Mafia Movies

2011-04-16

rico little caesar bandello michael corleone and tony soprano are just some of the onscreen mafia figures that have fascinated audiences since cinema's inception. Portrayals of the Italian and Italian American mafia though have differed markedly over time and across multiple cultures from the Godfather trilogy to contemporary Italian films and in works both by established producers like Martin Scorsese and emerging directors like Matteo Garrone. Mafia movies encourages mafia aficionados to explore the rich variety of classics and rarities within the genre with provocative analyses of over forty films. The essays in this volume provide a comprehensive exploration of the myth of the mafia onscreen identifying key features and connections to styles such as film noir thrillers and even westerns. Mafia movies also questions whether there are uniquely American or Italian ways of depicting the mafia exploring how filmmakers from both countries have approached the subject in divergent ways.

Her Alphas: Fairy Tale Retelling Steamy Reverse Harem Shifter Romance

2023-12-11

three men with magical powers one big bad wolf without her pack but she's got a price on her head. Stephanie Rubbiani is royalty her pack is the most powerful in Fairy Falls Louisiana but when her reckless behavior triggers her father Carlo gives her an ultimatum live by his rules or leave the pack for good she refuses to obey him blindly so he threatens to choose one of the bodyguards to lead the pack after he's gone the problem with Carlo's plan is that the men stir feelings in Stephanie she has never experienced before and they can't keep their hands off her their chemistry is through the roof literally as their elemental magic goes awry when they begin to find balance in their complicated relationship a mysterious enemy puts a price on Steph's head with or without the rest of her body now they don't have time to worry about love or allegiances after all Steph's love might bring about a painful end to her alphas. Read this spicy version of the three little pigs to find out how this big bad wolf finds her happily ever after. Fans of May Sage Amelia Shaw and K.F. Breene will devour this new series. Organized Crime in the United States, 1865-1941

2018-01-19

why do americans alternately celebrate and condemn gangsters outlaws and corrupt politicians why do they immortalize al capone while forgetting his more successful contemporaries george remus or roy olmstead why are some public figures repudiated for their connections to the mob while others gain celebrity status drawing on historical accounts the author analyzes the public s understanding of organized crime and questions some of our most deeply held assumptions about crime and its role in society

West Africa

1994

widely acclaimed as the best animated film of all time tale of tales is a poetic amalgam of yuri norstein s memories of his past and hopes and fears for the future his post war childhood remnants of the personal tragedies of war the little wolf character in the lullaby his mother used to sing the neighbors in his crowded communal flat the tango played in the park on summer evenings and the small working class boy s longing to emerge from the dark central corridor of the kommunalka into a luminous world of art and poetry in yuri norstein and tale of tales an animator s journey clare kitson examines the passage of these motifs into the film and delves into later influences that also affected its genesis more than merely a study of one animated film or a biography of its creator kitson s investigation encompasses the soviet culture from which this landmark film emerged and sheds light on creative influences that shaped the work of this acclaimed filmmaker

a multiple analogy is a structured comparison in which several sources are likened to a target in multiple analogies in science and philosophy shelley provides a thorough account of the cognitive representations and processes that participate in multiple analogy formation through analysis of real examples taken from the fields of evolutionary biology archaeology and plato s republic shelley argues that multiple analogies are not simply concatenated single analogies but are instead the general form of analogical inference of which single analogies are a special case the result is a truly general cognitive model of analogical inference shelley also shows how a cognitive account of multiple analogies addresses important philosophical issues such as the confidence that one may have in an analogical explanation and the role of analogy in science and philosophy this book lucidly demonstrates that important questions regarding analogical inference cannot be answered adequately by consideration of single analogies alone

Multiple Analogies in Science and Philosophy

2003-07-17

this book contributes to the literature on organized crime by providing a detailed account of the various nuances of what happens when criminal organizations misuse or penetrate legitimate businesses it advances the existing scholarship on attacks infiltration and capture of legal businesses by organized crime and sheds light on the important role the private sector can play to fight back it considers a range of industries from bars and restaurants to labour intensive enterprises such as construction and waste management to sectors susceptible to illicit activities including transportation wholesale and retail trade and businesses controlled by fragmented legislation such as gambling organized criminal groups capitalize on legitimate businesses beleaguered by economic downturns government regulations natural disasters societal conflict and the covid 19 pandemic to survive some private companies have even become the willing partners of criminal organizations thus the relationships between licit businesses and organized crime are highly varied and can range from victimization of businesses to willing collusion and even exploitation of organized crime by the private sector albeit with arrangements that typically allow plausible deniability in other words these relationships are highly diverse and create a complex reality which is the focus of the articles presented here this book will appeal to students academics and policy practitioners with an interest in organized crime it will also provide important supplementary reading for

undergraduate and graduate courses on topics such as transnational security issues transnational organized crime international criminal justice criminal finance non state actors international affairs comparative politics and economics and business courses

provides readers with an understanding of organized crime including its definition and causes how it is categorized under the law models to explain its persistence and the criminal justice response to organized crime including investigation prosecution defense and sentencing

Reading The Sopranos

2006-02-24

most research on organized crime reveals only a limited sense of its history our understanding suffers as a result space time and organized crime shows how arguments about the sources consequences and extent of crime are distorted as a consequence of crude empiricism originally published in europe in 1991 as perspectives on organizing crime this book is a timely blend of history criticism and research fully one fourth of this new edition contains hitherto unpublished materials especially relevant to the american experience space time and organized crime describes the background of progressive era new york it then broadens its scope by exploring the changes in drug production and distribution in europe from about 1925 to the mid 1930s block addresses such little explored issues as the ethnicity of traders the structure of drug syndicates and the impact of legislation that attempted to criminalize increasing aspects of the world s narcotic industry prior to the second world war he then goes on to present organized crime s involvement with transnational political movements intelligence services and political murders space time and organized crime concentrates on ambiguities evident in organized crime control such as the u s internal revenue service s protection of criminal off shore financial interests and the contradictions found in america s war on drugs space time and organized crime demonstrates that the essential nature of crime in the twentieth century regardless of where it takes place cannot be understood without sound historical studies and a more sophisticated criminological approach block s unique blend of stratification in a historical context will be of special interest to historians sociologists criminologists and penologist
