mormons with its three different voyages and possible dating enigmas truest account ever written about the americas sometimes it s not what is being said that s important it s what not being said that is you will be intrigued so if you are ready to start a journey that will give you a lot to think about then turn to page 1 unravel the truth fire is one of the four major elements known to exist on earth others include air water and dust however fire occupies the most significant position among the rest from the perspective of sacred religious worship where it is believed to represent the presence of god also because of the critical role that fire plays in the area of spiritual warfare anyone who desires access to supernatural power must have a deep understanding of the characteristics of fire and its symbolism and be spiritually baptized by fire baptism by godly fire endows children of god with supernatural authority and enables them to do exploits for him so this baptism by fire is a privilege and great blessing to the body of christ the contempoary church needs believers like moses and elijah whose hearts burned with this spiritual fire it distinguishes a believer for service in the kingdom where god the supreme judge that is a consuming fire is also the god of mercy and grace who saves the penitent this is a mystery that this book tries to unravel write up given by editorial coordinator mansi chauhan a path of enlightenment peace and knowledge of ancient scriptures which was lost in the process of evolution but found again the teachings of our past in the fields of ayurveda meditation and yoga are being reintroduced to the folks of today answers from the divine provides us with answers to the question one asks ever since they know about the universe and its existence it beautifully explains the doubts one has while taking reference from our ancient scriptures why were we created what is our fate how to be more connected to the universe and what are our roles in this universe these questions are just a mere sneak of what the book holds the author has made sure that their creation could be read by anyone and everyone the simplicity and elegance of the content are admirable it takes you through the pages of self help and therapy to be a better version of yourself the world has offered us a lot good and bad the choice is ours we can either make peace with the bad or try to balance both till we give up affirmation and positivity walk hand in hand and the author gives it a reason and meaning which has the power to give us a small push towards the light of happiness the author states that the motive behind this book is not to influence people about religion or specific belief systems the core idea is to convey divine wisdom written thousands of years ago to its destined seekers she wants to let the readers know that anyone and everyone is welcomed in her creative world without the need to be of a specific group of people the book has elements that are known to your soul but unknown to your mind because you haven t been face to face with them i would recommend this enlightenment and peace filled world to you for reading maybe you can find some of your answers hidden in answers from the divine
