Decision making is one of the most important activities in both our professional and our private lives today the literature on the subject has grown considerably over the last fifty years and it now covers many different approaches to the subject these approaches range from that of creating a mathematical model of the decision situation under consideration as in operations research and other forms of mathematical decision analysis to those that are based on human and organizational behavior recently those working in the field have begun to combine approaches to the study of decision situations that arise in organizations in our personal lives and in the communities in which we live this book is an attempt to assist those concerned with decision making to work with this combination of approaches in the past decision problems have been considered according to the conditions under which they arise and to some extent in terms of the approaches available for their resolution writers on the subject who are mathematically oriented have devised a method of classifying decisions based on the type of mathematics that they suggest be used in the resolution of the problems this approach leads to the division of decision situations into the categories of certainty uncertainty risk and competition deterministic models available in operations research have then been offered as the means of treating decision situations in the category of certainty our health our income and our social networks at older ages are the consequence of what has happened to us over the course of our lives the situation at age 50 reflects our own decisions as well as many environmental factors especially interventions by the welfare state this book explores the richness of 28 000 life histories in thirteen european countries collected as part of the survey of health ageing and retirement in europe share combining these data with a comprehensive account of european welfare state interventions provides a unique opportunity

to answer the important public policy questions of our time how the welfare state affects people's incomes housing families retirement volunteering and health the overarching theme of the welfare state creates a book of genuinely interdisciplinary analyses a valuable resource for economists gerontologists historians political scientists public health analysts and sociologists alike a translation of a German humanist tract written popularly for a wide audience by Josef Popper 1838-1921 most widely known by the pseudonym Lynkeus on the first page Popper provides the ethical ideal that is meant to serve as the foundation for his program of social reform the obliteration of any individual who has not willfully or forcibly endangered another is a much more important event than all the political religious and national events and all scientific artistic and technical progress of all centuries and people taken together introduction by Joram Graf Haber paper edition unseen 21 95 annotation copyright by Book News Inc Portland OR this book explores the steady decline in the status of the individual in recent years and addresses common misunderstandings about the concept of individuality drawing from psychology neuroscience technology economics philosophy politics and law White explains how and why the individual has been devalued in the eyes of scholars government leaders and the public he notes that developments in science have led to doubts about our cognitive competence while assumptions made in the humanities have led to questions about our moral competence in this book White goes on to argue that both of these views are mistaken and that they stem from overly simplistic ideas about how individuals make choices however imperfectly in their interests which are multifaceted and complex in response he proposes a new way to look at individuals that preserves their essential autonomy while emphasizing their responsibility to others inspired by the moral philosophy of Immanuel Kant and the legal and political philosophy reflected in the Bill of Rights to the U.S. Constitution this book explains how individuality combines both rights and responsibilities reconciles the popular yet false dichotomy between individual and society and provides the basis for a humane and respectful civil society and government this book is part of White's trilogy on the individual and society which includes *The Manipulation of Choice* and *The Illusion of Well-Being* many of the things we do we do together with other people think of carpooling and playing tennis in the past two or three decades it has become increasingly popular to

analyze such collective actions in terms of collective intentions this volume brings together ten new philosophical essays that address issues such as how individuals succeed in maintaining coordination throughout the performance of a collective action whether groups can actually believe propositions or whether they merely accept them and what kind of evidence if any disciplines such as cognitive science and semantics provide in support of irreducibly collective states the theories of the big four of collective intentionality michael bratman raimo tuomela john searle and margaret gilbert and the big five of social ontology which in addition to the big four includes philip pettit play a central role in almost all of these essays drawing on insights from a wide range of disciplines including dynamical systems theory economics and psychology the contributors develop existing theories criticize them or provide alternatives to them several essays challenge the idea that there is a straightforward dichotomy between individual and collective level rationality and explore the interplay between these levels in order to shed new light on the alleged discontinuities between them these contributions make abundantly clear that it is no longer an option simply to juxtapose analyses of individual and collective level phenomena and maintain that there is a discrepancy some go as far as arguing that on closer inspection the alleged discontinuities dissolve the undoubted fact of human individuality has remained outside the field of interest of scientific psychology neither the central organization of consciousness nor individual powers of action have been dealt with in substantial research programmes yet every facet of our mental lives is influenced by how our minds are organized how much of this organization comes from the languages and social practices of the cultures into which we are born is undetermined in this book rom harré explores the radical thesis that most of our personal being may be of social origin consciousness agency and autobiography are the three unities which make up our personal being their origin in childhood development and their differences in different cultures are explored nevertheless despite the overwhelming influence of social environment on mental structure individual identity is a central facet of western culture how is the formation of such identity possible rom harré ends with the suggestion that personal identity derives from the complementary powers of human beings both to display themselves socially as unique and to create novel linguistic forms making individual thought and feeling possible this book raises

important questions concerning the shame of illiteracy what does it mean to students to be drawn into a world where family and friends cannot follow can the same person appear literate and illiterate at the same time is literacy for that matter an either or condition does it hurt to be illiterate in more than one language more than one culture to whom can literacy education be a threat instead of a promise the chapters in this book confront the unknowable implication of joining literate systems and carry us toward an understanding that can help literacy practitioners and policy makers at local national and international levels to better understand the issues involved in this important area of work Icolm pines and lise rafaelsen the seventh international congress of group psychotherapy organized in copenhagen by the international association of group psychotherapy was one of the largest and most representative congresses on this subject that has yet been held probably for the first time we achieved the declared aim of the international association that of bringing together representatives of the different approaches to group psychotherapy in the same forum to allow for communication exchange and development of our relation ships previous congresses have been less representative and it seems to augur well for the future of the association and of it s congresses that there was this strong force and wish for unification and for exchange within the field of group psychotherapy the congress theme the individual and the group boundaries and interrelations in theory and practice was chosen because it gave an opportunity once again to examine the very basis for group sycho therapy as theory and as practice the basic theme stated in the opening papers by professor marie jahoda and professor james anthony was replayed daily with new developments and variations according to the theoretical position of each subsequent speaker this report examines past and existing individual learning accounts and other individual schemes to finance training based on a review of the existing literature as well as six new case studies commissioned by the oecd the upper austrian bildungskonto the french compte personnel de formation the scottish individual learning accounts individual training accounts the singapore skillsfuture credit the tuscan carta ila and the individual training accounts in michigan and washington in the united states this comprehensive monograph synthesizes the research on the individual placement and support model of supported employment for people with severe mental illness it identifies empirical

foundations for core principles of the model and reviews the literature on effectiveness long term outcomes cost effectiveness generalizability implementation and policy implications this book explores the dynamics of the individual versus the collective in various aspects of life from social behavior to creativity to politics drawing from psychology sociology and philosophy mallik offers insights into how individuals can maintain their autonomy while contributing to the greater good this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant moving beyond previous scholarship he gives us a locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy book jacket building on their insightful work on india s 1998 and 1999 parliamentary elections distinguished scholars ramashray roy and paul wallace s current book focuses on the landmark elections of 2004 bringing together contributors from india and abroad this volume adds to the body of work on electoral politics and social change in india and will be of interest to students and teachers of political science journalists as well as the informed general reader this comprehensive book describes how proactive behavior driven by a proactive personality contributes to individual and organizational productivity a consolidation of available research on the nature of proactivity in the workplace this book explo this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body
