winner of the 2016 esse junior scholar book award in literatures in the english language the literature of reconstruction argues for the term and concept of postmillennial reconstruction to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories wolfgang funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of authenticity immediate experience that eludes direct representation in addition he provides a clear formal framework with which to identify and classify the features of reconstructive literature by updating the narratological category of metafiction originally established in the 1980s based on werner wolf's observation of a metareferential turn in contemporary arts and media he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of reconstruction to substantiate this claim in the second half of the book funk discusses narrative texts that

illustrate this transition from postmodern deconstruction to postmillennial reconstruction the analyses take in distinguished and prize winning writers such as dave eggers julian barnes jennifer egan and jasper fforde the broad scope of authors featuring writers from the us as well as the uk underlines the fact that the reconstructive tendencies and strategies funk diagnoses are of universal significance for the intellectual and cultural self image of the global north

the steep rise in neighborhood associations in
post katrina new orleans is commonly presented in
starkly positive or negative terms either
romanticized narratives of community influence or

dismissals of false consciousness and powerlessness to elite interests in a neighborhood politics of last resort stephen danley offers a messier and ultimately more complete picture of these groups as simultaneously crucial but tenuous social actors through a comparative case study based on extensive fieldwork in post katrina new orleans danley follows activists in their efforts to rebuild their communities while also examining the dark underbelly of nimbyism not in my backyard characterized by racism and classism he elucidates how neighborhood activists were tremendously inspired in their defense of their communities at times outwitting developers or other perceived threats to neighborhood life but they could be equally creative in discriminating against potential neighbors and fighting to keep others out of their communities considering the plight of grassroots activism in the context of national and global urban challenges a neighborhood politics of last resort immerses the reader in the daily minutiae of post katrina life to reveal how multiple groups responded to the same crisis with inconsistent and often ad hoc approaches visions and results

on african americans was an outcome created by law and societal construct not chance this book takes a hard look at racial stratification in american today and debunks the myth that segregation is a thing of the past an outstanding resource for students of african american history government policy sociology and human rights as well as readers interested in socioeconomics in the united states today this book examines why the divisions between the areas heavily damaged by hurricane katrina and those left unscathed largely coincided with the color lines in new orleans neighborhoods and establishes how african americans have suffered for 400 years under an oppressive system that has created a permanent underclass of second class citizenship rather than focusing on the katrina disaster itself the author presents significant evidence of how government policy and structure as well as societal mores permitted and sanctioned the dehumanization of african americans purposefully placing them in disaster prone areas particularly those in new orleans the historical context is framed within the construct of hurricane katrina and other hurricane catastrophes in new orleans demonstrating that katrina was not an anomaly for readers unfamiliar with the ugly existence of segregation in modern day america this book will likely shock and outrage as it sounds a call to both citizens and government to undertake the challenges we still face as a nation
