when we read old family letters or hear stories about our great grandparents they hold our attention in a particular way events from long before we were born are about us they tell us something important about who we are if there s a story about great aunt mildred on the oregon trail as a young child we want to know that story because it affects who we are today commonly we read the bible as a historical

text making it a source of facts or doctrines useful information but perhaps not very personal yet the narratives in early chapters of the bible need to be understood not as ancient history but as part of the story of our family again and again for example the people of israel of later generations were reminded remember that you were slaves in egypt they must understand that the story of the deliverance is not distant history but their own reality from the mists of eden retells eleven key stories from genesis through joshua as family stories aunt hagar and aunt sarai uncle joshua and uncle red and uncle jacob and uncle joe

The History of Eden 2012-03-02

i took the first six chapters of genesis as the inspiration for this novel it is a dramatization of events to fill in over 900 years of events concerning adam eve and the original sin which was glossed over in the bible this dramatization also makes an attempt to explain what could have happened to eden after the fall of man no attempt was made to change the bible s history as it is written or to change any premise

Emblems from Eden 1868

in this book professor barr presents a reading of the story of the garden of eden not as a tale of the origins of sin and death but as a tale of a chance of immortality briefly accessible to humanity but quickly lost old testament scholars have long been aware that the traditional reading of the story of adam and eve as the fall of man though hallowed by st paul s use of it cannot stand up to close examination of the text however they have not succeeded in formulating an alternative interpretation which rivals the force of this

traditional reading or is relevant to such a wide range of biblical and theological issues professor barr s new interpretation has such force and with its challenges to many conventional views it is likely to cause a considerable stir among traditionalists and to excite those dissatisfied with aspects of traditional thought central to the book is its stress on the role and prevalence of the idea of immortality commonly thought to be a later greek and un biblical import into christian thinking reflection on immortality also leads to a reconsideration of ideas about death in the hebrew bible about sheol the hebrew underworld and about the soul professor barr brings out the importance of time for the hebrew bible and the concept of length of days showing that the threat is not so much death as such but the manner and time of death his study of chronology leads to a reconsideration of the story of noah s ark and the book ends by seeing resurrection and immortality as complementary rather than conflicting ideas
