New Mexico's Struggle for Statehood 2017-10-12 this historic book may have numerous typos and missing text purchasers can usually download a free scanned copy of the original book without typos from the publisher not indexed not illustrated 1910 edition excerpt chapter xvii joint statehood movement of 1906 that the idea of joint statehood for new mexico and arizona was distasteful in both territories there is no doubt there was good reason for this it was not caused by any ill feeling in either of the territories toward the other but because there was an entire lack of cohesion and community of interest they were more disconnected so far as personal acquaintance and business or social relations go than most states far more distant from each other nature itself had separated them by placing the great continental divide as a practical barrier between them the rivers of new mexico flow eastward or southward to the gulf of mexico and the atlantic those of arizona flow westward to the gulf of california and the pacific the trade and business relations of arizona are with california and the pacific coast those of new mexico are with kansas city st louis chicago and new york as a rule no new mexican visits arizona except en route to california and no citizen of arizona visits new mexico except en route to the east and those visits are simply en passant the number of residents of either territory who have ever passed a night in the other except in a railroad car is remarkably small in short there is less connection between the two than there is between either one of them and new york or california it seemed impossible for the eastern mind to

grasp this elemental fact the average eastern congressman knowing that each territory was anxious for statehood and really unfavorable to an increase of western states looked at the map saw two squares contiguous to each other and instantly found a satisfactory solution of the difficulty by saying why not join them together and

Croatian Struggle for Freedom and Statehood 1979 the quest for an inclusive and independent state has been at the center of the palestinian national struggle for a very long time this book critically reexamines this quest by exploring the meaning of palestinian statehood and the challenges that face alternative models to it today rethinking statehood in palestine gives prominence to a young set of diverse palestinian scholars both men and women to show how notions of citizenship sovereignty and nationhood are being currently rethought within the broader context of decolonization bringing forth critical and multifaceted engagements with what

palestinian self determination entails within a larger regional context this groundbreaking book sets the terms of debate for the future of palestine beyond partition

Contested Statehood 2009 time is running out for the palestinian hope for a two state solution thus the palestinians desperately search for a way out of the stalemate in the conflict with israel and thereby clutch at every straw statements made by palestinian officials such as kosovo is not better than us we deserve independence even before kosovo yasser abed rabbo or we are not kosovo saeb erekat were a prelude to a public and scientific debate about the applicability of the kosovo albanian strategy on their way towards statehood on the palestinian case the author took up the issue for a detailed academic analysis that puts into question whether the declaration of independence of kosovo in 2008 really unveiled new options for palestine thereby the study illustrates the purpose and limits of analogy corinna metz born in 1986 lives and works in ljubljana slovenia she received her doctoral degree from the university of vienna in political sciences with specialization in international politics and a master s degree in international development for several years she conducts research in the field of peace and conflict studies with a focus on the balkans and the middle east where she conducted long term research stays

The Struggle for Sovereignty 2015-04 today s world is a world of nation states few have survived since the early modern period some have existed for three hundred years most came into being during the second part of the last century yet the equation between the state and the nation does not go back far in history despite the prevailing tendency to view the state as closely linked to ethnicity to challenge the latter this book attempts to examine statehood separately from the concept of ethnicity it asks what is non ethnic about statehood by looking at statehood before and beyond ethnicity a non ethnic statehood is analysed in two forms as a historical phenomenon at the time of the emergence of the early modern state part one and as a historical tradition which had been pursued by the nation builders in the nineteenth and twentieth centuries part two instead of looking at great powers as traditional models of statehood individual chapters focus on minor and less familiar states in northern and eastern europe from the period c 1600 2000 including belgium bohemia greece the netherlands romania poland lithuania serbia and montenegro sweden scotland and transylvania

Rethinking Statehood in Palestine 2021-10-26 do political leaders determine whether a polity will receive a democratic future or not research and advocates of democracy agree on the significance of political elites for democratization yet there is a need for a more specific understanding of their role this book develops a theory of political leadership at the point of nascent statehood to explain the emergence of resilient democracies it employs four diverse case studies to examine the role of leadership and democratic consolidation in doing so the book identifies certain capacities of political leaders at the critical moment of nascent statehood as decisive to the future democratic quality of their state this book will be of interest to students and scholars of international relations democratization studies state building leadership nationalism middle eastern studies and south asian studies

The Way to Statehood 2014-05-14 based on primary collections newspaper articles government documents and secondary sources this well crafted biography begins with nathan s childhood in present day kentucky and virginia and then follows his family s move to missouri hurt traces boone s early activities as a hunter trapper and surveyor as well as his leadership of a company of rangers during the war of 1812 after the war boone returned to survey work in 1831 he organized another company of rangers for the black hawk war and returned to military life making it his career the remainder of the book recounts boone s activities with the army in iowa and the indian territory where he was the first boone to gain notice outside missouri or kentucky although nathan boone was an important figure he lived much of his life in the shadow of his father r douglas hurt however makes a strong case for nathan s contribution to the larger context of life in the american backcountry especially the execution of military and indian policy and the settlement of the frontier

