Healthcare Management Strategy, Communication, and Development Challenges and Solutions in Developing Countries 2019-02-04 during the past decade raising the productivity of women became an integral element of the world bank's overall strategy for reducing poverty and achieving sustainable growth the number and scope of bank projects to provide women with enterprise development financial services and social intermediation services grew accordingly this paper reviews 27 such projects in east and south asia and provides a succinct assessment of successes failures and surprises the authors identify patterns and trends in the design of projects examine the reasons for such trends and draw lessons about how such projects can be more effective in delivering financial services to women in these countries many of these women are an increasingly vital source or the sole source of income for their families but they are often overlooked in the implementation of small development projects the authors draw eight key lessons for future bank projects to provide enterprise development and financial services they recommend that such projects be considered one element of a coordinated country specific strategy for poverty alleviation

CEPAL Review No.125, August 2018 2014-09-05 attainment of the sustainable development goals sdgs will require that the association of southeast asian nations asean countries continue their considerable past achievements the millennium development goals which were to have been met by 2015 helped focus attention on achieving progress towards poverty reduction better health outcomes and improvements in education in the asean developing countries the 17 sdgs adopted in 2015 and to be met by 2030 cover a wider set of interlinked development objectives such as inclusion and environmental sustainability which are important for all countries including all asean member countries asean countries have made significant progress in improving incomes and economic opportunities including for women and reducing poverty since 2000 reflecting the economic dynamism of the region strong income growth structural transformation and infrastructure improvements continue to support sustainable development in asean with continued income growth and strong policy efforts most asean countries are on track to eradicate absolute poverty by 2030 a major milestone also several asean countries already do relatively well in terms of gender equality as a result given support from continued income gains economic welfare in asean countries is expected to continue converging towards advanced asia levels ensuring more inclusive and environmentally sustainable growth presents a key challenge for asean despite some progress income inequality remains relatively high in several countries and the shift towards manufacturing strains environmental sustainability these challenges hamper asean welfare convergence relative to advanced asia policies to close these gaps in sustainable development can lead to significant gains for the lower middle income asean countries in particular more determined policy efforts are needed to improve infrastructure as well as health and education outcomes remaining sustainable development challenges call for comprehensive country specific sdg strategies formulated in the context of national development plans and close monitoring through the voluntary review process pursuing sustainable development entails sizeable spending needs estimates for indonesia and vietnam the two cases studies considered in this paper show that reaching the level of best performers in their income group in infrastructure health and education by 2030 could entail an additional cost of 51.2-61.2 percent of gdp per year while development needs vary across countries estimates suggest large spending needs for most asean countries meeting them will require efforts on multiple fronts including improvements in spending efficiency tax capacity and support from the private sector for developing asean countries concessional financing from development partners will be required the imf continues to engage asean countries in key areas as they pursue their sdgs as called for in their mandates asean and the imf both strive for economic growth and sustainable development through economic integration and collaboration among their member countries the imf has increased its engagement with asean countries to support their policy efforts through its policy diagnostics advice and capacity development asean countries have also received support through imf initiatives in strengthening revenue mobilization building state capacity for infrastructure provision pursuing economic and financial inclusion addressing the challenges of

climate change strengthening economic institutions for good governance and building statistical capacity while fundamental reforms to improve sustainable development take time to bear fruit there is evidence that efforts have started to pay off
