Zadie Smith - White Teeth and Multiculturalism 2007-09-30 seminar paper from the year 2004 in the subject english language and literature studies literature grade 1 0 free university of berlin course writing the city representations of london language english abstract in 1997 zadie smith a young talented graduate from cambridge set out to write a novel about a simple white working class londoner who lives a good life throughout the 20th century by accident three years later the author published her fictional debut white teeth which gives its readers a panoramic view of multicultural british society the plot evolves around three families of different ethnic origins living in north western london in contrast to other initial works of contemporary black british novelists zadie smith s first novel is not the usual account of black youth experience in britain written from an autobiographical perspective on more than 500 pages the anglo jamaican author explores a wide range of themes such as second world war experiences first generation migrant life in the diaspora recent british youth culture intergenerational family conflicts radical religious fanaticism and biogenetical engineering despite its numerous discourses diverse characters and multiple time layers all of the novel s addressed issues center around the problem of the individual person forming an authentic identity in a multicultural society and the establishment of a new national identity in postcolonial britain zadie smith explores the characters identity conflicts before the background of their family history however while genetic inheritance cultural origins and prehistory seem to play an important part in the individual s development chance and personal choice are decisive factors which have the potential to overrule any apparently predetermined life path history and fate are constantly intermingled throughout the narrative which is at the same time a migrant novel bildungsroman and family saga

Zadie Smith's White Teeth: Identity Construction between Historical Roots and Transcultural Hybridity 2006-06-02 twenty four year old zadie smith burst into the public eye with this debut novel which shows blazing flashes of wit and precocious insight here s the full inside story behind this remarkable work where did smith get the idea for the story what does the novel say about history and how it affects ordinary people can we ever really escape the past how has smith reacted to becoming such a media sensation

White Teeth 2003 seminar paper from the year 2006 in the subject english literature works grade 2 5 otto von guericke university magdeburg institut für anglistik language english abstract when you start a course in a new semester you have different expectations what to deal with in this course in sports it is obvious practicing the kind of sport you have chosen but in english most expectations are different because you have never heard of some topics in your life before the course black british writing with mrs bartels fulfilled my expectations surprisingly because we dealt with different british authors whose origins are in southern countries and who live in great britain now the main part of this course was taken up by the novel white teeth by zadie smith therefore it seems appropriate writing an essay about this book of course it is not possible to write ten pages about the whole book but to concentrate on

one important aspect the aspect i will concentrate on is the introduction and analysis of the members of the three families dominating the novel the families presented in the novel are not the kind of family i know in real life their attitudes towards life differ from ideologies like in germany which is worth being analysed and that opens new vistas
