Distribution in Time on Dose-response Relationships for Low-let Radiations 1980

introduces students to the key elements of interpersonal communication

Biological Effects of Low Level Exposures Dose-Response Relationships 1994-05-19

this text provides a solid introduction to the foundations of research methods with the goal of enabling students and professionals in the various fields of education to not simply become casual consumers of research who passively read bits and pieces of research articles but discerning consumers able to effectively use published research for practical purposes in educational settings all issues important for understanding and using published research for these purposes are covered key principles are illustrated with research studies published in refereed journals across a wide spectrum of education exercises distributed throughout the text encourage readers to engage interactively with what they are reading at the point when the information is fresh in their minds this text is designed for higher level undergraduate and graduate programs course instructors will find that it provides a solid framework in which to promote student interaction and discussion on important issues in research methodology

Let's Talk about Relationships 1990

in 1997 the u s environmental protection agency epa established regulatory standards to address health risks posed by inhaling tiny particles from smoke vehicle exhaust and other sources at the same time congress and the epa began a multimillion dollar research effort to better understand the sources of these airborne particles the levels of exposure to people and the ways that these particles cause disease to provide independent guidance to the epa congress asked the national research council to study the relevant issues the result was a series of four reports on the particulate matter research program the first two books offered a conceptual framework for a national research program identified the 10 most critical research needs and described the recommended timing and estimated costs of such research the third volume began the task of assessing initial progress made in implementing the research program this the fourth and final volume gauged research progress made over a 5 year period on each of the 10 research topics the national research council concludes that particulate matter research has led to a better understanding of the health effects caused by tiny airborne particles however the epa in concert with other agencies should continue research to reduce further uncertainties and inform long term decisions
