this book highlights cutting edge ecodesign research covering product and service design smart manufacturing and social perspectives in ecodesign featuring selected papers presented at ecodesign 2019 11th international symposium on environmentally conscious design and inverse manufacturing it also includes diverse interdisciplinary approaches to foster ecodesign research and activities in the context of sustainable development goals sdgs it addresses the need for the manufacturing industry to design innovations for sustainable value creation taking into account technological developments legislation and consumer lifestyles further the book discusses the concept of circular economy which originated in europe and aims to increase resource efficiency by shifting away from the linear economy focusing on product life cycle design and management smart manufacturing circular economy and business strategies and providing useful approaches and solutions to these emerging concepts this book is intended for both researchers and practitioners working in the broad field of ecodesign and sustainability

EcoDesign and Sustainability I 2020-11-02

this book constitutes the proceedings of the 28th international tyrrhenian workshop on digital communication tiwdc 2017 which took place in palermo italy in september 2017 the 18 papers presented in this volume were carefully reviewed and selected from 40 submissions they were organized in topical sections named biometric systems emerging services with network function virtualization nfv multimedia forensics security protocols software defined networks and technologies for internet of things iot

Digital Communication. Towards a Smart and Secure Future Internet

2017-09-11

it is undeniable that the recent revival of artificial intelligence ai has significantly changed the landscape of science in many application domains ranging from health to defense and from conversational interfaces to autonomous cars with terms such as google home alexa and chatgpt becoming household names the pervasive societal impact of ai is clear advances in ai promise a revolution in our interaction with the physical world a domain where computational intelligence has always been envisioned as a transformative force toward a better tomorrow depending on the application family this domain is often referred to as ubiquitous computing cyber physical computing or the internet of things the underlying vision is driven by the proliferation of cheap embedded computing hardware that can be integrated easily into myriads of everyday devices from consumer electronics such as personal wearables and smart household appliances to city infrastructure and industrial process control systems one common trait across these applications is that the data that the application operates on come directly typically via sensors from the physical world thus from the perspective of communication network infrastructure the data originate at the network edge from a performance standpoint there is an argument to be made that such data should be processed at the point of collection hence a need arises for edge ai a genre of ai where the inference and sometimes even the training are performed at the point of need meaning at the edge where the data originate the book is broken down into three parts core problems distributed problems and other cross cutting issues it explores the challenges arising in edge ai contexts some of these challenges such as neural network model reduction to fit resource constrained hardware are unique to the edge environment they need a novel category of solutions that do not parallel more typical concerns in mainstream ai others are adaptations of mainstream ai challenges to the edge space an example is overcoming the cost of data labeling the labeling problem is pervasive but its solution in the iot application context is different from other contexts this book is not a survey of the state of the art with thousands of publications appearing in ai every year such a survey is doomed to be incomplete on arrival it is also not a comprehensive coverage of all the problems in the space of edge ai different applications pose different challenges and a more comprehensive coverage should be more application specific instead this book covers some of the more endemic challenges across the range of iot cps applications to offer coverage in some depth we opt to cover mainly one or a few representative solutions for each of these endemic challenges in sufficient detail rather than broadly touching on all relevant prior work the underlying philosophy is one of illustrating by example the solutions are curated to offer insight into a way of thinking that characterizes edge ai research and distinguishes its solutions from their more mainstream counterparts

shortlisted for the locus award 2018 bob howard s career in the laundry the secret british government agency dedicated to protecting the world from the supernatural has involved brilliant hacking ancient magic and combat with creatures of pure evil now the laundry s existence has become public and bob is being trotted out on tv to answer pointed questions about eleven asylum seekers what neither bob nor his managers have foreseen is that their organisation has earned the attention of a horror far more terrifying than any demon a government looking for public services to privatise there are things in the

laundry s assets that big business would simply love to get its hands on inch by inch bob howard and his managers are forced to consider the truly unthinkable a coup against the british government itself

this book comprises selected papers from the 14th international conference on multimedia and ubiquitous engineering mue 2020 and the 14th international conference on future information technology future tech 2020 and this book presents the latest developments in the field of ubiquitous computing technologies it also discusses the state of the art in the development of computational methods involving theory algorithms numerical simulation error and uncertainty analysis and novel applications of new processing techniques in engineering science and other disciplines related to ubiquitous computing this book is a great resource for students researchers and professors working in the field of ubiquitous computing

