Fundamentals of Vector Network Analysis

2007

this is a one stop guide for circuit designers and system device engineers covering everything from cad to reliability

Handbook of RF and Microwave Power Amplifiers

2012

this bibliography in two volumes originally published in 1988 lists and describes works by and about jacques lacan published in french english and seven other languages including japanese and russian it incorporates and corrects where necessary all information from earlier published bibliographies of lacan s work also included as background works are books and essays that discuss lacan in the course of a more general study as well as all relevant items in various bibliographic sources from many fields

Microwave Journal

2009

nostalgia after nazism is a compelling sophisticated entry in the growing field of german and austrian memory studies it introduces into german studies a nuanced set of tools drawn from the broad panoply of contemporary theory and sets those voices onto the broader historical landscape of post world war ii confrontations between the west s recent history and its present the result is a highly readable impeccably documented volume that joins the best of literary history and close readings to a broad spectrum of theoretical models nostalgia after nazism offers an exemplary model for cultural scholarship after the supposed end of theory recapturing how theory history and the texts of culture are mutually illuminating katherine arens the university of texas at austin

Entwurf und Modellierung von Breitbandverstaerkern mit variablem Gewinn in SiGe BiCMOS Technologien

2019-05-07

an intellectually adventurous account of the role of nonpersons that explores their depiction in literature and challenges how they are defined in philosophy law and anthropology in thirteen interlocking chapters absentees explores the role of the missing in human communities asking an urgent question how does a person become a nonperson whether by disappearance disenfranchisement or civil social or biological death only somebody can become a nobody but as daniel heller roazen shows the ways of being a nonperson are as diverse and complex as they are mysterious and unpredictable heller roazen treats the variously missing persons of the subtitle in three parts vanishings lessenings and survivals in each section and with multiple transhistorical and transcultural examples he challenges the categories that define nonpersons in philosophy ethics law and anthropology exclusion infamy and stigma mortuary beliefs and customs children s games and state censuses ghosts and dead souls illustrate the lives of those lacking or denied full personhood in the archives of fiction heller roazen uncovers figurations of the missing from helen of argos in troy or egypt to hawthorne s wakefield swift s captain gulliver kafka s undead hunter gracchus and chamisso s long lived shadowless peter schlemihl readers of the enemy of all and no one s ways will find a continuation of those books intense intellectual adventures with unexpected questions and arguments arising every step of the way in a unique voice heller roazen s thought and writing capture the intricacies of the all too human absent and absented

Deutsche Nationalbibliografie

2008

the first twenty four chapters of the book of ezeziel are characterised by vehement declarations of judgement this observation leaves the impression that ezeziel 1 7 is devoid of references to hope and restoration however there is a redactional stratum in this section that supplemented the texts with material that conveys restoration and hope for the future in ezeziel 1 7 many of these additions focus on priestly topics the motif of restoration in the redactional material of ezeziel 3 5 is expressed by the reinstatement of ezeziel in his priestly role this editorial emphasis on ezeziel as priest in the redactional material suggests that the redaction was influenced by zechariah 3 a text that depicts the reinstatement of the exiled zadokite priesthood moreover the redactional material of ezeziel 6 7 drew inspiration from the law of the temple in ezeziel 43 46 as the redactors sought to enhance ezeziel s priestly role the study provides new insights into how redactors who may have been associated with the zadokite priesthood inserted the message of hope and restoration into the literary unit ezeziel 1 7 during the post exilic period

Jacques Lacan (Volume II) (RLE: Lacan)

2014-01-23

Samuel Beckett is widely regarded as the last modernist writer in whose work the aesthetic principles which drove the modernist project dwindled and were finally exhausted and yet despite this it is striking that many of the most important contemporary writers across the world see their work as emerging from a Beckettian legacy so whilst Beckett belongs in one sense to the end of the modernist period in another sense he is the well spring from which the contemporary in a wide array of guises can be seen to emerge since Beckett looks at a number of writers in different national and political contexts tracing the way in which Beckett's writing inhabits the contemporary while at the same time reading back through Beckett to the modernist and proto modernist forms he inherited in reading Beckett against the contemporary in this way Peter Boxall offers both a compelling re-reading of Beckett and a powerful new analysis of contemporary culture

