A Concordance to the Plays of Shakespeare 2018-09-04

the bible teems with nonhuman life from its opening pages with god s creation of animals on the same day and out of the same earth as humans to its closing apocalyptic scenes of horses riding out of the sky animals are adam s companions noah s shipmates and elijah s saviors they are at the center of ancient israel s religious life as sacrifices and yet as job discovers beyond human dominion it is an animal that saves balaam from certain death by an angel s hand and an animal that carries jesus into jerusalem the creator declares all of them good at the beginning and since the apostle paul writes of god s eternal purposes for all things on earth they are somehow part of a hoped for eschatological restoration so why are animals so often ignored in christian moral discourse in its theological thinking and faith motivated praxis human centeredness typically results in the complete erasure of the nonhuman this book argues that this exclusion of animals is problematic for those who see the bible as authoritative for the religious life instead biblical literature bears witness to a more inclusive understanding of moral duty and faith motivated largesse that extends also to eden s other residents

John Stonehouse, My Father 2007 evangelical and feminist approaches to old testament interpretation often seem to be at odds with each other the authors of this volume argue to the contrary feminist and evangelical interpreters of the old testament can enter into a constructive dialogue that will be fruitful to both parties they seek to illustrate this with reference to a number of texts and issues relevant to feminist old testament interpretation from an explicitly evangelical point of view in so doing they raise issues that need to be addressed by both evangelical and feminist interpreters of the old testament and present an invitation to
