Promoting Information and Communication Technology in ADB Operations

Promoting Information and Communication Technology in ADB Operations 2014-09-01

rapid advances in information and communication technology ict continue to create tremendous opportunities for economic and social gains in the world s poorest areas a key infrastructure of knowledge based economies ict is a driving force for rapidly growing new sectors the strategy 2020 of the asian development bank adb reinforces the importance of drawing on ict to enhance development in asia and the pacific in line with strategy 2020 adb s 2013 ict for development strategy and with the support of the republic of korea s e asia and knowledge partnership fund eakpf this study examines and identifies opportunities for promoting ict in adb operations

Fan Girls and the Media 2015-02-12

in the broad spectrum of popular culture one can be a fan of just about anything comic books television shows fantasy novels movie franchises musical artists and so on because fans are fluid and ever changing however defining them poses a challenge as a result too few scholars have yet to focus on the impact of gender in media consumption leading to a limited portrait of what male and female fans look for in fan girls and the media creating characters consuming culture adrienne trier bieniek has assembled a collection of essays that demonstrate the gendered aspect of fandom and explore the ways different forms of media challenge stereotypical ideals of how culture is consumed contributors examine a wide range of fan issues from gendered stereotypes in the star trek and twilight franchises to gender roles in tyler perry films and the real housewives of atlanta other essays look at the female comedy fan community the appeal of avenging woman characters written by men and the use of social media by women in the video game culture this collection describes how gender is present in fandom demonstrating the need to combat the marginalization of female identities in various cultural outlets fan girls and the media will be of interest to anyone studying fandom but also students and scholars of sociology media and gender studies

Machine Learning and Mechanics Based Soft Computing Applications 2023-03-01

this book highlights recent advances in the area of machine learning and robotics based soft computing applications the book covers various artificial intelligence machine learning and mechanics a mix of mechanical computational engineering work the current computing era has a huge market potential for machine learning robotics and soft computing techniques and their applications with this in view the book shares latest research and cutting edge applications useful for professionals and researchers in these areas

The Europeanization of Turkey 2015-04-17

given the recent inertia in eu turkey relations in the midst of regional economic and political upheavals europeanization of turkey takes a step back from the latest headlines to provide a comprehensive stocktaking of eu inspired reform efforts in turkey with an eye to understanding how effective or ineffective eu conditionality has been in making turkey s key political institutions actors and culture more compatible with european norms in addition to contributing to the theoretical literature on the differential effects of europeanization on the domestic realm this volume also expands the existing scope of research to include questions of how socialization through the accession process operates under high levels of uncertainty about the attainability of european union membership applying a uniform analytical framework and the methodology of process tracing the authors in this volume assess the nature and degree of change that has occurred in various dimensions of turkish domestic polity and politics in the context of turkey s post 1999 eu accession engaging with

important practical issues such as whether potential membership in the eu has brought about positive change in which areas this change is manifest and how significant this change has been this book is an essential resource for students scholars and researchers seeking to understand contemporary relations between the eu and turkey

The Political Economy of Renewable Energy and Energy Security 2014-09-23

bringing together renewable energy and energy security this book covers both the politics and political economy of renewables and energy security and analyzes renewable technologies in diverse and highly topical countries japan china and northern europe

