**Witch Craze** 2006-01-01 fascinating and vivid new statesman thoroughly researched the spectator intriguing bbc history magazine vividly told bbc history revealed a timely warning against persecution morning star astute and thoughtful history today an important work all about history well researched the tablet on the morning of thursday 29 june 1682 a magpie came rasping rapping and tapping at the window of a prosperous devon merchant frightened by its appearance his servants and members of his family had within a matter of hours convinced themselves that the bird was an emissary of the devil sent by witches to destroy the fabric of their lives as the result

of these allegations three women of bideford came to be forever defined as witches a secretary of state brushed aside their case and condemned them to the gallows to hang as the last group of women to be executed in england for the crime yet the hatred of their neighbours endured for bideford it was said was a place of witches though pretty much worn away the belief in witchcraft still lingered on for more than a century after their deaths in turn ignored reviled and extinguished but never more than half forgotten it seems that the memory of these three women and of their deeds and sufferings both real and imagined was transformed from canker to regret and from regret into celebration in our own age indeed their example was cited during the final parliamentary debates in 1951 that saw the last of the witchcraft acts repealed and their names were chanted as both inspiration and incantation by the women beyond the wire at greenham common in this book john callow explores this remarkable reversal of fate and the remarkable tale of the bideford witches

*The Encycloedia of Christianity, Vol. 5* 2008-02-14 in the febrile religious and political climate of late sixteenth century england when the grip of the reformation was as yet fragile and insecure and underground papism still perceived to be rife lancashire was felt by the protestant authorities to be a sinister corner of superstition lawlessness and popery and it was around pendle hill a sombre ridge that looms over the intersecting pastures meadows and moorland of the ribble valley that their suspicions took infamous shape the arraignment of the lancashire witches in the assizes of lancaster during 1612 is england s most notorious witch trial the women who lived in the vicinity of pendle who were accused convicted and hanged alongside the so called salmesbury witches were more than just wicked sorcerers whose malign incantations caused others harm they were reputed to be part of a dense network of devilry and mischief that revealed itself as much in hidden celebration of the mass as in malevolent magic they had to be eliminated to set an example to others in this remarkable and authoritative treatment published to coincide with the 400th anniversary of the case of the lancashire witches philip c almond evokes all the fear drama and paranoia of those volatile times the bleak story of the storm over pendle

*The Lancashire Witches* 2002 between 1645 7 john stearne led the most significant outbreak of witch hunting in england as accusations of witchcraft spread across east anglia stearne and matthew hopkins were enlisted by villagers to identify and eradicate witches after the trials finally subsided in 1648 stearne wrote his only publication a confirmation and discovery of witchcraft but it had a limited readership consequently stearne and his work fell into obscurity until the 1800s and were greatly overshadowed by hopkins and his text this book is the first study which analyses stearne s publication and contextualises his ideas within early modern intellectual cultures of religion demonology gender science and print in order to better understand the witch finder s beliefs and motives the book argues that stearne was a key player in the trials that he was not a mainstream puritan and that his witch finding availed from contemporary science it traces a confirmation s reception history from 1648 to modern day and argues that the lack of research focusing on stearne has resulted in misrepresentations of the witch finder in the historiography of witchcraft this book redresses the imbalance and seeks to provide an alternative reading of the east anglian witch hunt and of england s premier witch hunter john stearne

**A Witch's Ally** 2024-09-08 september 1613 in belvoir castle the heir of one of england s great noble families falls suddenly and dangerously ill his body is tormented with violent convulsions within a few short weeks he will suffer an excruciating death soon the whole family will be stricken with the same terrifying symptoms the second son the last male of the line will not survive it is said witches are to blame and so the earl of rutland s sons will not be the last to die witches traces the dramatic events which unfolded at one of england s oldest and most spectacular castles four hundred years ago the case is among those which constitute the european witch craze of the 15th 18th centuries when suspected witches were burned hanged or tortured by the thousand like those other cases it is a tale of superstition the darkest limits of the human imagination and ultimately injustice a reminder of how paranoia and hysteria can create an environment in which nonconformism spells death but as tracy borman reveals here it is not quite typical the most powerful and machiavellian figure of the jacobean court had a vested interest in events at belvoir he would mastermind a conspiracy that has remained hidden for centuries
