

Free ebook Material solution analysis phase Copy

phase description future capabilities are based on re engineering the high level future business processes that will deliver the capabilities this includes selecting and tailoring commercial best practices to meet the needs of the end user community the materiel solution analysis msa phase assesses potential solutions for a needed capability in an initial capabilities document icd it satisfies the phase specific entrance criteria for the next program milestone designated by the milestone decision authority mda the purpose of the materiel solution analysis phase is to choose the concept for the system the dod will acquire begin translating validated capability gaps into system specific requirements and support a decision on the system s acquisition strategy 1 the candidate materiel solution approaches have the potential to effectively address the capability gap s operational attributes and associated dependencies 2 there exists a range of technically feasible solutions generated from across the entire solution space as demonstrated through early prototypes models or data 3 materiel solution analysis phase the materiel solution analysis msa phase has replaced the concept refinement phase while an mda decision to enter the new materiel solution phase doesn t mean that a new acquisition program has been initiated the new term implies that some type of material solution is being pursued msa assesses potential solutions for a needed capability in an initial capabilities document icd the msa phase is critical to program success and achieving materiel readiness because it s the first opportunity to influence systems supportability and affordability by balancing technology opportunities with to achieve the best possible system solution the materiel solution analysis phase places emphasis on innovation and competition the pm examines existing commercial off the shelf and other solutions drawn from a diverse range of large and small businesses an alternative systems review asr is a technical review that assesses the preliminary materiel solutions that have been developed during the materiel solution analysis msa phase which of the following are characteristics of the material solution analysis phase a the aoa is conducted b a pm is selected and a program office is established c promising technologies are analyzed to determined which one is best suited to meet validated requirements during the materiel solution analysis msa phase it is important to assess risks to achieve exit criteria for which review alternative system review asr system functional review sfr

preliminary design review pdr system requirements review srr 11 1 2 describe the purpose of the materiel solution analysis phase assess the cost schedule and performance of concept solutions to fill a validated capability gap tasks are aoa early systems engineering analysis market research sustainment considerations create acquisition strategy plan draft capability development document cdd what is the primary purpose of the materiel solution analysis msa phase to conduct analysis and other activities needed to choose the critical technologies and the concept for the product and to begin translating validated capability gaps into system specific requirements the entry point into the defense acquisition system das and the materiel solution analysis msa phase materiel solution analysis purpose is to assess potential materiel solutions and to satisfy the phase specific entrance criteria for the next program milestone designated by the mda

solution analysis phase adaptive acquisition framework

May 08 2024

phase description future capabilities are based on re engineering the high level future business processes that will deliver the capabilities this includes selecting and tailoring commercial best practices to meet the needs of the end user community

materiel solution analysis msa phase acqnotes

Apr 07 2024

the materiel solution analysis msa phase assesses potential solutions for a needed capability in an initial capabilities document icd it satisfies the phase specific entrance criteria for the next program milestone designated by the milestone decision authority mda

test and evaluation chapter 4 major capability acquisition

Mar 06 2024

the purpose of the materiel solution analysis phase is to choose the concept for the system the dod will acquire begin translating validated capability gaps into system specific requirements and support a decision on the system s acquisition strategy

characterization of materiel solution analysis phase

Feb 05 2024

1 the candidate materiel solution approaches have the potential to effectively address the capability gap s operational attributes and associated dependencies 2 there exists a range of technically feasible solutions generated from across the entire solution space as demonstrated through early prototypes models or data 3

a new way to start acquisition programs

Jan 04 2024

materiel solution analysis phase the materiel solution analysis msa phase has replaced the concept refinement phase while an mda decision to enter the new materiel solution phase doesn t mean that a new acquisition program has been initiated the new term implies that some type of material solution is being pursued

excerpt from the proceedings naval postgraduate school

Dec 03 2023

msa assesses potential solutions for a needed capability in an initial capabilities document icd the msa phase is critical to program success and achieving materiel readiness because it s the first opportunity to influence systems supportability and affordability by balancing technology opportunities with

sensor life cycle acquisition and training with csiac

Nov 02 2023

to achieve the best possible system solution the materiel solution analysis phase places emphasis on innovation and competition the pm examines existing commercial off the shelf and other solutions drawn from a diverse range of large and small businesses

alternative systems review asr acqnotes

Oct 01 2023

an alternative systems review asr is a technical review that assesses the preliminary materiel solutions that have been developed during the materiel solution analysis msa phase

acq101 fundamentals of systems acquisition management lesson 4

Aug 31 2023

which of the following are characteristics of the material solution analysis phase a the aoa is conducted b a pm is selected and a program office is established c promising technologies are analyzed to determined which one is best suited to meet validated requirements

pmt 0170 risk management exam flashcards quizlet

Jul 30 2023

during the materiel solution analysis msa phase it is important to assess risks to achieve exit criteria for which review alternative system review asr system functional review sfr preliminary design review pdr system requirements review srr

mod 2 full msobs flashcards quizlet

Jun 28 2023

11 1 2 describe the purpose of the materiel solution analysis phase asses the cost schedule and performance of concept solutions to fill a validated capability gap tasks are aoa early systems engineering analysis market research sustainment considerations create acquisition strategy plan draft capability development document cdd

dau acq 101 module 3 exam flashcards quizlet

May 28 2023

what is the primary purpose of the materiel solution analysis msa phase to conduct analysis and other activities needed to choose the critical technologies and the concept for the product and to begin translating validated capability gaps into system specific requirements

lesson 16 flashcards quizlet

Apr 26 2023

the entry point into the defense acquisition system das and the materiel solution analysis msa phase materiel solution analysis purpose is to assess potential materiel solutions and to satisfy the phase specific entrance criteria for the next program milestone designated by the mda
