Writing Human Factors Research Papers 2016-12-05 writing high quality papers suitable for publication within international scientific journals is now an essential skill for all early career researchers their career progression and the reputation of the department in which they work depends upon it however many manuscripts are rejected or sent back for major re working not because the science they contain is in any way bad but because the same problems keep occurring in the way that the material is presented it is one thing to write a good scientific paper however it is quite another thing to get it published this requires some additional nous in writing this book don harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers and ultimately as a journal editor by his own admission it contains all the things he wished that his mentors had told him 25 years ago but didn t the material in the book is drawn from many years of finding all these things out for himself usually by trial and error but mostly error the text adopts a much lighter touch than is normally found in books of this type after all who really wants to read a book about writing research papers the author describes his own unique approach to writing journal papers which in his own words has proved to be

extremely successful all major points are illustrated with examples from his own published works the book is written in the form of a manual for constructing a journal manuscript read a chapter write a section however the material it contains goes beyond just this and also describes how to select a target journal the manuscript submission process what referees are looking for in a good journal paper and how to deal with the referees comments each chapter concludes with a checklist to ensure all the key elements have been addressed

Papers for Pay 2015-01-30 a disturbing trend faces education in the u s not plagiarism but academic forgery students purchasing and signing their names to work produced by others this book by a former professional forger describes the difference between the two and presents case studies along with an expose of the trade the author provides a thorough treatment of the topic and reveals the serious implications for the future of academia educators should educate themselves about forgery and join the conversation about solving the problem

HTML AND INTERNET BASICS 2020-08-15 this book is useful for the students studying 10 2 cbse icsc ug i e bca b sc and other courses it covers all the concepts of html internet basics for the beginners it also includes concept oriented programs which help the students to understand easily by practicing a unique approach is used for easy learning and practicing wish you all the best for the readers

English for Writing Research Papers 2016-03-02 publishing your research in an international journal is key to your success in academia this guide is based on a study of over 1000 manuscripts and reviewers reports revealing why papers written by non native researchers are often rejected due to problems with english usage and poor structure and content with easy to follow rules and tips and examples taken from published and unpublished papers you will learn how to prepare and structure a manuscript increase readability and reduce the number of mistakes you make in english by writing concisely with no redundancy and no ambiguity write a title and an abstract that will attract attention and be read decide what to include in the various parts of the paper introduction methodology discussion etc highlight your claims and contribution avoid plagiarism discuss the limitations of your research choose the correct tenses and style satisfy the requirements of editors and reviewers this new edition contains over 40 new material including two new chapters stimulating factoids and discussion points both for self study and in class use eap teachers will find this book to be a great source of tips for training students and for preparing both instructive and entertaining lessons other books in the series cover presentations at international conferences academic correspondence english grammar usage and style interacting on campus plus exercise books and a teacher s guide to the whole series please visit springer.com/series/13913 for a full list of titles in the series adrian wallwork is the author of more than 30 elt and eap textbooks he has trained several thousand phd students and academics from 35 countries to write research papers prepare presentations and communicate with editors referees and fellow researchers

Clean Coaching 2016-10-14 most coaches today see their role as mainly non directive helping to uncover their coachee s own wisdom however coaches may unwittingly and unconsciously constrain what their coachees talk and think about getting in the way of unique self generated solutions clean coaching provides a different simple yet

highly effective approach to one to one facilitation it is a style strategy and set of techniques that help coachees gain insight and make changes through discovering more about their own insider perspective of themselves and the world around them through the use of specifically phrased structured coaching questions the coach's own biased perspectives are stripped from their language ensuring the coachee's unique personal experience is honoured in clean coaching angela dunbar explains how this approach works in practical terms with descriptions of how to structure a clean coaching session and the steps to take within such a session the book gives detailed descriptions of the kinds of questions to ask and provides a wealth of analogues examples and case studies to bring the descriptions alive offering a clear blueprint for action in addition the book explains where clean coaching has come from describing the development of clean language and other clean approaches by the psychologist and psychotherapist david grove it also tracks how clean approaches have been adopted and adapted by other practitioners dunbar draws on current research in the fields of developmental neurological cognitive and social psychology to demonstrate why clean coaching works so successfully exploring clean coaching in detail and informed by both research and practice this book will be a valuable resource for coaches at all levels including executive coaches and those in training as well as managers and executives acting in a coaching capacity

Library Journal 2007 includes beginning sept 15 1954 and on the 15th of each month sept may a special section school library journal issn 0000 0035 called junior libraries 1954 may 1961 also issued separately

Hands on PowerPoint 2000 1999 focuses on getting users to work right away by providing the practical information needed to master powerpoint 2000 the book provides step by step instructions and covers the key operations such as creating editing and printing a presentation the companion cd rom includes sample presentations
