singapore s success as a global city is in no small part attributable to its stance on foreign labour and immigrants illustrated by a largely welcoming but discerning immigration regime to fulfil vital socio economic needs however this fairly liberal policy on immigration has been met with substantial disquiet over the last decade xenophobic tendencies have surfaced periodically and have been compounded by the covid 19 pandemic this edited volume spotlights these contemporary issues on immigrant

integration in singapore and adopts a functional approach by explicitly bridging academic and practitioner perspectives the chapters are organised into three sections the first section on challenges discusses various dominant trends obstacles to immigrant integration based on ethnicity culture and religion and the fear and associated emotions that characterise reactions to immigration the second section focuses on communities their perspectives and lived experiences in singapore society the latter differ substantially depending on migrant statuses and are contingent on social capital defined in relation to locals in the city state the last section seeks to illustrate the various solutioning endeavours in tandem with the contentious nature of immigration these concrete efforts range from ground up initiatives community based collaborative approaches and government programming all seeking to advance immigrant integration in singapore

this volume contributes to the growing debate surrounding the impact that the rising powers may or may not be having on contemporary global political and economic governance through studies of brazil india china and other important developing countries within their respective regions such as turkey and south africa we raise the question of the extent to which the challenge posed by the rising powers to global governance is likely to lead to an increase in democracy and social justice for the majority of the world s peoples by addressing such questions the volume explicitly seeks to raise the broader normative question of the implications of this emergent redistribution of economic and political power for the sustainability and legitimacy of the emerging 21st century system of global political and economic governance questions of democracy legitimacy and social justice are largely ignored or under emphasised in many existing studies and the aim of this collection of papers is to show that serious consideration of such questions provides important insights into the sustainability of the emerging global political economy and new forms of global governance this book was published as a special issue of third world quarterly