White Paper on Human Rights in North Korea 2015 2015-09-24

the 2015 edition of the white paper on human rights in north korea marks the 20th year of the series since its first publication in 1996 this white paper is based on in depth interviews with 221 of the 1 396 north koreans who escaped to south korea in 2014 these samples were selected with their demographic characteristics and social backgrounds taken into account below are the key highlights of the survey in its national report for the universal periodic review submitted to the united nations un human rights council on january 30 2014 north korea explained that death penalty is applied to extremely restricted cases in reality however north korea has an extensive list of crimes punishable by the death penalty defined not just by the criminal law but also by its addendum the death penalty may also be imposed by promulgations instructions and other alternative formats north korean defectors who have witnessed the death penalty carried out in public have provided testimony that it has actually been given for a wide range of crimes of special note is that over the last few years the number of people put to death for watching distributing south korean video recordings or smuggling trafficking narcotics is on a remarkable rise this was widely observed in our 2014 survey too human rights violations in ordinary prison camps kyohwaso labor training camps rodongdanryundae holding centers jipkyulso detention centers political prison camps kwanliso and other detention facilities are still known to be serious inhumane treatment including torture and beatings are part of the daily routine nutrition medical care and hygiene are also very poor in our 2014 survey however some interviewees suggested that the human rights conditions in ordinary prison camps kyohwaso were improving somewhat north korean defector xxx who was held for a long time at the jongori kyohwaso where a massive number of violent incidents and human rights violations reportedly took place explained that beatings at the kyohwaso was on the decrease north korean defector xxx who had been detained at the jongori kyohwaso until recently said that strenuous effort was being made to bring fatal incidents under control as the reality of the human rights infringements at the kyohwaso were known to the outside world through former inmates meanwhile the 2014 survey results include testimonies on those released from political prison camps kwanliso in 2012 and 2013 after kim jong un took over as the new leader of north korea witnesses explained that their release was based on kim jong un s policy that those who have one percent of a conscience are given a second chance despite 99 percent of their faults and that these people were released as kim jong un upon taking office told those whose crimes were motivated by personal grievance as opposed to criticism of the state should be freed which is within the context of his politics of law similar cases can be found in north korea s on site open trials system too testimonies from north korean defectors show that when on site open trials were conducted for a large number of people held for the same charge some of them are executed immediately in public as examples while others are found innocent and released allegedly due to kim jong un s consideration or policy while unleashing a reign of terror against the power elites the young leader seems to be seeking to present himself to ordinary citizens as a leader who loves the people nonetheless the very fact that these measures are possible shows his policies and instructions have supra legal authority in north korea a typical infringement on freedom of residence the practice of forced deportation is still found to be widespread north korean defector xxx testified that in 2013 during his on site instructions in musan kim jong un ordered transformation of the city boundaries into an exemplary area this led to the forced deportation of more than 600 households living within 300 meters of the city boundaries such massive involuntary relocation was enforced primarily upon family members of illegal border crossers or those with criminal records such as illegal use of a mobile phone a number of testimonies also suggested that forced deportation has been on the increase since mid 2013 in samjiyon county within which is the hometown of kim jong il in particular those whose parents are from rural areas former detainees at ordinary prison camps kyohwaso and their family members and illegal border crossers are first to be relocated according to the 2014 survey results little progress has been made in improving north koreans rights to food and health when it comes to the right to food the total volume of food available has increased since 2010 but north korea s discriminatory distribution policies has led to continued discrepancy among ordinary citizens in their access to food collection of excessive amounts of produce from farm workers in particular has undermined their right to food on a continuous basis this seems partly attributable to the assignment of unrealistically high production quota and the falsification of distribution documents excluded from the public distribution system pds marginalized members of north korean society tap into money offered by loan sharks to deal with the scarcity ending up suffering even more in the 2014 survey however a large number of interviewees said the public distribution supply has temporarily improved since 2012 as north korean authorities released military provisions as for the right to health the uneven distribution of

resources as a result of economic hardship and military first politics has destroyed the medical system as a whole the absolute lack of medicine and basic medical equipment has continued while some interviewees pointed out in the 2014 survey that an increasing amount of medicine was being provided by jungsung pharmaceuticals meanwhile as the north s free treatment system is not working properly patients in need of surgery often end up paying for the related costs for themselves the military ranks are also seeing their right to health deteriorating some interviewees stated that the military was also short on medicine and not just civil society the community doctor system and other mechanisms of preventive medicine propagandized by the north korean authorities are not functioning properly community doctors are currently incapable of treating patients and can only issue medical certificates they are known to work primarily on vaccinations such as preventive injections against epidemics a large number of interviewees in the 2014 survey said that vaccination was being offered vaccination seems to be improving efforts to prevent disease areas receiving aid from the un and other international actors also enjoy relatively better medical treatment despite many constraints and the resulting shortcomings we hope that this white paper will draw more attention at home and abroad to the issue of human rights in north korean while contributing to domestic and international discussion and action on improving the situation

Carbon Governance, Climate Change and Business Transformation 2014-07-17

transformation to a low carbon economy is a central tenet to any discussion on the solutions to the complex challenges of climate change and energy security despite advances in policy carbon management and continuing development of clean technology fundamental business transformation has not occurred because of multiple political economic social and organisational issues carbon governance climate change and business transformation is based on leading academic and industry input and three international workshops focused on low carbon transformation in leading climate policy jurisdictions canada usa and the uk under the international carbon governance project cgp banner the book pulls insights from this innovative collaborative network to identify the policy combinations needed to create transformative change it explores fundamental questions about how governments and the private sector conceptualize the problem of climate change the conditions under which business transformation can genuinely take place and key policy and business innovations needed broadly the book is based on emerging theories of multi levelled multi actor carbon governance and applies these ideas to the real world implications for tackling climate change through business transformation conceptually and empirically this book stimulates both academic discussion and practical business models for low carbon transformation