DL 2015-06-19

as voice interfaces and virtual assistants have moved out of the industry research labs and into the pockets desktops and living rooms of the general public a demand for a new kind of user experience ux design is emerging although the people are becoming familiar with siri alexa cortana and others their user experience is still characterized by short command or query oriented exchanges rather than longer conversational ones limitations of the microphone and natural language processing technologies are only part of the problem current conventions of ux design apply mostly to visual user interfaces such as web or mobile they are less useful for deciding how to organize utterances by the user and the virtual agent into sequences that work like those of natural human conversation this edited book explores the intersection of ux design of both text or voice based virtual agents and the analysis of naturally occurring human conversation e g the conversation analysis discourse analysis and interactional sociolinguistics literatures it contains contributions from researchers from academia and industry with varied backgrounds working in the area of human computer interaction each chapter explores some aspect of conversational ux design some describe the design challenges faced in creating a particular virtual agent others discuss how the findings from the literatures of the social sciences can inform a new kind of ux design that starts with conversation

Advanced Multimedia and Ubiquitous Engineering 2020-12-16

the most comprehensive resource available on the many applications of portable spectrometers including material not found in any other published work portable spectroscopy and spectrometry volume two is an authoritative and up to date compendium of the diverse applications for portable spectrometers across numerous disciplines whereas volume one focuses on the specific technologies of the portable spectrometers themselves volume two explores the use of portable

instruments in wide range of fields including pharmaceutical development clinical research food analysis forensic science geology astrobiology cultural heritage and archaeology volume two features contributions by a multidisciplinary team of experts with hands on experience using portable instruments in their respective areas of expertise organized both by instrumentation type and by scientific or technical discipline 21 detailed chapters cover various applications of portable ion mobility spectrometry ims infrared and near infrared nir spectroscopy raman and x ray fluorescence xrf spectroscopy smartphone spectroscopy and many others filling a significant gap in literature on the subject the second volume of portable spectroscopy and spectrometry features a significant amount of content published for the first time or not available in existing literature brings together work by authors with assorted backgrounds and fields of study discusses the central role of applications in portable instrument development covers the algorithms calibrations and libraries that are of critical importance to successful applications of portable instruments includes chapters on portable spectroscopy applications in areas such as the military agriculture and feed hazardous materials hazmat art conservation and environmental science portable spectroscopy and spectrometry volume two is an indispensable resource for developers of portable instruments in universities research institutes instrument companies civilian and government purchasers trainers operators of portable instruments and educators and students in portable spectroscopy courses

Studies in Conversational UX Design 2018-09-03

dermoscopy is a noninvasive skin imaging technique that uses optical magnification and either liquid immersion or cross polarized lighting to make subsurface structures more easily visible when compared to conventional clinical images it allows for the identification of dozens of morphological features that are particularly important in identifyin

Portable Spectroscopy and Spectrometry, Applications 2021-03-29

during the last century navigation systems have become ubiquitous and guide drivers cyclists and pedestrians towards their desired destinations while operating worldwide they rely on line of sight conditions towards satellites and are thus limited to outdoor areas however finding a gate within an airport a ward within a hospital or a university s auditorium also represent navigation problems to provide navigation within such indoor environments new approaches are required this thesis examines pedestrian 3d indoor localization and navigation using commodity smartphones a desirable target platform always at hand and equipped with a multitude of sensors the imu accelerometer gyroscope magnetometer and barometer allow for pedestrian dead reckoning that is estimating relative location changes absolute whereabouts can be determined via wi fi an infrastructure present within most public buildings or by using bluetooth low energy beacons as inexpensive supplement the building s 3d floorplan not only enables navigation but also increases accuracy by preventing impossible movements and serves as a visual reference for the pedestrian all aforementioned information is fused by recursive density estimation based on a particle filter the conducted experiments cover both theoretical backgrounds and real world use cases all discussed approaches utilize the infrastructure found within most public buildings are easy to set up and maintain overall this thesis results in an indoor localization and navigation system that can be easily deployed without requiring any special hardware components

