of proficiency this volume explores the relation between the complexity of written texts and the difficulty of reading comprehension tests it brings together linguistic
investigations into the text inherent complexity of the tests and a study of the data derived from their administration to groups of italian university students the study of text complexity draws on corpus linguistics text linguistics and systemic functional linguistics both quantitative and qualitative analyses are carried out on the
language used in the reading texts and in the related tasks that make up the corpus of tests the assessment of test difficulty on the other hand is informed by research
