

# Free read Chapter 18 cold war conflicts worksheet [PDF]

The cold war was a period of geopolitical tension between the United States and the Soviet Union and their respective allies, the Western Bloc and the Eastern Bloc, that started in 1947, two years after the end of World War II, and lasted until the fall of the Soviet Union in 1991. The term "cold war" is the Russian word for "cold war" (Холодная война). The cold war was a period of open yet restricted rivalry that developed after World War II between the United States and the Soviet Union and their respective allies. It was waged on political, economic, and propaganda fronts and had only limited recourse to weapons. The term was first used by writer George Orwell in 1945. The cold war lasted nearly half a century. Here is a look at why it began, how it escalated, its legacy today, and why some analysts think another cold war is already underway. Cold war: open yet restricted rivalry and hostility that developed after World War II between the U.S. and the Soviet Union and their respective allies. The U.S. and Britain, alarmed by the Soviet domination of Eastern Europe, feared the expansion of Soviet power and communism in Western Europe.
