2020-07-05

this book demonstrates that using visualisation processes in mathematics education can help to enhance teaching and learning and bridge the inequality gap that exists between well resourced and under resourced schools in southern africa drawing on classroom research conducted in the southern african region it examines how epistemological access in a context of gross inequality can be constructively addressed by providing research based solutions and recommendations the book outlines the visualisation process as an integral but often overlooked process of mathematics teaching and learning it goes beyond the traditional understanding of visualisation processes such as picture forming and using tools and considers visualisation processes that are semiotic in nature and includes actions such as gestures in combination with language it adds value to the visualisation in mathematics education research discourse and deliberation in africa with a unique focus on southern africa and open avenues for further research and collaboration in the region it will be a highly relevant reading for researchers academics and post graduate students of mathematics education comparative education and social justice education

Firestein & Kelley's Textbook of Rheumatology

2013

since 2004 the u s government has supported the global response to hiv aids through the president s emergency plan for aids relief pepfar the republic of rwanda a pepfar partner country since the initiative began has made gains in its hiv response including increased access to and coverage of antiretroviral therapy and decreased hiv prevalence however a persistent shortage in human resources for health hrh affects the health of people living with hiv and the entire rwandan population recognizing hrh capabilities as a foundational challenge for the health system and the response to hiv the government of rwanda worked with pepfar and other partners to develop a program to strengthen institutional capacity in health professional education and thereby increase the production of high quality health workers the program was fully managed by the government of rwanda and was designed to run from 2011 through 2019 pepfar initiated funding in 2012 in 2015 pepfar adopted a new strategy focused on high burden geographic areas and key populations resulting in a reconfiguration of its hiv portfolio in rwanda and a decision to cease funding the program which was determined no longer core to its programming strategy the last disbursement for the program from pepfar was in 2017 evaluation of pepfar s contribution 2012 2017 to rwanda s human resources for health program describes pepfar supported hrh activities in rwanda in relation to programmatic priorities outputs and outcomes and examines to the extent feasible the impact on hrh and hiv related outcomes the hrh program more than tripled the country s physician specialist workforce and produced major increases in the numbers and qualifications of nurses and midwives partnerships between u s institutions and the university of rwanda introduced new programs upgraded curricula and improved the quality of teaching and training for health professionals growing the number skills and competencies of health workers contributed to direct and indirect improvements in the quality of hiv care based on the successes and challenges of the hrh program the report recommends that future investments in health professional education be designed within a more comprehensive approach to human resources for health and institutional capacity building which would strengthen the health system to meet both hiv specific and more general health needs the recommendations offer an aspirational framework to reimagine how partnerships are formed how investments are made and how the effects of those investments are documented
