Reform and Revolution in France

1995-09-21

this textbook has been written to help teachers and students to pilot their way through the enormous and ever expanding literature on the french revolution the author makes a conscious effort to combine social and political interpretations of the origins of the revolution and offers a synthesis which takes full account of current debates he also seeks to restore the revolution to its domestic environment notwithstanding the powerful contemporary myth of rupture the author argues that the dramatic events of 1789 need to be considered alongside the reform achievements of bourbon absolute monarchy the result is a new account of the gestation of the revolution which is both up to date and satisfying in its range of vision

the midshipman culture and educational reform examines the effect of educational and professional reforms on the culture of annapolis from 1945 76 the naval academy has juggled the competing priorities of training and education throughout its history proper balance was a perennial problem since the academy was limited to a four year timetable to graduation bancroft hall was the focal point for professional indoctrination and the heart and soul of the academy culture its traditions and activities often competed with academies for the midshipmen s time and attention technology and operational requirements forced the school to reevaluate the emphasis paid to academics outside groups such as the folsom board and admiral hyman rickover also acted as a catalyst for reform the culmination of these efforts was the academic revolution of the 1960s which transformed annapolis into an elite engineering college midshipmen and their officers occasionally resisted changes that undercut their most cherished traditions including plebe indoctrination ironically most core values of the academy culture remained similar to what they had always been including the emphasis on career service and loyalty to one s shipmates fomey s book uses all original sources including a thorough survey of graduates from these years
