~~Reveal 2013-04-03 harvard trained theologian meggan watterson~~ marched out of her church at age ten with little girl clarity she knew something tremendously crucial was missing the voices of women watterson became a theologian and a pilgrim to the divine feminine to find the missing stories and images of women s spiritual voices she knew women s voices had never been silenced just buried but what she truly sought was her own spiritual voice inside her the one veiled beneath years of self doubt at a sacred site of the black madonna in europe watterson had a revelation that changed her rather than transcending the body denying or ignoring it being spiritual for her meant accepting her body as sacred only then watterson realized could she hear the voice of unfaltering love inside her the voice of her soul with passion humor and brutal honesty watterson draws on ancient stories and lesser known texts of the divine feminine like the gospel of mary magdalene making them modern and accessible to reveal the spiritual process she went through she suggests that being spiritual is simply about stripping down to the truth of who we really are through her extensive work with women watterson found that she was not alone there are countless women who long for a spirituality that encourages embodiment rather than denies it that inspires them to abandon their fears but never themselves and to be led by the audacious and fiercely loving voice of truth inside them no matter where you rest on the spectrum of spirituality religious or secular devout believer or chronic doubter freelance mystic or borderline agnostic this story is about the desire in all of us to want to shed everything that holds us back reveal provides what religions have left out the spiritual voice of a woman who has claimed her body as sacred a woman who has found the divine insider her in essence this is a manual for revealing your soul i have spent the majority of my life gathering stories of the divine feminine each time before getting my masters degrees in theology and divinity i went on a pilgrimage to sacred sites of the divine feminine throughout europe the first one was with a group and the second was on my own the stories of the divine feminine of christianity s mary magdalene catholicism s black madonna hinduism s kali ma and buddhism s green tara for example allowed me to begin to see that i wasn t as much of a spiritual misfit as i had thought there was a red thread that became visible to me that ran through so many of the world religions especially through their mystics relating that the way to find the divine is to go within and that our potential to be transformed by going inward is exactly the same whether we are a man or a woman the real barometer of our spiritual potential is not our sex but the commitment of our desire to want to encounter the divine excerpt from reveal

**Spiritual Harmony** 2002-08-06 when god speaks can we hear him when god instructs do we obey when god chastens do we repent as we look around for the quick fix to our dilemmas we unwarily overlook the obvious the great reveal our spiritual journey the spiritual healing or spiritual whatever occurs from within now with the dilemmas we are facing today we may find ourselves doing the wrong thing at the right time or the right thing at the wrong time whereas the primary objective for the kingdom of heaven we must become adequately synced to the leading of the spirit when operating in or out of our creativity gifting purpose or talents if we do not become spiritually synced we may find ourselves in a cycle of déjà vu or wasting precious time especially when we are called to maximize our greatest and highest potential the great reveal is now from genesis to revelation no one can pursue our inner born destiny better than self we are all blessed to be a blessing and we are here for such a time as this due to our lack of understanding transparency or know how in this spiritual arena we secretly or openly look for our purpose passion or calling in something or someone else unbeknown to most our weaknesses are hidden strengths and if we dare to leave no stone unturned our hidden strengths will release our greatest potential fixing our spiritual crown although everyone is different we have what it takes to make a difference in this lifetime and the next it does not matter where we are in life the great reveal has a take away for all so it behooves one to engage in their own spiritual journey in unveiling the veiled everything we need is already we simply need to learn how to tap into it without tapping out or becoming spiritually exhausted we will always have the option to change our perception to create a win win for our

