**The Nowhere Bible** 2015-03-10 the bible contains passages that allow both scholars and believers to project their hopes and fears onto ever changing empirical realities by reading specific biblical passages as utopia and dystopia this volume raises questions about reconstructing the past the impact of wishful imagination on reality and the hermeneutic implications of dealing with utopia good place yet no place as a method and a concept in biblical studies a believer like william bradford might approach a biblical passage as utopia by reading it as instructions for bringing about a significantly changed society in reality even at the cost of becoming an oppressor a contemporary biblical scholar might approach the same passage with the ambition of locating the historical reality behind it finding the places it describes on a map or arriving at a conclusion about the social reality experienced by a historical community of redactors these utopian goals are projected onto a utopian text this volume advocates an honest hermeneutical approach to the question of how reliably a past reality can be reconstructed from a biblical passage and it aims to provide an example of disclosing not obscuring pre suppositions brought to the text

**The Planetary Clock** 2018-06-11 in the people s zion joel cabrita tells the transatlantic story of southern africa s largest popular religious movement zionism it began in zion city a utopian community established in 1900 just north of chicago the zionist church which promoted faith healing drew tens of thousands of marginalized americans from across racial and class divides it also sent missionaries abroad particularly to southern africa where its uplifting spiritualism and pan racialism resonated with urban working class whites and blacks circulated throughout southern africa by zion city s missionaries and literature zionism thrived among white and black workers drawn to johannesburg by the discovery of gold as in chicago these early devotees of faith healing hoped for a color blind society in which they could acquire equal status and purpose amid demoralizing social and economic circumstances defying segregation and later apartheid black and white zionists formed a uniquely cosmopolitan community that played a key role in remaking the racial politics of modern southern africa

connecting cities regions and societies usually considered in isolation cabrita shows how zionists on either side of the atlantic used the democratic resources of evangelical christianity to stake out a place of belonging within rapidly changing societies in doing so they laid claim to nothing less than the kingdom of god today the number of american zionists is small but thousands of independent zionist churches counting millions of members still dot the southern african landscape

**The People's Zion** 2021-01-01 in blind evolution the nature of humanity and the origin of life professor david frost challenges the dominant worldview derived from darwin s evolutionary theories and perpetuated in richard dawkins s atheistic propaganda for neo darwinism that our universe has at bottom no design no purpose no evil and no good nothing but blind pitiless indifference frost deploys recent findings from a range of scientific studies that shake neo darwinism to its foundation citing entertaining examples from the inner workings of a single cell to the animal kingdom at large from elephants and giraffes to the japanese pufferfish frost maintains that darwinian premises are wholly inadequate to engage with life or to provide a framework for our experiences of joy and sorrow the problem of suffering and the stark realities of good and evil reflecting on the nature of existence frost points to a mode of human understanding parallel to scientific enquiry through the path of vision accessed via the nous or spiritual intellect he argues that vision is as much essential to our understanding of creation as is scientific enquiry reality is best approached through a complementary partnership of both
