lamentable lacuna in much of this study a gap between intellectual rigor and concrete experience while the contributions of augustine of hippo and thomas aquinas are important to any foundational study of the trinity a strictly philosophical and scholastic approach has proved to be both contentious and problematic as a result many are left wanting for more meaningful expressions of this profound mystery anne hunt fills this lacuna and offers a fresh avenue of reflection she explores the distinctly trinitarian insights of a number of christian mystics hildegard of bingen and meister eckhart bonaventure and elizabeth of the trinity teresa of avila and john of the cross william of st thierry and julian of norwich readers will find that the mystery of the divine life and love that was so tangibly given and so palpably experienced by these mystics is now offered to us through them anne hunt is faculty dean of theology and philosophy at australian catholic university she is currently vice president of the australian catholic theological association she is author of trinity nexus of the mysteries of christian faith what are they saying about the trinity and the trinity and the paschal mystery the sacrament of penance and religious life in golden age spain explores the practice of sacramental confession in spain between roughly 1500 and 1700 one of the most significant points of contact between the laity and ecclesiastical hierarchy confession lay at the heart of attempts to bring religious reformation to bear upon the lives of early modern spaniards rigid episcopal legislation royal decrees

and a barrage of prescriptive literature lead many scholars to construct the sacrament fundamentally as an instrument of social control foisted upon powerless laypeople drawing upon a wide range of early printed and archival materials this book considers confession as both a top down and a bottom up phenomenon rather than relying solely upon prescriptive and didactic literature it considers evidence that describes how the people of early modern spain experienced confession offering a rich portrayal of a critical and remarkably popular component of early modern religiosity the marranos were former jews forced to convert to christianity in spain and portugal and their later descendents despite economic and some political advancement these conversos suffered social stigma and were persecuted by the inquisition in this unconventional history yirmiyahu yovel tells their fascinating story and reflects on what it means for modern forms of identity he describes the marranos as the other within people who both did and did not belong rejected by most jews as renegades and by most veteran christians as jews with impure blood marranos had no definite integral identity yovel argues the judaizers marranos who wished to remain secretly jewish were not actually jews and those marranos who wished to assimilate were not truly integrated as hispano catholics rather mixing jewish and christian symbols and life patterns marranos were typically distinguished by a split identity they also discovered the subjective mind engaged in social and religious dissent and demonstrated early signs of secularity and

this worldliness in these ways yovel says the marranos anticipated and possibly helped create many central features of modern western and jewish experience one of yovel s philosophical conclusions is that split identity which the inquisition persecuted and modern nationalism considers illicit is a genuine and inevitable shape of human existence one that deserves recognition as a basic human freedom drawing on historical studies inquisition records and contemporary poems novels treatises and other writings this engaging critical history of the marrano experience is also a profound meditation on dual identities and the birth of modernity this title was first published in 2000 these essays explore the spiritual culture shared by texts and writers in western europe from the 13th to 17th centuries the visionaries mystics and nuns who were poets or scholars and the creative writers who drew on spiritual themes the topics range chronologically from the late 13th to late 17th centuries and geographically from germany england italy france spain and new spain mexico though the volume s centre is the spiritual culture of 16th century spain common concerns of each essay are the exploration of spiritual culture how some texts and writers shape expectations attending the life of the spirit and how they are in turn shaped by them the sub themes many of the essays share are the gendering of spiritual culture and the relationship between traditional literary genres like poetry and drama and spiritual discourse each text or spiritual figure covered here has a distinctive

spiritual voice a mystical gesture that contributes an individual mysticism to the common spiritual culture they all share each scholar in her or his own way defines this mystical gesture the essays analyze mechthild von magdberg piers plowman the second shepherds play catherine of siena bernardo de laredo teresa of avila alonso de la fuente luisa de carvajal y mendoza cecilian de nacimiento margaret mary alaconque and sor juana

theology has enjoyed a resurgence of interest in the last few

years there is a lamentable lacuna in much of this study a gap between intellectual rigor and concrete experience while the contributions of augustine of hippo and thomas aquinas are important to any foundational study of the trinity a strictly philosophical and scholastic approach has proved to be both contentious and problematic as a result many are left wanting for more meaningful expressions of this profound mystery anne hunt fills this lacuna and offers a fresh avenue of reflection she explores the distinctly trinitarian insights of a number of christian mystics hildegard of bingen and meister eckhart bonaventure and elizabeth of the trinity teresa of avila and john of the cross william of st thierry and julian of norwich readers will find that the mystery of the divine life and love that was so tangibly given and so palpably experienced by these mystics is now offered to us through them anne hunt is faculty dean of theology and philosophy at australian catholic university she is currently vice president of the australian catholic theological association she is author of trinity nexus of the mysteries of christian faith what are they saying about the trinity and the trinity and the paschal mystery

sacrament of penance and religious life in golden age spain explores the practice of sacramental confession in spain between roughly 1500 and 1700 one of the most significant points of contact between the laity and ecclesiastical hierarchy confession lay at the heart of attempts to bring religious reformation to bear

upon the lives of early modern spaniards rigid episcopal legislation royal decrees and a barrage of prescriptive literature lead many scholars to construct the sacrament fundamentally as an instrument of social control foisted upon powerless laypeople drawing upon a wide range of early printed and archival materials this book considers confession as both a top down and a bottom up phenomenon rather than relying solely upon prescriptive and didactic literature it considers evidence that describes how the people of early modern spain experienced confession offering a rich portrayal of a critical and remarkably popular component of early modern religiosity

The Feminine Genius of Catholic Theology 2012-07-26 the

marranos were former jews forced to convert to christianity in spain and portugal and their later descendents despite economic and some political advancement these conversos suffered social stigma and were persecuted by the inquisition in this unconventional history yirmiyahu yovel tells their fascinating story and reflects on what it means for modern forms of identity he describes the marranos as the other within people who both did and did not belong rejected by most jews as renegades and by most veteran christians as jews with impure blood marranos had no definite integral identity yovel argues the judaizers marranos who wished to remain secretly jewish were not actually jews and those marranos who wished to assimilate were not truly integrated as hispano catholics rather mixing jewish and christian symbols and life patterns marranos were typically

distinguished by a split identity they also discovered the subjective mind engaged in social and religious dissent and demonstrated early signs of secularity and this worldliness in these ways yovel says the marranos anticipated and possibly helped create many central features of modern western and jewish experience one of yovel s philosophical conclusions is that split identity which the inquisition persecuted and modern nationalism considers illicit is a genuine and inevitable shape of human existence one that deserves recognition as a basic human freedom drawing on historical studies inquisition records and contemporary poems novels treatises and other writings this engaging critical history of the marrano experience is also a profound meditation on dual identities and the birth of modernity