Dermoscopy Image Analysis 2015-10-16

this book constitutes the refereed proceedings of the 13th international conference on mobile and intelligent information systems mobiwiis 2016 held in vienna austria in august 2016 the 36 papers presented in this volume were carefully reviewed and selected from 98 submissions they were organization in topical sections named mobile practice and experience advanced and mobile systems security of mobile applications mobile and wireless networking mobile applications and wearable devices mobile and applications personalization and social networks

Smartphone-Based 3D Indoor Localization and Navigation 2021-01-10

this book offers a multidisciplinary strategy for finding new and more effective human computer interaction approaches in particular from a socio technical perspective that facilitate the exploration and exploitation of benefits that information technologies it offer organizations though the relationship between it and organizations is certainly very strong it is also one of the greatest obstacles to securing benefits from their interaction the participation of organizational users in the planning and design stages of it interfaces is the main area of human computer interaction where a wealth of contributions are positively enriching both the academic and management discussions thus a new approach for managing this relationship is needed one in which the different stakeholders are suitably taken into account moreover the outstanding success of the 2 0 phenomenon offers an example of a relevant platform where human computer interaction has been widely developed and exploited consequently this will influence and already is influencing the way it and users interact with each other the book is based on a selection of the best papers original double blind peer reviewed contributions from the annual conference of the italian chapter of the ais held in milan italy in december 2013

Mobile Web and Intelligent Information Systems 2016-08-10

galaxy s4 is amazing right out of the box but if you want to get the most of out your s4 or s4 mini start here with clear instructions and savvy advice from technology expert preston gralla you ll learn how to go online play games listen to music watch movies tv monitor your health and answer calls with a wave of your hand the important stuff you need to know be connected browse the manage email and download apps through wifi or s4 s 3g 4g network navigate without touch use air gestures with your hand or scroll with your eyes using smart screen find new ways to link up chat videochat and add photos video or entire slideshows to text messages get together with group play play games or share pictures documents and music with others nearby create amazing images shoot and edit photos and videos and combine images from the front and back cameras keep music in the cloud use google play music to store and access tunes check your schedule sync the s4 with your google and outlook calendars

Smart Organizations and Smart Artifacts 2014-05-15

we have once again tested security products for smartphones running google s android operating system our report covers details of the products made by leading manufacturers smartphones represent the future of modern communications in 2013 more than 1 billion smartphones were sold a further milestone in the advance of these devices1 a study published by facebook emphasises the importance of smartphones in our lives about 80 of users make use of their smartphone within 15 minutes of waking up each day at the same time the traditional function of a telephone is becoming less and less important the high quality of integrated cameras means that the smartphone is increasingly used for photography as well as with photos users trust their devices with their most personal communications such as facebook whatsapp and email this brings some risks with it as such usage makes the smartphone interesting for criminals who attempt to infect the device with malware or steal personal data there is also the danger brought by phishing attacks these days the use of security software on a pc or laptop is seen as essential however many smartphone users do not yet have the same sense of responsibility even though their devices store personal data private photos internet banking information or even company data as modern smartphones are often expensive to buy they are also an attractive target for thieves top quality smartphones cost several hundred euros as it is not possible to physically prevent them from being stolen they must be made less attractive to thieves consequently many of today s security products contain not only malware protection but also highly developed theft protection functions which make the device less attractive to thieves e g by locking the device and help the owner to find it again

Galaxy S4: The Missing Manual 2013-08-21

from a holistic perspective this handbook explores the design development and production of smart textiles and textile electronics breaking with the traditional silo structure of smart textile research and development leading experts from different domains including textile production electrical engineering interaction design and human computer interaction hci address production processes in their entirety by exploring important concepts and topics like textile manufacturing sensor and actuator development for textiles the integration of electronics into textiles and the interaction with textiles in addition different application scenarios where smart textiles play a key role are presented too smart textiles would be an ideal resource for researchers designers and academics who are interested in understanding the overall process in creating viable smart textiles

