compelling account of strauss s mature maimonidean writings leo strauss 1899 1973 one of the preeminent political philosophers of the twentieth century was an astute interpreter of maimonides s medieval masterpiece the guide of the perplexed in progressive minds conservative politics aryeh tepper overturns the conventional view of strauss s interpretation and of strauss s own mature thought according to the scholarly consensus strauss traced the well known contradictions in the guide to the fundamental tension in maimonides s mind between reason and revelation going so far as to suggest that while the jewish philosopher s overt position was religiously pious i e on the side of jerusalem secretly he was on the side of reason or athens in tepper s analysis strauss s judgments emerge as much more complex than this and also more open to revision in his later writings tepper shows strauss pointed to contradictions in maimonides s thought not only between but also within both jerusalem and athens moreover strauss identified and identified himself with an esoteric maimonidean teaching on progress progress within the bible beyond the bible and even beyond the rabbinic sages politically a conservative thinker strauss like

maimonides located man's deepest satisfaction in progressing in the discernment of the truth in the fullness of his career. strauss thus pointed to a third way beyond the modern alternatives of conservatism and progressivism.

the life of moshe ben maimon maimonides remains a mystery to many within evangelical christianity however he is lauded as a second moses by many within modern judaism. does he deserve that title? maimonides's via negativa created a rationale for rejecting the messiahship claims of jesus in rabbinic judaism. therefore this book seeks to illustrate that maimonides in his desire to create an anti christian apologetic regarding the incarnation fashioned a judaism that does not reflect the truths of the tanakh old testament and developed a judaism that was untenable for the jewish people of the twenty first century. many jewish people today are turning in a thousand and one different directions for spiritual answers but not in the only way that will offer the way to god. jesus of nazareth john 14:6. this work examines the history of maimonides his teachings and an apologetic approach to bring the gospel back to the jewish people. rom 1:16.
