Foreign Affairs Research Papers Available 1970

the valorous but troubled career of the civil war general best known for defending little round top and averting a union defeat at gettysburg the lieutenant colonel of a new york regiment and rising star in the army of the potomac gouverneur k warren performed heroically at gettysburg for his service at bristoe station and mine run he was awarded command of the fifth corps for the 1864 virginia campaign but warren s

peculiarities of temperament and personality put a cloud over his service at the wilderness and spotsylvania and cost him the confidence of his superiors grant and meade he was summarily relieved of his command by philip sheridan after winning the battle of five forks just eight days before appomattox warren continued as an engineer of distinction in the army after the war but he was determined to clear his name before a board of inquiry which conducted an exhaustive investigation into the battle warren s conduct and sheridan s arbitrary action however the findings of the court vindicating warren were not made public until shortly after his death for this major biography of gouverneur warren david m jordan utilizes warren s own voluminous collection of letters papers orders and other items saved by his family as well as the letters and writings of such contemporaries as his aide and brother in law washington roebling andrew humphreys winfield hancock george gordon meade and ulysses s grant jordan presents a vivid account of the life and times of a complex military figure

Annual Report of the Board of Regents of the Smithsonian Institution 1885

in the late 1930s a number of american women especially those allied with various peace and isolationist groups protested against the nation s entry into world war ii while their story is fairly well known margaret paton walsh reveals a far less familiar story of women who fervently felt that american intervention was absolutely necessary paton walsh recounts how the united states became involved in the war but does so through the eyes of american women who faced it as a necessary evil covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups in the great debate over whether america should enter the war some women favored aid to the allies not because they hoped for war but because they hoped aid would forestall more direct u s involvement but also because they believed war was preferable to a nazi victory paton walsh shows that this activism involved some of the most prominent women of their day elizabeth cutter morrow whose son in law charles lindbergh was an isolationist spokesman supported the revision of the neutrality acts to allow the sale of arms to the allies and expressed her support in a national radio broadcast soon other women joined this debate esther brunauer of the aaup journalist dorothy thompson and organizations like the league of women voters and national women s trade union league broke from the pacifist tradition to advocate american aid for the allied cause focusing on the conflict in europe paton walsh shows how these women grasped the implications of the lend lease program for america s entry into the war but supported it nevertheless by late 1941 the women s division of the fight for freedom committee had been established no longer merely advocating aid to britain to keep american boys out of battle this organization supported direct american involvement in the war as a means of stopping nazi oppression while most historians have focused on women s pacifism paton walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs our war too is a story of american women trying to reconcile the irreconcilable to preserve both their principles and their peace it expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on american public opinion over the build up to the war

Reports Containing the Cases Determined in All the Circuits from the Organization of the Courts 1897

reprint of the original first published in 1866

Journals of the House of Representatives of New Zealand 1896

according to the american dream hard work and a good education can lift people from poverty to success in the land of opportunity the unskilled immigrants who came to the united states from southern central and eastern europe in the late 19th and early 20th centuries largely realized that vision within a few generations their descendants rose to the middle class and beyond but can today s unskilled immigrant arrivals especially mexicans the nation s most numerous immigrant group expect to achieve the same for their descendants social scientists disagree on this question basing their arguments primarily on how well contemporary arrivals are faring in italians then mexicans now joel perlmann uses the latest immigration data as well as 100 years of historical census data to compare the progress of unskilled immigrants and their american born children both then and now the crucial difference between the immigrant experience a hundred years ago and today is that relatively well paid jobs were plentiful for workers with little education a hundred years ago while today s immigrants arrive in an increasingly unequal america perlmann finds that while this change over time is real its impact has not been as strong as many scholars have argued in particular these changes have not been great enough to force today s mexican second generation into an inner city underclass perlmann emphasizes that high school dropout rates among second generation mexicans are alarmingly high and are likely to have a strong impact on the group s well being yet despite their high dropout rates mexican americans earn at least as much as african americans and they fare better on social measures such as unwed childbearing and incarceration which often lead to economic hardship perlmann concludes that inter generational progress though likely to be slower than it was for the european immigrants a century ago is a reality and could be enhanced if policy interventions are taken to boost high school graduation rates for mexican children rich with historical data italians then mexicans now persuasively argues that today s mexican immigrants are making slow but steady socio economic progress and may one day reach parity with earlier immigrant groups who moved up into the heart of the american middle class copublished with the levy economics institute of bard college

Sessional Papers 1882

this new collection of essays by a panel of established international scholars sheds new light on what some of those influences were and what actions were taken as a result of britain s far eastern commitments not only are new evidence and approaches to those issues addressed presented but new avenues for further research are clearly outlined

