**Call of Duty: Black Ops II - Strategy Guide** 2015 the ak and sks are the most widely used and well known assault rifles in the world and this comprehensive look at these famous rifles contains never before published information blended with 600 photos and written by the leading expert in assault weapons

The Gun Digest Book of the AK & SKS 2009-01-13 rikugun guide to japanese ground forces 1937 1945 is the first nuts and bolts handbook to utilize both the voluminous raw allied intelligence documents and postwar japanese documentation as primary sources this second volume covers the armament of the ground forces it takes advantage not only of postwar japanese research but also the extensive technical intelligence efforts of the allies near the end of the war and the postwar investigations that have heretofore generally been ignored to provide a complete examination of wartime japanese armament the book is divided into twenty three sections covering all categories including not only the standard arms such as machine guns and coast artillery but also more esoteric items such as bridging chemical weapons and assault equipment each section provides both production and technical data as well as a discussion of the unique characteristics of each weapon and its place in the force structure accompanied by over 300 photographs and numerous data tables

*Rikugun. Volume 2* 2014-12-19 this book guides the reader through the thought process of deciding what type of firearm to buy based on how they plan to use the firearm topics include personal

protection self defense hunting competition and self gratification personal achievement  
The Vital Guide to Combat Guns and Infantry Weapons 1996 a women s guide to handling guns a woman s self defense table of contents introduction chapter 1 does a woman need a gun for self defense chapter 2 what type of gun is for me chapter 3 how to get started chapter 4 the cardinal rules of gun safety chapter 5 parts of a gun chapter 6 learning to fire your gun chapter 7 practical shooting the sport chapter 8 when you are under attack chapter 9 additional safety precautions conclusion author bio bonus content introduction mental attitude towards violence how to stop from panicking facing your attacker rules to protect yourself going out to a party when you are walking what if you are being followed traveling on your own traveling in your car relationships going wrong no means no to drink or not to drink that is the question learning how to fight back how to protect yourself against grabs conclusion author bio publisher introduction i wrote this book to share what i have learned in gun handling and to give some idea not only to women but also to men of how a woman perceives this man dominated gadget or equipment i would say that 99 of women who know how to handle a gun or who are engaged in practical shooting as a sport were influenced by a male in their lives whether it is the father husband brother boyfriend uncle or a male friend gun ownership inarguably is a man s world but it did not say that women cannot dip their fingers to it if it is necessary or even if she was just plain interested in my case the guilty party was my husband who suavely got my nod first for him to own a gun and later on to join him on his shooting practice tournaments and gun shows i have to admit that in the beginning i would cringe whenever i would see him working on his gun and later on guns i always have this thought that it will discharge accidentally and someone could get hurt at that time i could not even hold a gun but then gradually i warmed up to it i started holding the gun no bullets of course until later on my husband would be training me on how to hold it properly

how to get the right stance and eventually how to fire it believe it or not within months i was going with him on his practice shooting and tournaments at first i was the photographer and videographer eventually i would be doing my own practice sessions and would join him on tournaments

**Guns 101** 2007-04-01 join the secret battle comprehensive tactics and historical trivia for all planes detailed flight training and combat strategies exhaustive walkthrough for all 30 missions interviews with the team at totally games details every barrel roll swoop and dive you ll need to master the skies of the second world war
