100 Answers to 100 Questions to Ask Before You Say I Do 2008

what is what could it be that noted author mark kurlansky has written a very short terrifically witty deeply thought provoking book entirely in the form of questions a book that draws on philosophy religion literature policy indeed all of civilization to ask what may well be the twenty most important questions in human history or has he given us a really smart impossibly amusing game of twenty questions kurlansky considers the work of confucius plato gertrude stein shakespeare descartes nietzsche freud hemingway emily dickinson the talmud charles de gaulle virginia woolf and others distilling the deep questions of life to their sparkling essence what supplies endless fodder for thoughtful conversation but also endless opportunity to ponder and be challenged by and entertained

by these questions in refreshingly original ways as kurlansky says in a world that seems devoid of absolute certainties how can we make declarative statements without asking the questions how will we ever get to the answers why are we here why is all of this here why do we die what is death what does it mean that outer space is infinite and what is after infinity what is the significance of birdflight why does matter decay and how is our life different from that of a mosquito is there an end to these questions or is questioning as infinite as space with his striking black and white woodcut illustrations throughout this handsome volume is a tour de force that packs a tremendous wallop in a deliciously compact package

1000 Questions and Answers 1992

a sunday times bestseller how long is now the short answer is somewhere between 2 and 3 seconds the long answer involves an incredible journey through neuroscience our subconscious and the time bending power of meditation living in the present may never feel the same ready for some more okay why isn't pluto a planet why are dogs noses wet why do hens cluck more loudly after laying an egg what happens when one black hole swallows another do our fingerprints change as we get older how young can you die of old age and what is at the very edge of the universe life is full of mind bending questions and as books like what if and why don't penguins feet freeze have shown the route to find each answer can take us on the weirdest and most wonderful journeys how long is now is a fascinating new collection of questions you never thought to ask along with answers that will change the way you see everything

What? 2011-04-26

the questions we ask ourselves determine our lives our thoughts are nothing more than a continuous question and answer session we have with ourselves our lives material emotional spiritual and financial are a direct reflection of our thoughts eighty five percent of these thoughts are both habitual and unconscious meaning we are asking and answering the exact same questions every day usually in the same way over and over again what all this means if there is any area of your life you're not 100% happy with the root of the needed change is in the questions you're asking of yourself and since these questions are habitual and unconscious the first order of business is to become aware of the questions only then can we change them that is exactly what we're doing with this book ask yourself a better question the improved quality of your questions will lead to an improved quality of life no matter how much skill and how many resources you add to your arsenal bad questions will always drag you backwards into failure not taking full control of your questions will lead you into the randomness of the world good days and outcomes followed by just as many bad days and outcomes if this has happened to you before there isn't anything wrong with you you just didn't know what you didn't know no one ever told you about this there aren't any classes in school teaching you the habit of asking strong empowering questions some people live 80 years and never consider what they've been asking themselves all day every day thus they think success in life is based on randomness the luck of the draw success and happiness are not random you become exactly what you ask yourself are you ready to ask yourself better questions and improve your life one answer at a time you better be because the journey begins on the next page let's get started