Calendar of State Papers 1864

the perfect notebook to learn handwriting for everyone called june you kid needs a new handwriting notebook or even his or her first one this individualized notebook is perfect for every kindergardener or school kid who needs a new handwriting practice excercisebook the cover is perfect for every child who already can read his or her own name this book contains 120pages in nearly 8 5x11 format it comes with a beautiful matt cover finish if you are looking for other names just enter the name of your child my first handwriting notebook in the amazon searchbar we ve got nearly every name we hope june likes our book

Geological Survey Water-supply Paper 1948

liberalism in the nineteenth century sense of the term came to austria much later than it came to western europe for it was not until the 1840s that the industrial

revolution reached the hapsburg empire bringing in its train miserable working conditions and economic upheaval which created bitter resentment among the working classes and a longing for a utopia that would cure the ills of mankind this new found liberalism largely self contained and uninfluenced by liberal movements outside the empire centered mainly in the idea of individual freedom and constitutional monarchism in the end the revolution failed because the moderates proved too weak to control the radical excesses and the radicals in growing desperation tried to turn the rebel idea into a democratic and at the extreme a republican one fear of this extremism finally drove the moderates into the counterrevolutionary camp since the viennese rebels fought to achieve many of the goals fundamental to democracy historians have generally tended to idealize the revolutionaries and forget their shortcomings r john rath has sought to evaluate the revolution from the point of view of the political ideologies of 1848 rather than those of the mid twentieth century moreover he has clearly and objectively stated the case for both the left and the right pointing out the failures and shortcomings of each at its publication this was the first detailed english language book on the viennese revolution of 1848 in more than a hundred years the author has not confined himself to the bare bones of history in his descriptions of the times and lively portrayals of the chief actors of the revolution he has vividly restaged a drama of an ideal that failed

Applied Computational Aerodynamics 2015-04-27

this volume is the first in a new series of studies on the frontiers of international law the term frontier is traditionally associated with proximity to a boundary or a demarcation line but it is also a connecting point i e a passage or channel between spaces that are usually considered as separate entities the series aims to explore the visible and imaginary boundaries of scholarship in international law it is designed to test the existing table of contents vocabulary and limits of public international law to investigate lines and linkages between centre and periphery and to re map or re think some of its conceptual boundaries the current volume is written in this spirit it deals with the tension between unity and diversification which has gained a central place in the debate under the label of fragmentation it explores the meaning articulation and risks of this phenomenon in a specific area international criminal justice it brings together established and fresh voices who analyse different sites and contestations of this concept as well as its context and specific manifestations in the interpretation and application of international criminal law the volume thereby connects discourse on fragmentation with broader inquiry on the merits and discontents of legal pluralism in public international law

Journals of the Legislative Council of the Dominion of New Zealand 1895

henry darwin rogers is a familiar figure in the history of american geology especially as the director of the first state geological surveys of new jersey and pennsylvania although best remembered for the survey work rogers considered his theory of mountain elevation to be his most important scientific legacy based on studies of the appalachian mountains rogers s elevation theory was the first american explanation of the dynamics of elevation as a study of the pennsylvania survey this volume offers new insight into the origin and problems associated with early surveys as a study of rogers s life and work it presents a portrait of a man with strong convictions and dedication and examines the development and application of his ideas

U.S. Geological Survey Professional Paper 1980

this volume published in honor of professor corrado cascì celebrates the life of a very distinguished international figure devoted to scientific study research teaching and leadership the numerous contributions of corrado cascì are widely admired by scientists and engineers around the globe he has been an impressive model and outstanding colleague to many researchers unfortunately only a few of them could be invited to contribute to this honorific volume everyone of the invited contributors responded with enthusiasm v corrado cascì contents preface v contributors ix curriculum vitae xl publications of corrado cascì xix i combustion 1 mechanics of turbulent flow in combustors for premixed gases 3 a k oppenheim 2 a pore structure independent combustion model for porous media with application to graphite oxidation 19 m b richards and s s penner 3 stabilization of hydrogen air flames in supersonic flow 37 g winterfeld 4 thermodynamics of refractory material formation by combustion techniques 49 i glassman k brezinsky and k a davis 5 catalytic combustion processes 63 a p glaskova 6 stability of ignition transients of reactive solid mixtures 83 v e zarko 7 combustion modeling and stability of double base solid rocket propellants 109 l de luca and l galfetti 8 combustion instabilities and rayleigh s criterion 135 f e c culick ii liquid sprays 9 on the anisotropy of drop and particle velocity fluctuations in two phase round gas jets 155 a tomboulides m l andrews and f v bracco vii viii contents 10