Mobile Security Products for Android 2014-10-14

the event to provide a scientific forum that will appeal to them individual scholars practitioners policy makers especially post graduate students to present their experiences research findings sharing ideas and experiences for the nature of the object being discussed is interdisciplinary the post graduate school sps of syarif hidayatullah state islamic university jakarta is called to organize international colloquium on interdisciplinary studies 2019 iciis 2019 with the theme moslem societies and social transformation in 2019 this event has been held in 7 9 november 2019 in the post graduate school of syarif hidayatullah state islamic university jakarta it is the conjunction with the 3rd international conference on quran and hadith studies iconquhas2019 the event is jointly organized and hosted by postgraduate school faculty of theology ushuluddin of syarif hidayatullah state islamic university jakarta paramadina university and islamic university of jakarta the conference papers from any kind of stakeholders and interdisciplinary studies related with religion and social related studies each contributed paper was refereed before being accepted for publication the double blind peer reviewed was used in the paper selection

Smart Textiles 2017-01-26

this volume integrates multimodal theoretical frameworks with those from graphic communication and information design and applies this critical synthesis to the examination of the changes and relationships that occur when multimodal documents are distributed across various means and channels of consumption drawing on examples from popular

newspapers and store catalogs the book's specific focus is on documents as sets here defined as the collective of all the assorted forms of a document published across multiple mediums and modes this approach affords a multi layered analysis of multimodal documents more broadly in addition to engaging in questions about the very definition of a document and the terminology we use in relation to documents including genres mediums and modes as both a critical examination of the theoretical frameworks employed in literature on documents and a way forward for new approaches to analyzing multimodal texts this volume is key reading for students and scholars in multimodality graphic communication design media studies and information science

ICIIS 2019 2020-05-04

create a fully operating application and deploy it to major mobile platforms using xamarin forms about this book create standard user interfaces on windows mobile android and ios and then make those interfaces look good with ease design a full blown application in very little time with just about the entire code being shared learn how to access platform specific features and still have the same core code with this handy guide who this book is for this book is intended for mobile software developers who are fed up with having three different code sets for the same application if you want to put your code on all mobile platforms with minimum fuss and just want to develop but haven't got the time to be digging too far into a particular platform this is the book for you basic knowledge of c is assumed what you will learn create a responsive ui modified to suit the target platform understand the basics of designing an application and the considerations needed for target platforms construct a complete app using a single codebase develop attractive user interfaces bind information to the code behind to generate a reactive application design an effective portable class library pcl include a windows mobile application within your standard xamarin forms application extend your applications using the xamarin forms labs library in detail xamarin is an ide used for the development of native ios android and windows and cross platform mobile applications in c for the mobile developer that means learning three different languages to create the same application even if you use the xamarin toolchain you still need to work with three different user interface construction sets xamarin is essentially a container in which developers can write any application in c and use the xamarin compiler to package and deploy on android ios or windows platforms to top this xamarin forms plays the role of a single codebase for mobile applications this book will show you with fully coded examples how to use both the xamarin toolchain and the xamarin forms library to code once for the three platforms it goes from the concept and design of a mobile messenger application to its execution you will be introduced to messenger the messaging app which includes key features such as push notifications ui maps databases and web services next you will learn to plan the ui using xamarin forms for cross mobile platform development and move on to creating custom buttons extending the ui and connecting to social sites such as facebook and twitter you will also learn about the limitations of pcl libraries and how they make coding easier this will be followed by the creation of a sqlite database and a database manager and the sqlite database's reflection within the database manager you will then be taken through the use of hardware features with ample coverage of ios android and windows mobile finally the book will conclude by introducing common strategies that allow you to create applications that just work without having to reinvent the wheel each time style and approach a fun and informal approach to creating a mobile application using the most up to date cross platform approach each coding chapter includes fully working code examples available for download from the packt publishing website

Design Perspectives on Multimodal Documents 2019-07-01

Журнал computerbild это уникальный сборник информации и практических курсов по работе с компьютером Простые и понятные пошаговые инструкции помогут начинающему пользователю с легкостью овладеть миром высоких технологий и усовершенствовать свои познания в программах интернет сервисах и современных гаджетах Журнал издается в Германии России Испании Польше Италии Болгарии и в Латвии первый номер журнала вышел в Германии 16 лет назад В России журнал существует с 2006 года и за это время он обрел множество верных читателей которые совершенствуют свои познания в области компьютеров с каждым новым номером dvd прилагается только к печатному изданию

