enjoyable 1st 72nd include the annual report of the secretary of the board in rethinking thought laura otis gives readers a multi dimensional tour through the minds of thirty creative thinkers to illustrate how the experience of productive thought can vary across the spectrum focusing on individual experiences with planning problem solving reflecting remembering and forging new ideas otis approaches the question of what thinking is by analyzing variations in the way thinking feels drawing from her own experience as a neuroscientist turned literary scholar otis aptly juxtaposes creative thinkers insights with recent neuroscientific discoveries centering on visual mental imagery verbal language and thought by offering distinct psychological portraits of famous figures like controversial novelist salman rushdie and engineer temple grandin otis treats scientists and artists with equal respect and creates a fascinating dialogue in which neuroscientific findings and introspection engage with each other as equal partners rethinking thought encourages readers to resist the temptation of classifying people as visual or verbal and to instead consider how thinkers combine both skill sets and how their abilities can be further developed as a result by showing how greatly individual experiences of thought can vary this book aims to help readers in all professions better understand the diverse pool of people with whom they work and interact with page 4 of cover the miracle in this book nicholas presents you a practical unique subliminal very simple detailed