Statehood Initiative 1981 through narrating the politics and everyday life in ex british southern cameroons ambazonia porcupine in a python s throat makes an invaluable contribution to understanding the choices and constraints facing both southern cameroons ambazonia people and the people of republic du cameroun the volume illustrates how the people of ex british southern cameroons ambazonia seek alternatives to the cycles of repression and state terrorism turned into reprisal retaliation and a genocidal war from 2016 this volume challenges the authorities over delimited territories and their inhabitants in states arbitrarily put together and held together by external power and control the editor and contributors argue that the westphalian sovereignty of authority as indivisible in postcolonial and other settings is unworkable and does not last very long in plural societies put together and sustained with the use of force

Black Enterprise 1986-01 from the Madrid invitation in 1991 to the introduction of the Oslo process in 1993 to the present a negotiated settlement has remained the dominant leitmotiv of peacemaking between Israel and the Palestinian people that the parties have chosen negotiations means that either side's failure to comply with its obligation to negotiate can result in an internationally wrongful act and in response countermeasures and other responses this monograph seeks to advance our understanding of the international law of negotiation and use this as a framework for assessing the Israeli-Palestinian dispute with the Palestinian people's unsuccessful attempt to join the United Nations as a member state in autumn 2011 and the successful attempt to join the same institution as a non-member observer state in November 2012 providing a case study for this the legal consequences of these applications are not merely of historical interest they inform the present rights and obligations of Israel and the Palestinian people this work fills a significant gap in the existing international law scholarship on the Israeli-Palestinian dispute which neither engages with this means of dispute settlement generally nor does so specifically within the context of the Palestinian people's engagements with international institutions based on primary research this book explores materials that were not analyzed before it treats a highly political issue with scientific objectivity that strikes a balance between various points of view the book will be an essential reading to all those involved in peace studies international negotiations and Israeli-Palestinian conflict Mutaz M. Qafisheh associate professor of international law Hebron University a compelling and innovative account of the legal aspects of the Palestinian-Israeli conflict a must read Efraim Karsh King's College London and Bar Ilan University author of *Palestine Betrayed* a superbly imagined and executed study on Palestine that puts the negotiation imperative at the heart of its narrative fully interrogating the involvement of public international law at each step of the long and layered history that is vigorously brought to life in these pages a study that also promises texture nuance and depth to the legal analysis it offers and it delivers handsomely on each of these fronts Dino Kritsiotis chair of public international law head of the international humanitarian law unit University of Nottingham

Political Leadership, Nascent Statehood and Democracy 2014-06-05 this book focuses on critical approaches to the state and state theory in the global south in light of the reemergence of the post-colonial and peripheral state as a crucial institution and actor in the 21st century's capitalist world system the book examines the nature functions and development dynamics of the state in the periphery as well as its constituting interests and struggles drawing on the works of Poulantzas and Gramsci dependency and world systems theory as well as the regulation school and the German *Ableitungsdebatte* state geography and critical realism it analyzes the development of different theoretical perspectives on the state elaborates on their theoretical ontological and epistemological presuppositions and illustrates their methodological practical and ethical implications the book is divided into three parts the first of which provides an overview of recent global capitalist developments and challenges for state theory and lays the theoretical ontological and hermeneutic foundation for studies of the state and statehood in the global south in turn the second part introduces readers to different schools of state theory including critical theory and materialism as well as approaches derived from postcolonial anthropological and feminist thought lastly the third part presents various empirical studies highlighting concrete methodological and practical experiences of conducting critical state theory

The Struggle of the Lithuanian People for Statehood 1971 hybrid forms of governance where the central state authority does not possess a monopoly of violence and fails to exercise control are not only an epiphenomena but a reality likely to persist this book explores this phenomenon drawing on examples from the Middle East and Africa it considers the different sorts of actors state and non-state public and private national and transnational which possess power examines the dynamics of the relationships between central authorities and other actors and reviews the varying outcomes the book provides an alternative view of the way in which governance has been constructed and lived puts forward a conceptualisation of various forms of governance which have hitherto been regarded as exceptions and argues for such forms of governance to be regarded as part of the norm

Nathan Boone and the American Frontier 1998 countdown to statehood based on Arabic English and Hebrew language sources analyzes the form that the Palestinian state is likely to take the book looks at past institution building patterns in the West Bank and Gaza the relationship between the PLO and the local

palestinians and the nature of the conflict with israel from 1967 through the first year of the palestinian authority under arafat s leadership a major reference point in this analysis is the zionist experience of state building in israel s own pre independence era not only did the zionist experience serve as a model of a successful protagonist that palestinians wished to emulate but both also began as diaspora based these similarities and even more so the dissimilarities between these two struggles for national determination allow the reader to assess the potential likenesses and disparities of the future palestinian state compared to its israeli counterpart the concluding chapter analyzes the findings in the broader context of third world state building by arguing contrary to the common wisdom that war makes the state that more peaceful routes to statehood lead to better states in the post independence era

Porcupine in a Python's Throat 2023-09-05 this work takes an in depth look at the multi faceted contemporary relationship between singapore and japan since the end of world war ii it is the story of a relationship between an economic superpower japan and an enterprising city state whose leaders have sought to emulate not only japan s economic success but several key facets of japanese society as well no other country surpasses singapore in its public admiration of japan how is it possible for a multi ethnic singapore to emulate a relatively homogeneous japan what features of economic and political motives behind the attempt to emulate japan these and other questions are adressed in this work which will be of interest to scholars of the international relations and security of east and southeast asia
