has to be supported by a business case as that is what makes it sustainable but that huge benefits can be reaped as 60 of the world's top 100 economies are corporates not countries businesses that are not helping to create solutions become part of the problem added topics in the 2015 edition include the growth of social value in the commissioning of services and what business can learn from this the social progress index as an alternative to gdp and the role for greater corporate citizenship as a way of enhancing employee engagement with all the benefits that this can bring to a company it updates the stories and data which made the first edition so readable in a world in which businesses of all sizes frequently find some of their practices at odds with the basic principles of their customer or citizen promise welcome to goodco offers a realistic commercially hard nosed approach to reframing business in society