Cross-platform UI Development with Xamarin.Forms 2015-08-26

beim erstellen eines fotobuchs sind der kreativität keine grenzen gesetzt egal ob es darum geht die hochzeit den letzten urlaub oder das erste lebensjahr ihres kindes zu dokumentieren die anbietersoftware bietet eine breite palette an gestaltungsmöglichkeiten am beispiel des fotobuch editors von cewe wird anhand verschiedener themen wie reise feste tiere kind und landschaft schritt für schritt erklärt wie man das perfekte fotobuch anlegt und was man bei der gestaltung beachten sollte dabei kommen auch die grundlagen guter gestaltung nicht zu kurz wie wählt man bilder aus und erzeugt spannung erstellt bild text kompositionen und wie gestaltet man einen spektakulären titel viele tipps und kniffe zeigen was bei der erstellung des fotobuchs zu beachten ist wie man das beste aus seinen fotos herauholt und sie bestmöglich präsentiert

this book is intended for ios developers who are curious to learn about ibeacon and want to start building applications for ios you will gain everything you need to know to master indoor location functionality using bluetooth beacon technology no knowledge of ibeacon is assumed

E-Business and Telecommunications 2014-11-25

mobile technologies have become a staple in society for their accessibility and diverse range of applications that are continually growing and advancing users are increasingly using these devices for activities beyond simple communication including gaming and e commerce and to access confidential information including banking accounts and medical records while mobile devices are being so widely used and accepted in daily life and subsequently housing more and more personal data it is evident that the security of these devices is paramount as mobile applications now create easy access to personal information they can incorporate location tracking services and data collection can happen discreetly behind the scenes hence there needs to be more security and privacy measures enacted to ensure that mobile technologies can be used safely advancements in trust and privacy defensive strategies and steps for securing the device are important foci as mobile technologies are highly popular and rapidly developing the research anthology on securing mobile technologies and

applications discusses the strategies methods and technologies being employed for security amongst mobile devices and applications this comprehensive book explores the security support that needs to be required on mobile devices to avoid application damage hacking security breaches and attacks or unauthorized accesses to personal data the chapters cover the latest technologies that are being used such as cryptography verification systems security policies and contracts and general network security procedures along with a look into cybercrime and forensics this book is essential for software engineers app developers computer scientists security and it professionals practitioners stakeholders researchers academicians and students interested in how mobile technologies and applications are implementing security protocols and tactics amongst devices

Learning iBeacon 2021-02-05

der theoretische und praktische umgang mit der informations und kommunikationstechnologie ist in der jugendhilfe auch heute noch weitläufig durch einzelne technikaffine mitarbeiter geprägt sodass die sozialinformatische entwicklungen nur zeitlich verzögert in die tägliche sozialarbeit einbezogen werden parallel dazu werden die anforderungen an qualität ausführung und effizienz der dokumentation der praktischen arbeit stetig höher trägerübergreifende qualitätsstandards und rechtssicherheit aber auch die individualität der sozialen arbeit die folgerichtige partizipation der familien und die erforderliche anpassungsfähigkeit stellen also hohe anforderungen an eine elementaraufgabe ohne geld und zeitressourcen der in diesem buch fachlich fundiert und praxisnah vorgestellte bedarf eines change it managements in der jugendhilfe und einer nachhaltigen implementierung eines effektiven falldokumentationssystems per tablet und smartphone in einem reellen praxisbeispiel erfolgt schrittweise von der grundlagenvermittlung zur einfachen sofortlösung über nachvollziehbare formularlösungen bis hin zu einer professionellen mobil erreichbaren datenbanklösung

