South Australia (Rough Guides Snapshot Australia) 2016-04-20

planning and the rural environment examines the environmental issues affecting countryside planning emphasis is placed on the look and feel of the open countryside the function and appearance of the rural environment rather than the problems of its people and the settlements in which they live also discussed is the conflict of interest generated between some of the major planning systems concerned with the development of rural activities and the protection of rural resources comprised of 13 chapters this volume begins with an assessment of conflicting views of how a countryside of the future should develop and the degree of control and direction that should take place the following chapters consider how the emerging range of environmental problems and opportunities in rural planning can best be illustrated in particular the dominance of agriculture as a rural activity is analyzed together with forest and woodland management leisure activity in the countryside and conservation of resources and wildlife the next section is devoted to uplands and the urban fringe paying particular attention to some of the ways in which rural interests interact in two very different areas finally the development of rural planning is reviewed and issues that are expected to shape the countryside of the future

are considered this book should be of interest to postgraduate students of rural planning and specialists in various fields of countryside planning

Planning and the Rural Environment 1985
