in this detailed narrative of the business tuthill founded the patterns he created the techniques he used and the other artisans and consumers he knew maurice crofford has written the story of an earlier more elegant and leisurely era for those knowledgeable about cut glass the development of the forms will be instructive for others who simply appreciate the beauty of the glass the numerous black and white photographs will appeal beyond both of those dimensions however crofford provides a fascinating insight into the ways industrialization and mass production and more especially the automobile changed forever the ways upper class americans lived entertained and displayed their good fortune in tuthill s career moreover crofford finds an example of american ingenuity and creative genius in responding to changing times book jacket

## Charles Rousset; or, Industry and honesty, adapted by T.T. Haverfield

1853

death has long been a pre occupation of philosophers and this is especially so today the oxford handbook of philosophy of death collects 21 newly commissioned essays that cover current philosophical thinking of death related topics across the entire range of the discipline these include metaphysical topics such as the nature of death the possibility of an afterlife the nature of persons and how our thinking about time affects what we think about death as well as axiological topics such as whether death is bad for its victim what makes it bad to die what attitude it is fitting to take towards death the possibility of posthumous harm and the desirability of immortality the contributors also explore the views of ancient philosophers such as aristotle plato and epicurus on topics related to the philosophy of death and questions in normative ethics such as what makes killing wrong when it is wrong and whether it is wrong to kill fetuses non human animals combatants in war and convicted murderers with chapters written by a wide range of experts in metaphysics ethics and conceptual analysis and designed to give the reader a comprehensive view of recent developments in the philosophical study of death this handbook will appeal to a broad audience in philosophy particularly in ethics and metaphysics

## The Rich Cut Glass of Charles Guernsey Tuthill

2001

edited by mylan engel jr and gary lynn comstock this book employs different ethical lenses including classical deontology libertarianism commonsense morality virtue ethics utilitarianism and the capabilities approach to explore the philosophical basis for the strong animal rights view which holds that animals have moral rights equal in strength to the rights of humans while also addressing what are undoubtedly the most serious challenges to the strong animal rights stance including the challenges posed by rights nihilism the kind argument against animal rights the problem of predation and the comparative value of lives in addition contributors explore the practical import of animal rights both from a social policy standpoint and from the standpoint of personal ethical decisions concerning what to eat and whether to hunt animals unlike other volumes on animal rights which focus primarily on the legal rights of animals and unlike other anthologies on animal ethics which tend to cover a wide variety of topics but only devote a few articles to each topic this volume focuses exclusively on the question of whether animals have moral rights and the practical import of such rights the moral rights of animals will be an indispensable resource for scholars teachers and students in the fields of animal ethics applied ethics ethical theory and human animal studies as well as animal rights advocates and policy makers interested in improving the treatment of animals

it is difficult to find an area of public policy more plagued by misunderstanding than energy policy even worse every time the subject is raised we are obligated to get mired in pointless arguments about the weather this book helps set the record straight not convinced consider some of these inconvenient truths the cost of green energy climate remediation is anywhere from 10 to 1 000 times greater than the damage from the climate change it attempts to alleviate germany the world s leader in solar energy will spend more than 280 billion by 2030 on solar subsidies but all of that investment will only forestall 22nd century global warming by 37 hours obama s carbon tax would cost americans 1 2 trillion over just ten years but it would only reduce the midrange 3 degree modeled 22nd century global temperature increase by 0 038 degrees celsius at their current emissions growth rate it will take china nine months to replace the entire u s emissions cut that obama wants to achieve over seven years at a staggering cost in american jobs and lost economic growth the u s biofuel program imposes a cost on consumers 9 862 times greater than any climate benefit they or their distant progeny will ever derive this is not another skeptical global warming polemic but an economic evaluation of how and why green energy will fail the world has too many pressing needs for the money obama squandered on just a single bankrupt cronny solar company the u s could have prevented 300 000 childhood malaria deaths in poor countries a thoroughly researched heavily documented book by an expert in his field it will demonstrate in meticulous detail how wasteful and economically inefficient obama s green energy dead end future will be compared to other worthy alternatives it s time to end the hysterical climate cynicism and get on humanity s side

