If a rapid but low-intensity response is needed to help diffuse a potentially explosive or sensitive situation, the highly trained units of the special operations forces are called in to take on the mission, doing battle from the air, on land, and in the sea. These men must demonstrate the highest levels of strength, endurance, and intelligence to combat any enemy under every imaginable circumstance. They are called upon to undertake such varied tasks as airfield seizures, ambushes, guerrilla warfare, hostage rescue, intelligence, reconnaissance, psychological warfare, or counterterrorism, often against an elusive or scattered foe.