**Vision of Truth** 2015-06-21 have you ever wondered what life is all about why you are here an answer may depend on how you look at the world and what lies beyond it this book addresses these questions by sampling the recent explosion of evidence that points to a spiritual reality revealing both our present purpose and our future destiny many people believe that there is nothing real other than the world in which we live if this belief were correct then our lives have no ultimate purpose it would mean that death marks the end of everything for each one of us but what if this belief is wrong what if your mind will survive the death of your body and enter another dimension of reality a spiritual dimension you might then reasonably ask where is the evidence indeed when the well known philosopher and atheist bertrand russell was asked what he would say if after his death he found himself face to face with god russell replied not enough evidence god not enough evidence this book presents evidence that might have persuaded even bertrand russell that he was wrong this includes evidence that our conscious minds can function independently of our physical brains as observed in verified cases of paradoxical lucidity and out of body experiences in addition each year many thousands of people provide personal testimony of experiencing a spiritual dimension and meeting a higher spiritual power when they undergo near death experiences andes during life threatening events many of those who ve undergone andes testify to what they ve learnt through their experiences about the ultimate purpose of life and how this confirms what religious people have been saying for thousands of years

~~the reality of a healing grace as spiritual insight reshapes the pain and suffering consecrates it and offers it as~~  
a humble sacrifice unto the lord in so doing discovering god s great mercy and comfort for the soul spiritual awareness is an effort to combat the dullness and superficiality of our age it seeks to probe more deeply into the mysteries that lie within the events of the common place by becoming increasingly aware of the presence and availability of the spiritual life this awareness leads to an authentic life worth living only because it is steeped deeply in the greatest of all realities this is true awakening all profits are intended to be given to charitable causes

*Spiritual Awareness* 2021-11-17 book proposal for wilderness of the soul rodney r romney wilderness of the soul is a book about personal spiritual growth it begins with the premise that life is a love story designed by a loving god who calls each of us to be a part of that story the book makes a frank and eclectic examination of a wilderness god a deity that no religious system has been able to define or control rather than viewing god as a capricious prankster or bully who toys with our lives just to test us the book sees god as a mysterious presence who cannot be controlled or denied but who loves everything unconditionally the book advances the life of jesus as an example of the wilderness life one who became alienated from his own religious tradition because it imposed too many restrictions and excluded too many people by entering fully into the wilderness of his own soul jesus found a path that brought him into the mystery of an all inclusive and all loving god the major portion of the book details ten stages or marks of spiritual growth for the one who seeks to explore the authentic or god realized life the initial stage is exile which we all experience when we first enter this earth experience and the final stage is graduation or death we go through these ten stages of growth and learning in order to learn the highest lesson of all how to make our lives an expression of unconditional love to god and to the world the book concludes by asking the question whose side is god on with particular reference to the complex and troubled situation of our world today as it hovers on the brink of war what is unique about this book this book offers the analogy of wilderness as a teacher that seeks to lead us toward spiritual fulfillment it will have special appeal to a growing audience of people who are learning to honor the earth to those who see truth in all spiritual and religious traditions and to those who are searching for the transforming presence of the divine in their human experience the book includes practical suggestions by offering spiritual exercises for each stage of growth these exercises are presented without theological strictures or bias thus making an

~~appeal to an interfaith audience the book also includes service and social justice as an inseparable outgrowth~~  
of spiritual practice social action is not viewed as separate from spirituality but rather is presented as essential to its completion the book also offers occasional glimpses into the life of the author most people do not want to hear only moral invectives when it comes to the inner life they want to know something about the life of the person who is writing therefore i occasionally include aspects of my own struggle in the various stages of spiritual growth who is the prospective audience for this book church growth analysts often overlook the fact that the fastest growing religious group in this country is not fundamentalism or liberalism nor what might be classified as new age the new and rapidly expanding group can best be described as the de churching or to use john shelby spong s term believers in exile these are people who have discovered that institutional religion as they have known it does not meet their needs because they can no longer accept the religious presuppositions of their past yet their spiritual hunger remains strong and they search for ways to nourish their own hunger it is to this huge often recognized group that wilderness of the soul will make its appeal it is a book that addresses the universal spiritual hunger that every person has yet it does not impose strict theological dogmas or religious dictums its premise is that the human soul is the greatest wilderness of all a wilderness that waits to be explored and it offers suggestions and ways by which that exploration can be conducted spirituality is a comparatively new word in the english language that speaks of a growin
