translation practice health do you really know how to care for your skin foods a short and sweet history of puddings plus talk taking a bus 1 finding the right bus 2 where to get off 3 heading in the wrong direction 4 transferring to the subway culture around the world in 80 apologies topic writing refining outlining skills life is it still safe to eat understanding food date labels a short and sweet history of puddings marie mcmaster 10 21 to anyone with a sweet tooth puddings are a wonderful creation they come in dozens of types due to their long history best of all the myriad of textures and flavors available means there is a pudding to satisfy even the pickiest of palates in the united states a pudding is usually a soft and creamy dessert that is made with eggs or milk think of custards crème brûlées and chocolate mousses in the united kingdom puddings aren't necessarily creamy or milky for example toffee pudding and jam roly poly both common family desserts are more similar to cake and can have a crumblier texture quite possibly the most famous british pudding is christmas pudding this very moist fruit cake contains candied orange peel brown sugar raisins and spices traditionally brandy is poured over the top and set on fire in asia rice pudding is a popular dessert known as kheer in india it is made by boiling milk and sugar with rice raisins nuts and saffron can be added to improve the flavor coconut milk tapioca and mango are also commonly added giving this dessert a light tropical flavor

10 22 today puddings might be found under the desserts section of a restaurant menu but back in the middle ages when they first saw the light of day puddings were typically savory they started out as something like a boiled sausage the meat was mixed with blood fat and maybe rice or bread then it was stuffed into animal stomachs or intestines before it was cooked the more well known of the savory puddings include scotland's haggis a mixture of sheep's organs onion fat and spices stuffed in a sheep's stomach and boiled over time people began using cloth instead of animal stomachs or intestines as a holder and adding spices ginger and dried fruit to the meat mix gradually sweet puddings were introduced but these were still boiled just like the savory types with ovens becoming more common in 19th century britain baked puddings began to appear these looked like our modern day pies and tarts which explains why pudding can also mean dessert in britain now that you know more about puddings there's still one question which one tastes the best there's only one way to find out for as they say the proof is in the pudding

now despite being just a short distance away from mainland china taiwan has appeared is now appearing that they have a handle on the coronavirus outbreak it is still too early to tell but out of a population of nearly 24 million people the world health organization is reporting that the island has about 77 infections at this hour and this is good news as well only one death so what is it doing right for more a taiwan based journalist hilton yip joins me now via skype taiwan you re talking about a place that is a very tightly packed urban environment it is a marvel that taiwan managed to really have a successful containment and if we look at a map right now you know you can see those 77 cases in context to the countries around it i mean even if you look at a country like singapore maybe 5 or 6 million people there they still have 313 cases and then you look to south korea and japan you know many many more cases yes higher populations but still even if you do the averages still taiwan did incredibly well paula newton cnn anchor what did it do right hilton yip freelance journalist ok hello paula thank you for having me here taiwan has done a lot of things right it started it was vigilant early on it also implemented a lot of pro active measures even up to now but it started doing this from december 31 and then the third thing is that it did all this with a lot of transparency and so the point is that it s an all around strategy it s a very broad strategy so i think they did a lot of things right it wasn t just like one or two things paula newton cnn anchor and when we say it wasn t just one or two things you know we just reported that california shut down so we re looking at that happening at this point in the pandemic what can be modeled i mean when you say they did a lot of things right what can be modeled in other areas right now hilton yip freelance journalist ok you know this is kinda tough because one thing that taiwan did is that it s from for instance from december 31 they actually started inspecting passengers from wuhan and then in january on the 23rd or so they started banning flights from wuhan and then early february they started banning passengers visitors from china so the point the issue is that they took a lot of measures to prevent the cases from coming to taiwan and many cases from being piling up so so far taiwan is not under lockdown so it s you know it s kinda difficult to compare it to a place like california paula newton cnn anchor yeah hilton yip freelance journalist as you say which is paula newton cnn anchor and that is a point right that s
