politics intellectual work and the material conditions of femininity taking a close look at this quest for an integrated life in the autobiographical and theoretical writings of well known feminists such as mary wollstonecraft emma goldman and simone de beauvoir alongside contemporary counterparts like azar nafisi audre lorde and ana castillo marso moves beyond questions of who women are and what women want adding an innovative personal dimension to feminist theory showing how changing conceptions of femininity manifest themselves within all women s lives emma goldman has often been read for her colorful life story her lively if troubled sex life and her wide ranging political activism few have taken her seriously as a political thinker even though in her lifetime she was a vigorous public intellectual within a global network of progressive politics engaging goldman as a political thinker allows us to rethink the common dualism between theory and practice scrutinize stereotypes of anarchism by placing goldman within a fuller historical context recognize the remarkable contributions of anarchism in creating public life and open up contemporary politics to the possibilities of transformative feminism for centuries women and other gendered minorities had to protest to gain equality their demands were often matched by counter protest from conservative forces within historical societies that intended to return to old orders or good old times the present volume will take a closer look at the interrelationship between gender and protest and analyze in detail how gender related perspectives stimulated protests and initiated historical changes through historical case studies that range from antiquity until modern times specialists from different countries and disciplines discuss reasons for protest gender as a factor that stimulated social conflicts and the power of gendered protests of the past with regards to their impact and long term impact until today the feminist thinkers in this collection are the designated fifty one key feminist thinkers historical and contemporary and also the authors of the entries collected here are fifty one key thinkers and fifty one authors recognizing that women are fifty one percent of the population there are actually one hundred and two thinkers collected in these pages as each author is a feminist thinker too scholars writers poets and activists well established and emerging old and young and in between these feminists speak the languages of art politics literature education classics gender studies film queer theory global affairs political theory science fiction african american studies sociology american studies geography history philosophy poetry and psychoanalysis speaking in all these diverse tongues conversations made possible by feminist thinking are introduced and engaged key figures include simone de beauvoir doris lessing toni morrison cindy sherman octavia butler marina warner elizabeth cady stanton chantal akerman betty friedan audre lorde margaret fuller sappho adrienne rich each entry is supported by a list of the thinker s major works along with further reading suggestions an ideal resource for students and academics alike this text will appeal to all those interested in the fields of gender studies women s studies and women s history and politics emma goldman a documentary history of the american years redefines the historical memory of emma goldman and illuminates a forgotten yet influential facet of the history of american and european radicalism this definitive multivolume work which differs significantly from goldman s autobiography presents original texts a significant group of which are published in or translated into english for the first time anchored by rigorous contextual annotations the distillation of years of scholarly research

these volumes include personal correspondence newspaper articles government surveillance reports from america and europe dramatic court transcripts unpublished lecture notes and an array of other rare items and documentation biographical newspaper and organizational appendixes are complemented by in depth chronologies that underscore the complexity of goldman s political and social milieu the first volume made for america 1890 1901 tracks the young emma goldman s introduction into the anarchist movement features her earliest known writings in the german anarchist press and charts her gradual emergence from the radical immigrant circles of new york city s lower east side into a political and intellectual culture of both national and international importance goldman s remarkable public ascendance is framed within a volatile period of political violence within the first few pages henry clay frick the anti union industrialist is shot by alexander berkman goldman s lover the book ends with the assassination of president william mckinley an act in which goldman was falsely implicated the documents surrounding these events shed light on difficult issues and spark an important though chilling debate about goldman s strategy for reconciling her beautiful vision of anarchism and the harsh realities of her times the documents articulate the force of goldman s rage tracing the development of her political and social critique as well as her originality and her remarkable ability to synthesize and popularize cutting edge political and cultural ideas goldman appears as a rising luminary in the mainstream press a voice against hypocrisy and a lightning rod of curiosity intrigue and sometimes fear the volumes include newspaper accounts of the speaking tours across america that eventually established her reputation as one of the most challenging and passionate orators of the twentieth century themes that came to dominate goldman s life anarchism and its possibilities free speech education the transformative power and social significance of literature the position of labor within the capitalist economic system the vital importance of women s freedom the dynamics of personal relationships and strategies for a social revolution are among the many introduced in made for america from mother earth to mother nature women have for centuries been associated with nature feminists troubled by the way in which such representations show women controlled by powerful natural forces and confined to domestic space have sought to distance themselves from nature in undomesticated ground stacy alaimo issues a bold call to reclaim nature as feminist space her analysis of a remarkable range of feminist writings as well as of popular journalism visual arts television and film powerfully demonstrates that nature has been and continues to be an essential concept for feminist theory and practice alaimo urges feminist theorists to rethink the concept of nature by probing the vastly different meanings that it carries she discusses its significance for americans engaged in social and political struggles from for example the indian wars of the early nineteenth century to the birth control movement in the 1920s to contemporary battles against racism and heterosexism reading works by catherine sedgwick mary austin emma goldman nella larsen donna haraway toni morrison and others alaimo finds that some of these writers strategically invoke nature for feminist purposes while others cast nature as a postmodern agent of resistance in the service of both environmentalism and the women s movement by examining the importance of nature within literary and political texts this book greatly expands the parameters of the nature writing genre and establishes nature as a crucial site

