geography the study of places and the relationship between people and their
environment is present across many facets of modern life from tracking lost cell
phones to monitoring disease outbreaks like ebola the growing use of geographic
information and location based technology across multiple sectors of the american
economy has prompted questions about whether k 12 students skills and exposure to
geography are adequate for current and future workforce needs this report examined 1
the extent that eighth grade students are proficient in geography 2 the challenges
selected school officials and teachers face in providing geography education and 3
the role of the department of education with respect to geography education figures
this is a print on demand report