Nostalgia After Nazism

2010

This book examines how computer based programs can be used to acquire big digital cultural heritage data curate and disseminate it over the internet and in 3D visualization platforms with the ultimate goal of creating long lasting digital heritage repositories the organization of the book reflects the essence of new technologies applied to cultural heritage and archaeology each of these stages bring their own challenges and considerations that need to be dealt with the authors in each section present case studies and overviews of how each of these aspects might be dealt with while technology is rapidly changing the principles laid out in these chapters should serve as a guide for many years to come the influence of the digital world on archaeology and cultural heritage will continue to shape these disciplines as advances in these technologies facilitate new lines of research serif the book is divided into three sections covering acquisition curation and dissemination the major life cycles of cultural heritage data acquisition is one of the fundamental challenges for practitioners in heritage and archaeology and the chapters in this section provide a template that highlights the principles for present and future work that will provide sustainable models for digital documentation following acquisition the next section highlights how equally important curation is as the future of digital documentation depends on its preservation of digital data requires preservation that can guarantee a future for generations to come the final section focuses on dissemination as it is what pushes the data beyond the shelves of storage and allows the public to experience the past through these new technologies but also opens new lines of investigation by giving access to these data to researchers around the globe digital technology promises significant changes in how we approach social sciences cultural heritage and archaeology however researchers must consider not only the acquisition and curation but also the dissemination of these data to their colleagues and the public throughout the book many of the authors have highlighted the usefulness of structure from motion (sfm) work for cultural heritage documentation others the utility and excitement of crowdsourcing as a citizen scientist tool to engage not only trained students and researchers but also the public in the cyber archaeology endeavor both innovative tools facilitate the curation of digital cultural heritage and its dissemination together with all the chapters in this volume the authors will help archaeologists researchers interested in the digital humanities and scholars who focus on digital cultural heritage to assess where the field is and where it is going

What happens to a community when it is destroyed by a foreign power how do survivors face the future is it all over for them in constructing exile John Hill investigates how the people of ancient Judah survived invasion and destruction at the hands of the Babylonians although some of them were deported to Babylon they created a new identity for themselves and then once they were back in Judah they tried to recreate the past Hill examines the way that later generations used the experience of the Babylonian invasion to interpret the crises of their own times he shows how by the time of Jesus exile had become an image Judaism used to understand itself and its story

Ezekiel's Message of Hope and Restoration

2021-04-19

This book reviews the assessment of industrial biotechnology products and processes from a sustainable perspective industrial biotechnology is a comparably young field which comes along with high expectations with regard to sustainability issues these stem from the promise of reducing greenhouse gas emissions and replacing fossil resources in the near or later future and using green technology i.e. more environmentally friendly technologies the intended economic ecological and social benefits however need to be proven resulting in a variety of challenges both from a methodological and application point of view in this book specific assessment and application topics of industrial biotechnology are addressed highlighting

challenges and solutions for both developers and users of assessment methods in twelve chapters experts in their particular fields define the scope characterize industrial biotechnology and show in their contributions the state of the art challenges and prospects of assessing industrial biotechnology products and processes the chapter societal and ethical aspects of industrial biotechnology of this book is available open access under a cc by 4 0 license at link springer com

Catalog of Copyright Entries. Third Series

1973

this timely book presents innovative technologies for use in the diagnosis monitoring and treatment of brain disease these technologies offer exciting possibilities in the medical field owing to their low cost portability and safety the authors address cerebrovascular diseases such as stroke ischemia haemorrhage and vasospasm these diseases having an ever increasing societal relevance due to the global ageing population the authors describe the potential of novel techniques such as microwave imaging and present innovative modalities for treatment of brain tumours using electromagnetic fields and nano composites as well as for monitoring brain temperature during surgery finally emerging electromagnetic technologies for brain diseases diagnostics monitoring and therapy addresses the perspectives which arise from multi modal multi spectral em modalities which make a synergic use of the different portions of the electromagnetic spectrum this text will be of interest to readers from various different areas given the fundamental interdisciplinarity of the subject matter this includes researchers or practitioners in the field of electrical engineering applied physicists and applied mathematicians working on imaging applications for biomedical and electromagnetic technologies neurologists and radiologists may also find this book of interest as may graduate students in these areas

Since Beckett

2011-11-03

ezekiel is one of the best structured books in the old testament it is commonly recognized that the strongly interrelated vision accounts ez 1 1 3 15 8 11 37 1 14 40 48 contribute greatly to this impression of unity however there is a marked lacuna in publications focusing on the vision accounts in ezekiel as an interconnected text corpus the present study combines redaction critical analysis with literary methods that are typically used in a synchronic approach drawing on the paradigm of fortschreibung it is the first to present a united redaction history that takes into account the growing interconnections and dependencies between the vision accounts building on these results the second part follows the development of selected themes such as the relationships between characters the roles of intermediate figures and anthropological and theological implications throughout the stages of redaction the study thus represents an important step towards an understanding of the complex redaction history of the book of ezekiel and indeed of its theology the combination of diachronic and synchronic methods makes it relevant for scholars of both directions and is itself a methodological statement

Heritage and Archaeology in the Digital Age

2017-11-10

the poet friedrich von hardenberg novalis 1772 1801 exemplifies romantic ideals in his nostalgic yearning for spiritual fulfillment and in doing so invokes the language of authentic mystics while romantics and mystics believe in the common goal of original union the path toward wholeness has led them down separate roads which it may be argued have converged only linguistically this book therefore emphasizes the importance of examining metaphors in their respective traditions

