

Download free Quizlet chapter 22 respiratory system [PDF]

22 chapter 22 the respiratory system by krishnan prabhakaran motivation copd or chronic obstructive pulmonary disease is a progressive disease which means it gets worse over time with copd less air flows in and out of the airways making it hard to breathe after studying this chapter you will be able to list the structures of the respiratory system list the major functions of the respiratory system outline the forces that allow for air movement into and out of the lungs outline the process of gas exchange summarize the process of oxygen and carbon dioxide transport within the respiratory system chapter 22 respiratory system 5 0 1 review systemic venous blood that is to be oxygenated in the lungs is delivered by the and the provide oxygenated systemic blood to lung tissue click the card to flip pulmonary arteries bronchial arteries click the card to flip 1 79 flashcards learn test match q chat chapter 22 the respiratory system 22 0 introduction 22 1 organs and structures of the respiratory system 22 2 the lungs 22 3 the process of breathing 22 4 gas the respiratory system consists of specific organs and structures used for the process of respiration in an organism the respiratory system is involved in the intake and exchange of oxygen and carbon dioxide between an organism and the environment the respiratory system is responsible for obtaining oxygen and getting rid of carbon dioxide and aiding in speech production and in sensing odors from a functional perspective the respiratory system can be divided into two major areas the conducting zone and the respiratory zone 22 1 organs and structures of the respiratory system anatomy physiology learning objectives by the end of this section you will be able to list the structures that make up the respiratory system describe how the respiratory system processes oxygen and co 2 study with quizlet and memorize flashcards containing terms like what is the main function of the respiratory system what are the 4 processes of respiration part 1 functional part of anatomy and more anatomy and physiology chapter 22 the respiratory system four processes of respiration click the card to flip pulmonary ventilation external respiration transportation o2 co2 internal respiration click the card to flip 1 131 flashcards learn test match q chat created by jopare051716 students also viewed cerebrum part 2 22 1 organs and structures of the respiratory system 22 2 the lungs 22 3 the process of breathing 22 4 gas exchange 22 5 transport of gases 22 6 modifications in respiratory functions 22 7 embryonic development of the respiratory system key terms chapter review interactive link questions review questions critical thinking chapter 22 the respiratory system anatomy physiology oer
