casa braccio volumes 1 and 2 is a tale of romance and religion set in italy there was nothing very surprising in the fact that the head of the house of braccio should have obliged one of his daughters to take the veil in the convent of carmelite nuns just within the gate of subiaco as his sister had taken it many years earlier indeed it was customary in the family of the princes of gerano that one of the women should be a carmelite and it was a tradition not unattended with worldly advantages to the sisterhood that the braccio nun whenever there was one should be the abbess of that particular convent maria teresa braccio had therefore yielded though very unwillingly to her father s insistence and having passed through her novitiate had finally taken the veil as a carmelite of subiaco in the year 1841 on the distinct understanding that when her aunt died she was to be abbess in the elder lady s stead but perhaps maria was not quite cut out for the convent and more so when a young scottish doctor comes to subiaco for his studies

subiaco lies beyond tivoli southeast from rome at the upper end of a wild gorge in the samnite mountains it is an archbishopric and gives a title to a cardinal which alone would make it a town of importance it shares with monte cassino the honour of having been chosen by saint benedict and saint scholastica his sister as the site of a monastery and a convent and in a cell in the rock a portrait of the holy man is still well preserved which is believed not

without reason to have been painted from life although saint benedict died early in the fifth century the town itself rises abruptly to a great height upon a mass of rock almost conical in shape crowned by the cardinal s palace and surrounded on three sides by rugged mountains on the third it looks down the rapidly widening valley in the direction of vicovaro near which the licenza runs into the anio in the neighbourhood of horace s farm it is a very ancient town and in its general appearance it does not differ very much from many similar ones amongst the italian mountains but its position is exceptionally good and its importance has been stamped upon it by the hands of those who have thought it worth holding since the days of ancient rome of late it has of course acquired a certain modernness of aspect it has planted acacia trees in its little piazza and it has a gorgeously arrayed municipal band but from a little distance one neither hears the band nor sees the trees the grim medi<sup>3</sup>val fortifications frown upon the valley and the time stained dwellings great and small rise in rugged irregularity against the lighter brown of the rocky background and the green of scattered olive groves and chestnuts those features at least have not changed and show no disposition to change during generations to come in the year 1844 modern civilization had not yet set in and subiaco was within what it still appears to be from without a somewhat gloomy stronghold of the middle ages rearing its battlements and towers in a shadowy gorge above a mountain torrent inhabited by primitive and passionate people dominated by ecclesiastical institutions and though distinctly roman a couple of hundred years behind rome itself in all matters ethic and <sup>3</sup>sthetic it was still the scene of the santacroce murder which really decided beatrice cenci s fate it was still the gathering place of highwaymen and outlaws whose activity found an admirable field through all the region of hill and plain between the samnite range and the sea while the almost inaccessible fortresses of the higher mountains towards trevi and the serra di sant antonio offered a safe refuge from the halfhearted pursuit of pope gregory s lazy soldiers Ê