Research Anthology on Securing Mobile Technologies and Applications 2015-06

das ipad der fünften generation kommt noch schlanker leichter und schneller daher damit übertrumpft es nicht nur seine vorgänger sondern stellt sich wieder einmal an die spitze des derzeitigen tablet markts auch sein kleines geschwister ist noch einmal ordentlich aufgepäppelt worden das ipad mini ist jetzt ebenfalls mit retina display und a7 prozessor ausgestattet und ist damit genauso schnell wie das große ipad beide geräte bringen natürlich ios 7 mit sowie eine reihe von features die dieses buch schritt für schritt und auf den punkt gebracht erklärt denn das große wie auch das kleine strotzen vor möglichkeiten und lassen keine wünsche offen ob beim surfen musikhören videotraining e mailschreiben oder chatten all das geht spielend von der hand aber es gibt noch so viel mehr zu entdecken wenn man etwas genauer unter die haube schaut susanne möllendorf erklärt in ihrem neuen buch mit kompetenz und begeisterung nicht nur all die finessen die diese geräte mitbringen und es sind eine menge raffinierter dabei sie bringt auch eine ganze reihe tipps und tricks mit und zeigt tools die nicht aus der apple küche kommen und mit denen man das funktionsspektrum der geräte noch erweitern kann mit diesem buch an ihrer seite ist der gebrauch dieser beiden geräte nur noch ein kinderspiel perfekt für einsteiger und immens hilfreich für profis die nach mehr insiderwissen suchen

Entwicklung und Implementierung eines mobilen Falldokumentationssystems mittels Smartphone und Tablet-PC 2014-02-15

if you read technology news you'll notice it's not just a story of amazing new product introductions or even that plus copycat product introductions all the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper as a reporter commentator and blogger on mobile technology i've collected what happened in the industry in 2013 and make predictions on what will and won't happen in 2014 you can read what did happen in the mobile technology in 2013 often i deliver a comment with the news item and usually there is a link to the web page of the original announcement this way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article history is moving so fast now that it is all recorded electronically but i'm surprised no one else has collected it and presented it for consideration here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed it's often overlooked that the technology industry is an industry by that i mean its main concerns are profit and growth as consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets so i cover the horse race aspect of the business who's up who's down is that changing is that likely to change the longer implications of what the technology industry is doing are vast and social we are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly the entire database of human knowledge is now available in the palm of your hand whenever you desire it everything is there the good the bad right and wrong hate and love music and noise we are obsessed with technology not in and of itself but as a means to an end technology is the means to satisfy our curiosity or even our desire for self expression we are taking photos machine gun style with our

smartphones and choose the few to share as humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible bill gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years he gave some boring answer about moore's law but the real answer is that computers are in their teenage years they are growing and growing they will not always do so so too the technology industry is in a state of rapid change i see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants their stories are here in the news in short here are predictions for what won't and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on apple samsung google microsoft nokia blackberry amazon yahoo news about social media giants facebook twitter google linkedin foursquare snapchat and the carriers themselves verizon at t sprint andt mobile you can also review my 2013 mobile predictions and see my track record on predictions finally there are some essays on how all this mobile tech is figuring into our lives i've divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering you can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters table of contents preface introduction chapter 1 2014 predictions chapter 2 mobile marketshare chapter 3 apple chapter 4 samsung chapter 5 google chapter 6 microsoft chapter 7 nokia chapter 8 blackberry chapter 9 amazon chapter 10 social media chapter 11 yahoo chapter 12 carriers chapter 13 2013 predictions chapter 14 essays appendix

Das Buch zum iPad Air & iPad mini 2 2014-01-10

dalam buku ini terpapar pengalaman pengalaman penulis ketika dipercaya oleh chairul tanjung mengelola sma uctf penulis tidak memiliki pengalaman sama sekali dalam mengelola sekolah yang terpaksa dipelajarinya secara autodidak dan dilakukan dari nol dengan kerja sama tim yang saling bersinergis setiap hari penulis berpikir keras untuk melakukan suatu terobosan apa lagi yang harus saya lakukan untuk sekolah ini cita cita luhur dari ctf untuk jangka panjang adalah sebagai pilot project dan membangun citra orang miskin pun bisa berprestasi dan menjadikan sma uctf sebagai sekolah unggulan yang diperhitungkan baik tingkat nasional maupun tingkat internasional ct foundation memberikan bantuan beasiswa penuh hingga masuk perguruan tinggi bagi anak yang berasal dari keluarga miskin tapi memiliki kecerdasan istimewa penulis bersedia memberikan pelatihan motivasi bagi kepala sekolah dan guru hubungi email fahruddin65@gmail.com