for the cultural work of feminism this is the first comprehensive multidisciplinary and multilingual bibliography on women and gender in east central europe and the balkans vol 1 and the lands of the former soviet union vol 2 over the past millennium the coverage encompasses the relevant territories of the russian hapsburg and ottoman empires germany and greece and the jewish and roma diasporas topics range from legal status and marital customs to economic participation and gender roles plus unparalleled documentation of women writers and artists and autobiographical works of all kinds the volumes include approximately 30 000 bibliographic entries on works published through the end of 2000 as well as web sites and unpublished dissertations many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies the entries are cross referenced and each volume includes indexes through his many books on the history of anarchism paul avrich has done much to dispel the public s conception of the anarchists as mere terrorists in anarchist voices avrich lets american anarchists speak for themselves this abridged edition contains fifty three interviews conducted by avrich over a period of thirty years interviews that portray the human dimensions of a movement much maligned by the authorities and contemporary journalists most of the interviewees anarchists as well as their friends and relatives were active during the heyday of the movement between the 1880s and the 1930s they represent all schools of anarchism and include both famous figures and minor ones previously overlooked by most historians their stories provide a wealth of personal detail about such anarchist luminaries as emma goldman and sacco and vanzetti in this highly accessible social and intellectual history of american anarchism in the united states andrew cornell reveals an amazing continuity and development across the twentieth century far from fading away anarchists dealt with major events such as the rise of communism the new deal atomic warfare the black freedom struggle and a succession of artistic avant gardes stretching from 1915 to 1975 this book traces u s anarchism as it evolved from the creed of poor immigrants militantly opposed to capitalism early in the twentieth century to one that today sees resurgent appeal among middle class youth and foregrounds ecology feminism and opposition to cultural alienation provided by publisher the dictionary of modern american philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected it includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading while all the major post civil war philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers in many cases the dictionary of modern american philosophers offers the first scholarly treatment of the life and work of certain writers this book will be an indispensable reference work for scholars working on almost any aspect of modern american thought marriage was historically not only a romantic ideal but a tool of exploitation of women in many regards women were often considered commodities

and marriage was far away from the romantic stereotypes people relate to it today while marriages served as diplomatic tools or means of political legitimization in the past the discourses about marital relationships changed and women expressed their demands more openly discourses about marriage in history and literature naturally became more and more heated especially during the long 19th century when marriages were contested by social reformers or political radicals male and female alike the present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in marital relationships it focuses on marriage discourses may they have been legal or rather socio political ones in addition the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates between 1936 and 1939 the spanish civil war showcased anarchism to the world news of the revolution in spain energised a moribund international anarchist movement and activists from across the globe flocked to spain to fight against fascism and build the revolution behind the front lines those that stayed at home set up groups and newspapers to send money weapons and solidarity to their spanish comrades this book charts this little known phenomenon through a transnational case study of anarchists from britain ireland and the united states using a thematic approach to place their efforts in the wider context of the civil war the anarchist movement and the international left spanning the era from the end of reconstruction 1877 to 1920 the entries of this reference were chosen with attention to the people events inventions political developments organizations and other forces that led to significant changes in the u s in that era seventeen initial stand alone essays describe as many themes historian howard zinn brings to life the american feminist and anarchist leader emma goldman collected here is a brief history of america told through stories applauding the enduring spirit of dissent to celebrate the millionth copy sold of his book a people s history of the united states howard zinn drew on the words of americans some famous some little known across the range of american history these words were read by a remarkable cast at an event held at the 92nd street y in new york city that included james earl jones alice walker kurt vonnegut alfre woodard marisa tomei danny glover harris yulin andre gregory and others from that celebration this book was born here in their own words and interwoven with commentary by zinn are columbus on the arawaks plough jogger a farmer and participant in shays rebellion harriet hanson a lowell mill worker frederick douglass mark twain mother jones emma goldman helen keller eugene v debs langston hughes genova johnson dollinger on a sit down strike at general motors in flint michigan an interrogation from a 1953 huac hearing fannie lou hamer a sharecropper and member of the freedom democratic party malcolm x and james lawrence harrington a gulf war resister among others