Routledge Handbook of Environmental Displacement and Migration 2018-03-09

the last twenty years have seen a rapid increase in scholarly activity and publications dedicated to environmental migration and displacement and the field has now reached a point in terms of profile complexity and sheer volume of reporting that a general review and assessment of existing knowledge and future research priorities is warranted so far such a product does not exist the routledge handbook of environmental displacement and migration provides a state of the science review of research on how environmental variability and change influence current and future global migration patterns and in some instances trigger large scale population displacements drawing together contributions from leading researchers in the field this compendium will become a go to guide for established and newly interested scholars for government and policymaking entities and for students and their instructors it explains theoretical conceptual and empirical developments that have been made in recent years describes their origins and connections to broader topics including migration research development studies and international public policy and law and highlights emerging areas where new and or additional research and reflection are warranted the structure and the nature of the book allow the reader to quickly find a concise review relevant to conducting research or developing policy on particular topics and to obtain a broad reliable survey of what is presently known about the subject

Screening Sandy Hook 2015-02-03

most parents would never consider dispensing deadly addictive street drugs to their children but if a trusted physician writes a prescription for an fda approved schedule 2 medication for their two year old based on some questionable mental health screening those unwary parents do not question or object despite side effect warnings regularly revealed during tv ads parents frequently fail to take those warnings seriously perhaps presuming that the side effects are happenstance or rarely occur over the decades because organized psychiatry represented by the american psychiatric association apa convened numerous consensus panels that designed hundreds of non biologically based disorders for its diagnostic and statistical manual of mental disorders dsm especially suitable for the pill for every ill pharmaceutical industry that conceivably already had many profitable solutions for the disorders in the pre production process the consequences have been disastrous with no discernable end in sight some people taking prescription drugs or withdrawing from them have

perpetrated school mall and public shootings that is in addition to thousands of suicides that the public never hears about unless the victim is a well known public figure like robin williams just the military related suicide rate is 8 000 per year untold numbers of these are the result of the psych drug cocktails doled out by psychiatrists working for the va the government is big pharma's largest customer in addition to the homicides and suicides irreversible brain damage results from drug remedies to temporary problems that might have been easily resolved through compassionate interaction and talk therapy despite the claims that drugs were not a factor in the sandy hook mass murders certain circumstances provide a different picture adam lanza always a unique individual changed from being a geeky weird kid to being a mass murderer not of people his own age but of beautiful vulnerable children feeling secure in their classrooms in a sleepy bedroom community in connecticut

Securitization and Democracy in Eurasia 2023

this open access book presents cutting edge research on securitization and democratic development in the osce region gathering contributions by practitioners and researchers from various disciplines it presents case studies and highlights recent activities of proactive engagement in democratic institution building and responding to security threats from the balkans to central asia the volume is divided into three parts the first of which focuses on security related matters armed conflicts minorities and women's safety as well as the roles that civil society foreign governments social media and external donors play in this area these contributions illustrate how the osce's informal approach to peace security and securitization as norm entrepreneur is closely linked to the level of democracy among its member states the second part presents a special section on the political implications of china's belt and road initiative bri assessing the impact of this infrastructural program on the levels of democracy and or autocracy in eurasia the third part consists of short chapters outlining future research and debates the book will appeal to students and scholars of international relations security studies and the human rights politics nexus this is the 2022 instalment in a series of books released by the osce academy in bishkek the osce works to promote minority protection security democratic development and human rights guided by the office for democratic institutions and human rights odhr and to enhance securitization and development policies in eurasia europe central asia and north america since being founded in 1993 the osce and its agencies and departments have attracted a wealth of academic research in various fields and disciplines ranging from economic development and election monitoring to enhancing global principles of human rights and securitization

The Political Economy of China-Latin America Relations in the New Millennium 2016-08-12

in this book china latin america relations experts margaret myers and carol wise examine the political and economic forces that have underpinned chinese engagement in the region as well as the ways in which these forces have shaped economic sectors and policy making in latin america the contributors begin with a review of developments in cross pacific statecraft including the role of private state level sub national and extra regional actors that have influenced china latin america engagement in recent years part two of the book examines the variety of latin american development trajectories borne of china's growing global presence contributors analyse the effects of chinese engagement on specific economic sectors clusters the lac emerging economies and sub regions central america the southern cone of south america and the andean region individual case studies draw out these themes this volume is a welcome addition to the growing body of literature on china latin america relations it illuminates the complex interplay between economics and politics that has characterized china's relations with the region as a second decade of enhanced economic engagement draws to a close this volume is an indispensable read for students scholars and policy makers wishing to gain new insights into the political economy of china latin america relations

Computational Fluid Dynamics 2015-04-23

computational fluid dynamics principles and applications third edition presents students engineers and scientists with all they need to gain a solid understanding of the numerical methods and principles underlying modern computation techniques in fluid dynamics by providing complete coverage of the essential knowledge required in order to write codes or understand commercial codes the book gives the reader an overview of fundamentals and solution strategies in the early chapters before moving on to cover the details of different solution techniques this updated edition includes new worked programming examples expanded coverage and recent literature regarding incompressible flows the discontinuous galerkin method the lattice boltzmann method higher order spatial schemes implicit runge kutta methods and parallelization an accompanying companion website contains the sources of 1 d and 2 d euler and navier stokes flow solvers structured and unstructured and grid generators along with tools for von neumann stability analysis of 1 d model equations and examples of various parallelization techniques will provide you with the knowledge required to develop and understand modern flow simulation codes features new worked

programming examples and expanded coverage of incompressible flows implicit runge kutta methods and code parallelization among other topics includes accompanying companion website that contains the sources of 1 d and 2 d flow solvers as well as grid generators and examples of parallelization techniques