Constructing Exile

2020-07-30

for decades scholars have assumed that the genius of john henry newman remained underappreciated among his roman catholic contemporaries in order to find the true impact of his work one must therefore look to the century following his death newman s early roman catholic legacy 1845 1854 unpicks this claim examining a host of overlooked evidence from england and the european continent c michael shea considers letters records of conversations and obscure and unpublished theological exchanges to show how newman s 1845 essay on the development of christian doctrine influenced a host of catholic teachers writers and church authorities in nineteenth century rome and beyond shea explores how these individuals employed newman s theory of development to argue for the definability of the new dogma of the immaculate conception of mary during the years preceding the doctrine s definition in 1854 this study traces how the theory of development became a factor in determining the very language that the roman catholic church would use in referring to doctrinal change over time in this way newman s early roman catholic legacy 1845 1854 uncovers a key dimension of newman s significance in modern religious history

Sustainability and Life Cycle Assessment in Industrial Biotechnology

2020-06-16

modelling the city focuses on european towns and cities analysing the opportunities and limitations of modelling of urban space this book examines how urban space from the past is discovered explained and presented it discusses the multitude of historical sources mediating the past urban space and the structural technical and epistemological issues raised around building a domain ontology including continuity and change within urban forms and functions presentation of a formal domain ontology in spatial humanities makes this book unique and worth reading it is strongly recommended to readers interested in the linked open data approach to research data standards in digital humanities urban planning and old maps

Emerging Electromagnetic Technologies for Brain Diseases Diagnostics, Monitoring and Therapy

2018-03-10

maurice maeterlinck described his libretto ariane et barbe bleue as a sort of legendary opera or fairy opera in three acts in 1907 paul dukas finished setting maeterlinck s libretto to music and the opera s paris premiere was lauded as a landmark in operatic history ariane bluebeard from fairy tale to comic book opera offers a comprehensive interdisciplinary look at this historic opera including its structure reception and cultural implications this lively collection juxtaposes chapters from experts in music literature the visual arts gender studies and religion and philosophy with vibrant illustrations by comic artist p craig russell and interviews with performers and artists featuring material from newly discovered documents and the first english translation of several important sources ariane bluebeard allows readers to imagine the opera in its various incarnations as symbolist show comic book children s fairy tale and more

The Poetization of Metaphors in the Work of Novalis

2006

das buch begründet ein neues verständnis des lyrikers ernst jandl es stellt jandls poetologisches lyrisches sowie übersetzerisches werk erstmals und in umfassender weise von seiner internationalen seite vor hierbei geht es nicht ausschließlich um einzelne aspekte seines Œuvres sondern auf der grundlage von textnahen analysen und der kritischen aufarbeitung von jandls veröffentlichten schriften und unveröffentlichten nachlassmaterialien wird erstmalig ein gesamtbild von jandls dichterischem schaffen gegeben und zwar mit blick auf dessen entstehungsbedingungen prinzipien und internationale wirkung durch ihre sowohl literaturhistorische als auch poetologische perspektive leistet die studie erstens einen beitrag zur neuverortung jandls im kontext der künstlerischen moderne des 20 jahrhunderts zweitens zur Neubewertung der ausdrucksmöglichkeiten deutschsprachiger experimenteller dichtung nach dem zweiten weltkrieg und drittens zur beschreibung der genese der interkulturellen dichtung der gegenwart und ihrer formsprache

Newman's Early Roman Catholic Legacy, 1845-1854

2017-09-29

thomas mann hat immer wieder auf die eigenständigkeit seines spätwerks hingewiesen in dem er die antithetischen und pessimistischen deutungen seiner jugend zugunsten einer ganzheitlichen sicht des menschen überwand die vorliegende studie nimmt diese aussage ernst und untersucht den großen auftritt des spätwerks die josephs tetralogie im lichte zeitgenössischer philosophischer und psychoanalytischer theorien die autorin geht von der hypothese aus dass thomas manns beschäftigung mit dem mythologischen welterklärungsmodell der alttestamentarischen josephsgeschichte aus der gleichen modernekritischen geste geboren ist wie die entsprechenden ansätze der französischen philosophenschule lyotard foucault derrida und lacan eine detaillierte analyse zeigt dass sich thomas mann der josephs aufstieg psychoanalytisch als selbstverwirklichung des narziss und zugleich als ursprungs und entwicklungsgeschichte der menschheit erzählt der theorie jacques lacans annähert die den narzissismus als unvermeidlichen bestandteil der identität jedes menschen interpretiert die betonung der narzisstischen veranlagung des menschen führt bei thomas mann ebenso wie bei lacan zu auffassungen die über freuds theorie hinausgehen und ihr teilweise widersprechen die parallelisierung der weltdeutungen des späten thomas

mann und lacans belegt nicht nur die modernität der josephs tetralogie sondern auch thomas manns eigenständiges und kreatives weiterdenken von freuds psychoanalyse und seinen abschied von den göt tern der jugend schopenhauer und nietzsche der oft behauptete gegensatz zwischen einem humanistischen menschenbild wie es der josephsroman entwirft und dem der lacanschen psychoanalyse erweist sich als tiefere Übereinstimmung
