concepts like metaphors allusions and other elements of poetry by first discovering them in the film at the same time they upgrade and extend their vocabulary with words terms idioms and the vernacular that is used within the dialogs around the poem their newly acquired knowledge enables them to articulate both personal discernments and popular apprehensions on the vicissitudes of life in this the protagonist asserts that he could not sleep because he saw lightning flashing far away in the sky the book explores the various functions of this scene and its relationship with other parts of the poem this study achieves two main goals the first sheds light on two important terms connected with old arabic poetry the function and the narration we see how a certain element can function differently from text to text and how these different functions influence the narration of a poem and consequently make it to some degree idiosyncratic i e a text that differs from other poems that include the same element the second purpose is to make a comprehensive study of the components namely the motifs included in the lightning scenes here the author reaches conclusions regarding whether these components differ significantly from text to text or whether they are merely repetitions in other words this study examines whether the lightning scenes in themselves are idiosyncratic or on the contrary are fossilized and conventional follow long established poetic traditions creative approaches to poetry for the primary framework for literacy supports teachers in weaknesses as well he takes the long view reminding us that standards come and go but good teaching remains grounded in proven practices that sharpen students literacy skills instead of blindly adhering to the latest standards movement gallagher suggests increasing the amount of reading and writing students are doing while giving students more choice around those activitiesbalancing rigorous high quality literature and non fiction works with student selected titlesencouraging readers to deepen their comprehension by moving beyond the four corners of the text planning lessons that move beyond common core expectations to help young writers achieve more authenticity through the blending of genresusing modeling to enrich students writing skills in the prewriting drafting and revision stagesresisting the de emphasis of narrative and imaginative reading and writingamid the frenzy of trying to teach to a new set of standards kelly gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question what is in the best interest of our students