The China-Pakistan Axis 2014-01-15

the beijing islamabad axis plays a central role in asia s geopolitics from india s rise to the prospects for a post american afghanistan from the threat of nuclear terrorism to the continent s new map of mines ports and pipelines china is pakistan s great economic hope and its most trusted military partner pakistan is the battleground for china s encounters with islamic militancy and the heart of its efforts to counter balance the emerging us india partnership for decades each country has been the other s only all weather friend yet the relationship is still little understood the wildest claims about it are widely believed while many of its most dramatic developments are hid den from the public eye this book sets out the recent history of sino pakistani ties and their ramifications for the west for india for afghanistan and for asia as a whole it tells the stories behind some of its most sensitive aspects including beijing s support for pakistan s nuclear program china s dealings with the taliban and the chinese military s planning for crises in pakistan it describes a relationship increasingly shaped by pakistan s internal strife and the dilemmas china faces between the need for regional stability and the imperative for strategic competition with india and the usa

Entrepreneurship 2016-11-30

from heidi neck one of the most influential thinkers in entrepreneurship education today chris neck an award winning professor and emma murray business consultant and author comes this ground breaking new text entrepreneurship the practice and mindset catapults students beyond the classroom by helping them develop an entrepreneurial mindset so they can create opportunities and take action in uncertain environments based on the world renowned babson entrepreneurship program this new text emphasizes practice and learning through action students learn entrepreneurship by taking small actions and interacting with stakeholders in order to get feedback experiment and move ideas forward students walk away from this text with the entrepreneurial mindset skillset and toolset that can be applied to startups as well as organizations of all kinds whether your students have backgrounds in business liberal arts engineering or the sciences this text will take them on a transformative journey

America in the Shadow of Empires 2014-12-10

the focus of the book is the cost of empire particularly the cost in the american case the internal burden of american global leadership the book builds an argument about the propensity of external responsibilities to undermine the internal strength raising the question of the link between weakening and the global spread of american power

Grand Theft History 2015-10-06

the explosive truth about america s revolution a bloody civil war that was won largely in the south that modern liberals have kept buried until now in 1780 the darkest hour of the american revolution the british went down to the south and overplayed their hand by burning the bibles of backwoodsmen and threatening their honor the british ignited a firestorm

ordinary folk from throughout the southern colonies spontaneously banded together and rode for hundreds of miles to king s mountain in south carolina to attack and destroy the british forces in the most spectacular unusual and decisive battle of the war never heard of the massacre that saved the american revolution no idea that liberty was actually won in the south red state values of god guns and guts are being dismantled by leftists airbrushing our past in order to transform our future grand theft history features

Federal Register 2013-06

covers receipts and expenditures of appropriations and other funds

Statement of Disbursements of the House as Compiled by the Chief Administrative Officer from ... 2014-04

this book examines democratizing media reforms in latin america the author explains why some countries have recently passed such reforms in the broadcasting sector while others have not by offering a civil society perspective the author moves beyond conventional accounts that perceive media reforms primarily as a form of government repression to punish oppositional media instead he highlights the pioneering role of civil society coalitions which have managed to revitalize the debate on communication rights and translated them into specific regulatory outcomes such as the promotion of community radio stations the book provides an in depth comparative analysis of media reform debates in argentina and brazil analyzing chile and uruguay as complementary cases supported by original qualitative research as such it advances our understanding of how shifting power relations and social forces are affecting policymaking in latin america and beyond

Numerical Mathematics and Advanced Applications ENUMATH 2015 2016-11-09

western liberal democracy has a dual foundation of limited government implementing the will of the majority and protecting individual autonomy within a sphere of fundamental rights under the rubric of universal human rights western societies take for granted that they tolerate all religions and treat all persons equally however through globalization and immigration western societies are increasingly finding non christian people in their midst this pluralism is causing polities to rethink fundamental notions of the boundaries of religious freedom equality and state neutrality three countries whose systems are based on the western liberal democratic philosophy and which are religiously pluralist the united states france and the netherlands are reacting in different ways the politics of the hijab and burqa lie at the intersection of the political and legal spheres consequently the political and legal spheres have each attempted to enforce differing versions of the concepts of equality and neutrality a cross cultural and cross national survey of judicial decisions and legislative action in these countries demonstrates how each is balancing individual rights and communal bonds and adhering to or retreating from previously accepted human rights norms for women and religious practices