long at the margins of global affairs and at the edge of our mental map of the world the arctic has found its way to the center of the issues which will challenge and define our world in the twenty first century energy security and the struggle for natural resources climate change and its uncertain speed and consequences the return of great power competition the remaking of global trade patterns in the future history of the arctic geopolitics expert charles emmerson weaves together the history of the region with reportage and reflection revealing a vast and complex area of the globe loaded with opportunity and rich in challenges he defines the forces which have shaped the arctic s history and introduces the players in politics business science and society who are struggling to mold its future the arctic is coming of age this engrossing book tells the story of how that is happening and how it might happen through the stories of those who live there those who study it and those who will determine its destiny

## **“The” Works of Samuel Richardson**

1883

why did the language of contract become the dominant metaphor for the relationship between subject and sovereign in mid seventeenth century england in wayward contracts victoria kahn takes issue with the usual explanation for the emergence of contract theory in terms of the origins of liberalism with its notions of autonomy liberty and equality before the law drawing on literature as well as political theory state trials as well as religious debates kahn argues that the sudden prominence of contract

theory was part of the linguistic turn of early modern culture when government was imagined in terms of the poetic power to bring new artifacts into existence but this new power also brought in its wake a tremendous anxiety about the contingency of obligation and the instability of the passions that induce individuals to consent to a sovereign power in this wide ranging analysis of the cultural significance of contract theory the lover and the slave the tyrant and the regicide the fool and the liar emerge as some of the central if wayward protagonists of the new theory of political obligation the result is must reading for students and scholars of early modern literature and early modern political theory as well as historians of political thought and of liberalism

2008

just as our society delights in citations quotations and allusions in myriad contexts not least in popular song late medieval poets and composers knew well that such references could greatly enrich their own works in the art of the grafted song citation and allusion in the age of machaut author yolanda plumley explores the penchant for borrowing in chansons and lyrics from fourteenth century france uncovering a practice integral to the experiments in form genre and style that ushered in a new school of lyric working across disciplinary boundaries plumley traces creative appropriations in the burgeoning fixed forms of this new tradition to build a more intimate understanding of the shared experience of poetry and music in the generations leading up to and including guillaume de machaut exploring familiar and less studied

collections of songs as well as lyrics without music this book sheds valuable light on the poetic and musical knowledge of authors and their audiences and on how poets and composers devised their works and engaged their readers or listeners it presents fresh insights into when and in which milieus the classic ars nova polyphonic chanson took root and flourished and into the artistic networks of which machaut formed a part as plumley reveals old songs lingered alongside the new in the collective imagination well beyond what the written sources imply reminding us of the continued importance of memory and orality in this age of increasing literacy the first detailed study of citational practice in the french fourteenth century song writing tradition the art of grafted song will appeal to students and scholars of medieval french music and literature cultural historians and others interested in the historical and social context of music and poetry in the late middle ages

## **The Encyclopædia Britannica**

1893

since the end of the cold war africa has seen a dramatic rise in new political and religious phenomena including an eviscerated privatized state neoliberal ngos pentecostalism a resurgence in accusations of witchcraft a culture of scamming and fraud and in some countries a nearly universal wish to emigrate drawing on fieldwork in togo charles piot suggests that a new biopolitics after state sovereignty is remaking the face of one of the world s poorest regions in a country where playing the u s department of state s green card lottery is a national pastime and the preponderance of cybercafés and western union branches signals a widespread desire to connect to the rest of the world nostalgia for the future makes clear that the cultural and political terrain that underlies postcolonial theory has shifted in order to map out this new terrain piot enters into critical dialogue with a host of important theorists including agamben hardt and negri deleuze and mbembe the result is a deft interweaving of rich observations of togolese life with profound insights into the new globalized world in which that life takes place
